The Military In The Third World:

The Military And Security In The Third World Sheldon W. Simon, 2019-06-26 This book explores two of the most important dimensions of the military as an institution in Third World politics its role in domestic power structures and internal development and its impact on the formation and execution of the security aspects of foreign policy These internal and external orientations are compared here across selected Third World countries in Asia Africa and Latin America The authors are area experts and specialists in comparative and international politics Part 1 focuses on how the interaction of military and civilian elites creates a specific domestic political climate The socioeconomic characteristics of these elites are compared and related to their policy preferences An examination of military establishments in regimes ranging from communist Cuba through business oriented Indonesia reveals whether military similarities persist among differing types of government In Part 2 the contributors examine the role of military force in the Third World through a general empirical treatment of military behavior in developing countries an assessment of the security policies with emphasis on their military components of several Middle Eastern and Asian states and an evaluation of the U S experience in supporting anti communist Third World security efforts Analyzing the Third World Norman W. Provizer, *Security and Economy in the Third World* Nicole Ball, 2014-07-14 Nicole Ball brings the effects of security expenditure to the center of that debate examining in detail how the potential negative consequences on development outweigh the potential positive effects Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Third-World Military Expenditure and Arms Production Robert E. Looney, 1988-08-31 **The Economics of Third World Military Expenditure** David K. Whynes, 1979-06-17 **National Security In The Third World** Abdul-Monem M. Al-Mashat, 2019-03-13 For nations of the Third World national security poses serious dilemmas Unlike Western nations less developed countries must balance the complex and often contradictory requirements of socioeconomic and political development with problems of internal stability and the requirements of national defense For these countries a concept of national s **Third World Military Expenditure** Robert D. McKinlay, 2016-10-06 The twin objectives of this book are to identify the determinants and to explore the implications of Third World military expenditure Beginning with a descriptive profile of Third World military expenditure the study uses cross national and longitudinal data to explore the determinants and implications across a range of issues areas On the basis of this analysis the book concludes with an empirical theory of military expenditure and a critical appraisal of the general implications

The Struggle for the Third World Jerry Hough, 2010-12-01 In the last quarter century the Soviet Union and the United States have repeatedly come into conflict in various parts of the third world During this period the most backward third world countries have sometimes proved susceptible to radical revolution but the countries well on the way to industrialization have moved away from left wing economic and political policies In the longer perspective the West has been winning the struggle for the third world The changes in those countries have been the subject of intense published debate in the Soviet Union debate on Marxist concepts of the stages of history on theories of economic development and revolutionary strategy and on foreign policy Jerry F Hough explores the breakup of the orthodox Stalinist position on these issues and the evolution of free swinging discussion about them He suggests that paradoxically many of the old Stalinist ideas retain their strongest hold in the United States which has not fully recognized its victory in the third world and the importance of the West's great economic power The United States too often assumes that radical regimes will inevitably follow the Soviet path of development and that the nature of a regime determines the nature of its foreign policy Because of these misperceptions Hough argues the United States misses many opportunities in the third world It emphasizes military power even to the extent of undermining its crucial economic power and it fails to offer the face saving gestures that would permit Soviet retreats Hough presents a prescription for an American policy better suited to the new realities in the third world and to the changing Soviet attitude toward them

Militarization, Internal Repression and Social Welfare in the Third World Miles D Wolpin, 2023-10-27 First published in 1986 Militarization Internal Repression and Social Welfare in the Third World argues that there is a relationship between the level of a regime's military spending and the degree of internal repression it inflicts This book presents a detailed empirical analysis of this situation and presents the results of more than three dozen researchers who have published comparative or case studies of the substitution effects of military expenditures in socio economic areas While the primary concern is with the Third World the book also analyses the costs to advanced capitalist and to state socialist systems and discusses their role in further militarization This book will be of interest to students of political science international relations colonialism and area studies
