The Milkweed Ladies:

The Milkweed Ladies Louise McNeill, 1988-08-19 The Milkweed Ladies the memoirs of poet Louise McNeill is written out of deep affection for and intimate knowledge of the lives of rural people and the rhythms of the natural world It is a personal account of the farm in southern West Virginia where her family has lived for nine generations Born in 1911 McNeill tells the story of her own growing years on the farm through the circadian rhythms of rural life She presents the farm itself its level fields its fence row and hilly pastures some two hundred acres of trees and bluegrass running water and the winding dusty paths that cattle and humans have kept open through the years She writes movingly of the harsh routines of the lives of her family from spring ploughing to winter sugaring and of the hold the farm itself has on them and the earth itself on all of us By the 1930s the farm and the surrounding community had been drastically changed by the destruction left by the lumber companies by the increased access to the outside world resulting from railway and automobile and by war McNeill herself left the farm in 1937 to complete her college education and to pursue her literary career Throughout The Milkweed Ladies McNeill juxtaposes the life of the farm with the larger world events that impinge on it But the larger world moves closer and closer to the world of the farm as McNeill herself moves away from it The book concludes with McNeill's perspective on the events of August 5 1945 As she sits in the Commodore Hotel in New York City reading the headlines about Hiroshima she understands that she can never see the farm in the same way again The Milkweed Ladies is filled with memorable characters an herb gathering Granny McNeill's sailor father her patient flower loving mother and Aunt Malindy in her black sateen dress who never did a lick of work With her poet's gift for detail and language McNeill creates a world forgotten by many of us to some of us never known

A Group of Their Own Katherine H. Adams, 2001-02-22 A Group of Their Own is the fascinating story of the first generations of women who went to college to learn to be writers and then launched their careers writing poetry and prose This unprecedented group included Elizabeth Bishop Ruby Black Pearl Buck Emma Bugbee Willa Cather Zona Gale Mildred Gilman Zora Neale Hurston Mary McCarthy Marianne Moore Eudora Welty and Margaret Walker

Hill Daughter Louise McNeill, 2014-10-20 Introduction by Maggie Anderson Musically complex and intellectually sophisticated Louise McNeill's imagery and rhythms have their deepest sources in the West Virginia mountains where she was born in 1911 on a farm that has been in her family for nine generations These are rooted poems passionately concerned with stewardship of the land and with the various destructions of land and people that often come masked as progress In colloquial rural and sometimes macabre imagery Louise McNeill documents the effects of the change from a farm to an industrial economy on the West Virginia mountain people She writes of the earliest white settlements on the western side of the Alleghenies and of the people who remained there through the coming of the roads the timber and coal industries and the several wars of this century The reappearance of Louise McNeill's long out of print poems will be cause for celebration for readers familiar with her work Those reading it for the first time will discover musical serious idiosyncratic and startling

Lewis,2000-11-09 In 1880 ancient growth forest still covered two thirds of West Virginia but by the 1920s lumbermen had denuded the entire region Ronald Lewis explores the transformation in these mountain counties precipitated by deforestation As the only state that lies entirely within the Appalachian region West Virginia provides an ideal site for studying the broader social impact of deforestation in Appalachia the South and the eastern United States Most of West Virginia was still dominated by a backcountry economy when the industrial transition began In short order however railroads linked remote mountain settlements directly to national markets hauling away forest products and returning with manufactured goods and modern ideas Workers from the countryside and abroad swelled new mill towns and merchants ventured into the mountains to fulfill the needs of the growing population To protect their massive investments capitalists increasingly extended control over the state s legal and political systems Eventually though even ardent supporters of industrialization had reason to contemplate the consequences of unregulated exploitation Once the timber was gone the mills closed and the railroads pulled up their tracks leaving behind an environmental disaster and a new class of marginalized rural poor to confront the worst depression in American history *Maggie Anderson Greatest Hits* Maggie Anderson,2004-06 **Ladies' Home Companion** ,1926 *The Girl Singer* Marianne Worthington,2021-11-02 Feminism Appalachian culture and country music three threads beautifully woven into one in Marianne Worthington s poetry collection *The Girl Singer* The poet grew up in urban Appalachia listening to country and folk music and letting it live within her The speakers in *The Girl Singer* offer lyrical celebrations of the women who performed that music and recite their stories anew The girl singer is also the poet one who traces loss through turning seasons monitors the patterns of neighborhood wildlife and creates a sisterhood for singing old songs in new ways *The Girl Singer* is part family history part music and part nature walk Worthington s attentive eye and heart are reflected in the starkly striking and painful images she paints in the poems Every poem whether describing a connection with Appalachian wildlife retelling the lyrics of a classic country tune reflecting on the speaker s bloodline or giving voice to famous musical figures of the past strikes a powerful chord
