and fascinating part of this country's varied and violent history. For a generation from about AD 140 to 160 the Antonine Wall was the north west frontier of the Roman Empire. Constructed by the Roman army, it ran from modern Boness on the Forth to Old Kilpatrick on the Clyde and consisted of a turf rampart fronted by a wide and deep ditch. At regular intervals were forts connected by a road, while outside the fort gates clustered civil settlements. Antoninus Pius, whom the wall was named after, reigned longer than any other emperor, with the exception of its founder Augustus. Yet relatively little is known about him. In this meticulously researched book, David Breeze examines this enigmatic life and the reasons for the construction and abandonment of his Wall.
