Overlanders Richard Wright,2000 Overlanders is a fascinating meticulously researched account of a western odyssey for gold a great adventure story that was a pivotal experience in the history and development of Canada In the late 1850s and early 1860s thousands of people from around the globe were rushing to the rivers and creeks of British Columbia in response to one of the greatest gold discoveries in the world s history In eastern Canada and the northern United States groups of men and a few women chose not to follow the normal sea routes but to go overland on unexplored and undeveloped trails They formed a variety of disparate groups large and small fit experienced weak young old children leaders and followers Their route initially chosen to save money resulted in the opening of the northern continent s vast interior Richard Thomas Wright tells the epic tale of the cross Canada treks for gold 1858 1862 following an unexplored overland route across North America to the goldfields of British Columbia This is the updated story of that amazing adventure with a new chapter and new photos

Dominion Stephen Bown,2023-10-10 A thrilling new account of the engineering triumph that created a nation In The Company his bestselling work of revisionist history Stephen R Bown told the dramatic adventurous and bloody tale of Canada s origins in the fur trade With Dominion he continues the nation s creation story with an equally gripping and eye opening account of the building of the Canadian Pacific Railway In the late 19th century demand for fur was in sharp decline This could have spelled economic disaster for the venerable Hudson s Bay Company But an idea emerged in political and business circles in Ottawa and Montreal to connect the disparate British colonies into a single entity that would stretch from the Atlantic to the Pacific With over 3 000 kilometres of track much of it driven through wildly inhospitable terrain the CPR would be the longest railway in the world and the most difficult to build Its construction was the defining event of its era and a catalyst for powerful global forces The times were marked by greed hubris blatant empire building oppression corruption and theft They were good for some hard for most disastrous for others The CPR enabled a new country but it came at a terrible price Stephen R Bown again widens our view of the past to include the adventures and hardships of explorers and surveyors the resistance of Indigenous peoples and the terrific and horrific work of many thousands of labourers His vivid portrayal of the powerful forces that were moulding the world in the late 19th century provides a revelatory new picture of modern Canada s creation as an independent state The Cariboo Trail Agnes C. Laut,1916 **Literary History of Canada** Carl F. Klinck,Alfred G. Bailey,Claude Bissell,Roy Daniells,Northrop Frye,Desmond Pacey,1976-12-15 Hailed as a

Overland from Canada to British Columbia Joanne Leduc, 2011-11-01 Spurred on by reports of gold in the Cariboo adventurers from all over the world descended on British Columbia in the mid 1800s Among them were ambitious easterners who accepted the challenge of the shorter but more arduous overland route across the prairies and the Rockies One such man determined to find his fortune in the West was Thomas McMicking destined to lead the largest and best organized group of Overlanders into British Columbia His record of their epic journey is a valuable historical document that possesses the universal appeal of an adventure story McMicking presents a vivid image of the hardships of the overland route the dangers both real and imagined like the apparently threatening Plains Indians who turned out to be our best friends facts about important officials and settlements and scientific observations of the physical environment But this is also a very human document that describes a journey of self discovery revealing a sensitive man's encounter with a bountiful and beautiful yet hostile and alien land The journal is augmented by a valuable introduction appendices on the Overlanders trail and the McMicking family and biographical sketches of many of the men who later played prominent roles in British Columbia's development and whose descendants became some of the province's best known leaders and families It is also enriched by the pictorial records of William Hind a major Canadian painter who became known as the expedition artist Drawing on much previously unavailable

Light for a Cold Land Peter Larisey, 1993-01-10 Lawren Stewart Harris artistic career began in the first decade of our century Well known for the nationalist inspired landscapes that he painted between 1908 and 1932 Harris turned resolutely in 1934 to the painting of abstractions He continued to create works that reflected his own modernist and mystical developments until the end of his life Canadians praise Harris landscapes and admire him as a

planner of innovative and heroic sounding sketching trips into the North He is also recognized as the chief organizer of the Group of Seven A long list of younger artists he considered creative greatly benefited from Harris encouragement and often generous practical help many of them have been interviewed for this book In the lives of some Canadians harris still functions as a gurulike guide a role he was quite content to take on during his own lifetime because of the spiritual content of his art and aesthetic writings and the example of his optimistic vigorous and apparently untroubled life But Harris was not an untroubled life and *Light for a Cold Land* examines his personal crises and difficulties some of which caused important changes in his art The book also uncovers the painting styles artistic tensions and cultural dynamics of the German milieu in which Harris received his only formal art education His student years in Berlin profoundly influenced not only his art but also his artistic politics and his philosophy It is ironic that in the art of this most articulate of Canadian nationalist painters there are extensive German influences *Light for a Cold Land* is the first art historical study of Lawren Harris that attempts to explore his life and all aspects of his career It is based on extensive work in archives libraries public art galleries and private collections in Canada as well as research in Germany and interviews with members of Harris family and many of his friends acquaintances colleagues and critics
