A Dictionary of Music and Musicians (A.D. 1450-1889)

,1890 **A Dictionary of Music and Musicians (A.D. 1450-1880) by Eminent Writers, English and Foreign** John Alexander Fuller-Maitland, Adela H. Wodehouse, 1879 **A Dictionary of Music and Musicians (A.D. 1450-1880) by Eminent Writers, English and Foreign** George Grove, 1879 **Recording History** Peter Martland, 2013 In *Recording History* Peter Martland uses a range of archival sources to trace the genesis and early development of the British record industry from 1888 to 1931. A work of economic and cultural history that draws on a vast range of quantitative data, it surveys the commercial and business activities of the British record industry like no other work of recording history has before. Martland's study charts the successes and failures of this industry and its impact on domestic entertainment. Showcasing its many colorful pioneers from both sides of the Atlantic, *Recording History* is first and foremost an account of The Gramophone Company Ltd, a precursor to today's recording giant EMI, and then the most important British record company active from the late 19th century until the end of the second decade of the twentieth century. Martland's history spans the years from the original inventors through industrial and market formation and final take off, including the riveting battle in recording formats. Special attention is given to the impact of the First World War and the that followed in its wake. Scholars of recording history will find in Martland's study the story of the development of the recording studio, the artists who made the first records, from which some like Italian opera tenor Enrico Caruso earned a fortune, and the change records wrought in the relationship between performer and audience, transforming the reception and appreciation of musical culture. Filling a much needed gap in scholarship, *Recording History* documents the beginnings of the end of the contemporary international record industry.

**A Dictionary of Music and Musicians (A.D. 1450-1889) by Eminent Writers, English and Foreign** George Grove, 1879 *"A" Dictionary of Music and Musicians (A.D. 1450-1883) ...* Sir George Grove, 1900 **The Spectator**, 1921 Thomas Middleton and Early Modern Textual Culture Gary Taylor, John Lavagnino, 2007-11-22 *Thomas Middleton and Early Modern Textual Culture* is not only a companion to *The Collected Works of Thomas Middleton* which every scholar of Renaissance literature will find indispensable. It is also essential reading for anyone interested in the history of the book in early modern Europe. The book is divided into two parts. The first part on *The Culture* situates Middleton within an historical and theoretical overview of early modern textual production, reproduction, circulation, and reception. An introductory essay by Gary Taylor, *The Order of Persons*, surveys lists of persons written by or connected to Middleton, using the complex relationship between textual and social orders to trace the evolution of textual culture in England during the Middleton century, 1580-1679. Ten original essays then focus on Middleton's connections to different aspects of textual culture in that century: authorship by MacD P Jackson; manuscripts by Harold Love; legal texts by Edward Geiskes; censorship by Richard Burt; printing by Adrian Weiss; visual texts by John Astington; music by Andrew Sabol; stationers and living authors by Cyndia Clegg; posthumous publishing by Maureen Bell; and early readers by John Jowett. The second part, *The Texts*, supplies the documentation for claims made in the first part. This includes detailed evidence for the canon and chronology of Middleton's

works in all genres greatly extending previous scholarship and using the latest corpus based attribution techniques A full editorial apparatus is supplied for each item in The Collected Works an Introduction which summarizes and extends previous scholarship is followed by textual notes recording substantive departures from the control text variants between early texts press variants discussions of emendations and for plays an exact transcription of all original stage directions Cross references make it easy to move between the two volumes This authoritative account of the early texts includes some extraordinarily complicated cases which have never before been systematically collated Hence all you vain delights the most popular song lyric from the Renaissance stage The Two Gates of Salvation The Peacemaker and A Game at Chess the most complex editorial problem in early modern drama with eight extant texts and numerous reports of the early performances
