The Papers of Ulysses S. Grant: January 8-March 31, 1862 Ulysses Simpson Grant, 1967 Grant's trials and tribulations as a general after his victory at Fort Donelson is the scope of this 88 day period. The end of the Confederate power in western Kentucky and Tennessee began with the Union's capture of Fort Henry on February 6. After the victory at Fort Donelson on February 16, Union occupation of the region was only a matter of time. Tried and tested in the victory at Fort Henry, Grant seemed to be on his own as a general. Yet his direct links with Halleck broken and with unsatisfactory communications with General George W. Cullum, Halleck's Chief of Staff at Cairo, and in spite of his great victory at Donelson, Grant was removed from command by Halleck and was forced to remain behind at Fort Henry while his troops moved up the Tennessee River under General Charles F. Smith. The failure of communications when Grant could not report both bothered and embarrassed Halleck. Unsure of his future in the army and of his relations to his superior, Grant's thoughts turned inward toward leaving the army and he repeatedly asked to be relieved until on March 14 he was asked to resume command.

The Battles of Forts Henry and Donelson took place in February of 1862 and were early indicators of the success the US would have in the Civil War's Western Theater. Due to Kentucky's neutrality at the time, Brig. Gen. Daniel S. Donelson was instructed to find suitable sites for fortification along the Tennessee River but just inside the state boundaries of Tennessee. Forts Henry and Donelson were constructed in the summer of 1861 and were quickly identified by Gen. Ulysses S. Grant as strategic fortifications that if conquered would open the Federal Army's path to Alabama and Mississippi. Fort Henry fell to Federal control on February 6, 1862, and Fort Donelson fell six days later. With the Tennessee and Mississippi Rivers now open to Federal gunboats, Grant and his army would head southwest to Memphis and on to Vicksburg. *Decisions at Forts Henry and Donelson* explores the critical decisions made by Confederate and Federal commanders during the battle and how these decisions shaped its outcome. Rather than offering a history of the battle, Hank Koopman hones in on a sequence of critical decisions made by commanders on both sides of the conflict to provide a blueprint of the Battles of Forts Henry and Donelson at their tactical core. Identifying and exploring the critical decisions in this way allows students of the

battles to progress from a knowledge of what happened to a mature grasp of why events happened Complete with maps and a driving tour Decisions at Forts Henry and Donelson is an indispensable primer and readers looking for a concise introduction to these battles can tour this sacred ground or read about it at their leisure with key insights into the campaigns and a deeper understanding of the Civil War itself Decisions at Forts Henry and Donelson is the twenty second in a series of books that will explore the critical decisions of major campaigns and battles of the Civil War **Military Review** ,1972
