**The Logic of Political Conflict in Medieval Cities** Patrick Lantschner, 2015 This volume traces the logic of urban political conflict in late medieval Europe's most heavily urbanized regions Italy and the Southern Low Countries The fourteenth and fifteenth centuries are often associated with the increasing consolidation of states but at the same time they also saw high levels of political conflict and revolt in cities that themselves were a lasting heritage of this period In often radically different ways conflict constituted a crucial part of political life in the six cities studied for this book Bologna Florence and Verona as well as Liege Lille and Tournai The Logic of Political Conflict in Medieval Cities argues that such conflicts rather than subverting ordinary political life were essential features of the political systems that developed in cities Conflicts were embedded in a polycentric political order characterized by multiple political units and bases of organization ranging from guilds to external agencies In this multi faceted and shifting context late medieval city dwellers developed particular strategies of legitimating conflict diverse modes of behaviour and various forms of association through which conflict could be addressed At the same time different configurations of these political units gave rise to distinct systems of conflict which varied from city to city Across all these cities conflict gave rise to a distinct form of political organization and represents the nodal point around which this political and social history of cities is written

**The Making of Polities** John Watts, 2009-05-07 This major survey of political life in late medieval Europe provides a framework for understanding the developments that shaped this turbulent period Rather than emphasising crisis decline disorder or the birth of the modern state this account centres on the mixed results of political and governmental growth across the continent The age of the Hundred Years War schism and revolt was also a time of rapid growth in jurisdiction taxation and representation of spreading literacy and evolving political technique This mixture of state formation and political convulsion lay at the heart of the making of polities Offering a full introduction to political events and processes from the fourteenth century to the sixteenth this book combines a broad comparative account with discussion of individual regions and states including eastern and northern Europe alongside the more familiar west and south

**Form and Order in Medieval France** Brigitte Bedos-Rezak, 2024-12-11 By the early 13th century the use of seals in Northern Europe was a generalized phenomenon which involved society as a whole crossing boundaries of gender age religion and social and professional status The function traditionally ascribed to seals is the validation of the documents to which they were affixed but the phenomenon has far wider implications as is brought out in this collection of studies by Brigitte Bedos Rezak In itself a seal could serve as a quasi amuletic object or a personal adornment the image impressed from it functioned as a sign conveying identity and power and the ritual of sealing provided an occasion for the affirmation of status In her work the author has aimed to use the approaches of statistics cultural and women's history and semiotics as well as the traditional skills of art history law and diplomatics to show the numerous surviving seals can be used to reach into the history of the Middle Ages and at the same

time to explore and test the interpretative models suggested by semiotics and postmodern theories on symbols representation and meaning Prisoners of War in the Hundred Years War Rémy Ambühl, 2013-01-17 The status of prisoners of war was firmly rooted in the practice of ransoming in the Middle Ages By the opening stages of the Hundred Years War ransoming had become widespread among the knightly community and the crown had already begun to exercise tighter control over the practice of war This led to tensions between public and private interests over ransoms and prisoners of war Historians have long emphasised the significance of the French and English crowns interference in the issue of prisoners of war but this original and stimulating study questions whether they have been too influenced by the state centred nature of most surviving sources Based on extensive archival research this book tests customs laws and theory against the individual experiences of captors and prisoners during the Hundred Years War to evoke their world in all its complexity

**Ceremonial Entries, Municipal Liberties and the Negotiation of Power in Valois France, 1328-1589** Neil Murphy, 2016-06-27 In a fresh examination of the French ceremonial entry Neil Murphy considers the role these events played in the negotiation between urban elites and the Valois monarchy for rights and liberties Moving away from the customary focus on the pageantry this book focuses on how urban governments used these ceremonies to offer the ruler or his representatives petitions regarding their rights liberties and customs Drawing on extensive research he shows that ceremonial entries lay at the heart of how the state functioned in later medieval and Renaissance France The Hundred Years War Vol 5 Jonathan Sumption, 2023-08-29 Sumption is that rare and precious thing a serious decent honest thinker and one of our finest historians Dan Jones Sunday Times Gripping and eminently readable a compelling justification for the enduring value of historical narrative The Times Unsurpassed and probably unsurpassable Daily Telegraph In this final volume of his epic history of the Hundred Years War Jonathan Sumption tells the story of the collapse of the English dream of conquest from the opening years of the reign of Henry VI until the loss of all of England's continental dominions except Calais thirty years later This sudden reversal of fortune was a seminal event in the history of the two principal nation states of western Europe ending four centuries of the English dynasty's presence in France and separating two countries whose fortunes had once been closely intertwined creating a new sense of national identity in both The legacy of these events would influence their divergent fortunes for centuries to come Behind the clash of arms stood some of the most remarkable personalities of the age the Duke of Bedford the English Regent who ruled much of France Charles VII of France who patiently rebuilt his kingdom after the disasters of his early years the captains populating the pages of Shakespeare Fastolf Montagu Talbot Dunois and above all the extraordinary figure of Joan of Arc who changed the course of the war in a few weeks at the age of seventeen The Hundred Years War ends in England's agonising defeat but triumph for Jonathan Sumption There is no doubting his achievement It is as everyone says a monumental work Spectator **The Medieval City Under Siege** Ivy A. Corfis, Michael Wolfe, 1999-11-04 These studies of medieval military history examine the topic of siege

warfare exploring the urban milieu within which it developed and the evolution of siege technology up to the advent of gunpowder weaponry

*A Companion to the Council of Basel* Michiel Decaluwe, Thomas M. Izbicki, Gerald Christianson, 2016-11-01 The Council of Basel 1431 1449 met to defend the faith and reform the Church Its efforts to deal with Hussite heresy and reform the Roman Curia led to conflict with Pope Eugenius IV 1431 1447 The council divided over the site of a council of union with the Eastern churches Some left to attend Eugenius Council of Florence 1438 1443 While that council was negotiating reunion with Eastern churches in 1439 Basel was acting to claim supremacy and depose Eugenius The ensuing struggle went on for a decade before Basel and its pope Felix V Amadeus VIII of Savoy gave up under pressure from the princes These essays address multiple aspects of the Council of Basel including its reforming efforts and bureaucracy Contributors include Alberto Cadili Gerald Christianson Michiel Decaluwe Thomas A Fudge Ursula Gie mann Hans J rg Gilomen Johannes Helmrath Thomas M Izbicki Jesse D Mann Ivan Mariano Heribert M ller milie Rosenblieh and Birgit Studt

*Handbook of European History 1400-1600: Late Middle Ages, Renaissance and Reformation* Thomas Brady, Oberman, James D. Tracy, 2018-11-12 The Handbook of European History 1400 1600 brings together the best scholarship into an array of topical chapters that present current knowledge and thinking in ways useful to the specialist and accessible to students and to the educated non specialist Forty one leading scholars in this field of history present the state of knowledge about the grand themes main controversies and fruitful directions for research of European history in this era Volume 1 Structures and Assertions described the people lands religions and political structures which define the setting for this historical period Volume 2 Visions Programs Outcomes covers the early stages of the process by which newly established confessional structures began to work their way among the populace

*War and Competition between States* Philippe Contamine, 2000-11-23 In the five hundred years covered by this volume there was scarcely a year which passed without

either war or some open demonstration of hostility between the many sovereign powers which governed Europe States and peoples lived under the shadow of war were ceaselessly prompted to consider the possibility of war had to find ways of dealing with the consequences of war This volume in the Origins of the Modern State in Europe series focuses on the crucial role of war in the formation of state systems It starts from the assumption that interstate rivalries and conflicts were at the heart not only of the demarcation of territories but also of the ever growing need to mobilize resources for warfare Institutionalization was consequently highly dependent on such competition It was for military reasons and with military aims that the state secured control of time and space both at sea and on land The Origins of the Modern State in Europe series arises from an important international research programme sponsored by the European Science Foundation The aim of the series which comprises seven volumes is to bring together specialists from different countries who reinterpret from a comparative European perspective different aspects of the formation of the state over the long period from the beginning of the thirteenth to the end of the eighteenth century One of the main achievements of the research programme has been to overcome the long established historiographical tendency to regard states mainly from the viewpoint of their twentieth century borders

*The Life and Afterlife of Isabeau of Bavaria* Tracy Adams, 2010-09-15 The fascinating history of Isabeau of Bavaria is a tale of two queens During her lifetime Isabeau the long suffering wife of mad King Charles VI of France was respected and revered After her death she was reviled as an incompetent regent depraved adulteress and betrayer of the throne Asserting that there is no historical support for this posthumous reputation Tracy Adams returns Isabeau to her rightful place in history Adulteress and traitor two charges long leveled against the queen are the first subjects of Adam s reinterpretation of medieval French history Scholars have concluded that the myths of Isabeau s scandalous past are just that rumors that evolved after her death in the context of a political power struggle Unfortunately this has not prevented the lies from finding their way into respected studies on the period Adams s own work serves as a corrective rehabilitating the reputation of the good queen and exploring the larger topic of memory and the creation of myth Adams next challenges the general perception that the queen lacked political acumen With her husband incapacitated by insanity Isabeau was forced to rule a country ripped apart by feuding power hungry factions Adams argues that Isabeau handled her role astutely in such a contentious environment preserving the monarchy from the incursions of the king s powerful male relatives Taking issue with history s harsh treatment of a woman who ruled under difficult circumstances Adams convincingly recasts Isabeau as a respected and competent queen

**Textual and Visual Representations of Power and Justice in Medieval France** Rosalind Brown-Grant, Anne D. Hedeman, Bernard Ribémont, 2016-12-05 Thoroughly interdisciplinary in approach this volume examines how concepts such as the exercising of power the distribution of justice and transgression against the law were treated in both textual and pictorial terms in works produced and circulated in medieval French manuscripts and early printed books Analysing texts ranging from romances political allegories chivalric biographies and catalogues of famous men

and women through saints lives mystery plays and Books of Hours to works of Roman canon and customary law these studies offer new insights into the diverse ways in which the language and imagery of politics and justice permeated French culture particularly in the later Middle Ages Organized around three closely related themes the prince as a just ruler the figure of the judge and the role of the queen in relation to matters of justice the issues addressed in these studies such as what constitutes a just war what treatment should be meted out to prisoners what personal qualities are needed for the role of lawgiver and what limits are placed on women s participation in judicial processes are ones that are still the subject of debate today What the contributors show above all is the degree of political engagement on the part of writers and artists responsible for cultural production in this period With their textual strategies of exemplification allegorization and satirical deprecation and their visual strategies of hierarchical ordering spatial organization and symbolic allusion these figures aimed to show that the pen and paintbrush could aspire to being as mighty as the sword wielded by Lady Justice herself

**Structures and Assertions** Thomas Allan Brady, Heiko Augustinus Oberman, James D. Tracy, 1993-12-31 Vol 1 From Renaissance Monarchy to Absolute Monarchy J. Russell Major, 1997-05-29 Evans classics U of British Columbia examines the history of the great emperor whose reign marks the transition between Late Antiquity and the Byzantine period including what is presently known about his life the social structure of the empire its relations with its neighbors and naturally its wars It also examines theological issues which split the empire and left deep divisions after Justinian s death Annotation copyright by Book News Inc Portland OR **Conquest** Juliet Barker, 2012-03-01 Barker tells the dramatic story of the thirty years when England ruled France at the point of a sword Henry V s second invasion of France in 1417 launched a campaign that would place the crown of France on an English head The appearance of a visionary peasant girl Joan of Arc was able to halt the English advance but not for long Joan of Arc: Maid, Myth and History Timothy Wilson-Smith, 2011-10-21 Joan of Arc born in Domremy in France in 1412 began to hear voices when she was thirteen and believing they were directives from God followed them to the French court to battle to wrest France from the English in the Hundred Years War and to defeat and capture She was put on trial for heresy and on 30 May 1431 burned at the stake Even today many people are fascinated by this teenage woman who persuaded her king to believe that she could lead her nation to victory In the retrial of 1452 6 she was vindicated but it took almost five hundred years after an English soldier declared we have burnt a saint for the Catholic Church to conclude that she was indeed one Joan of Arc Maid Myth and Mystery is not merely an account of a life that was cut short its focus is also on Joan s history which in 1431 had just begun and which the author shows was influenced just as much by the transformation in Anglo French relations and by internal politics issues of freedom and republicanism and by changes in society regarding secularisation and belief as by our response to the central issue of Joan s voices themselves

**Joan of Arc** , 2013-01-01 This sourcebook collects together for the first time in English the major documents relating to the life and contemporary reputation of Joan of Arc Also known as La Pucelle she led a French Army against the English in

1429 arguably turning the course of the war in favour of the French king Charles VII The fact that she achieved all of this when just a seventeen year old peasant girl highlights the magnitude of her achievements and also opens up other ways of looking at her story For many Joan represents the voice of ordinary people in the fifteenth century the victims of high politics and warfare that devastated France Her story ended tragically in 1431 when she was put on trial for heresy and sorcery by an ecclesiastical court and was burned at the stake This book shows how the trial which was organised by her enemies provides an important window into late medieval attitudes towards religion and gender as Joan was effectively persecuted by the established Church for her supposedly non conformist views on spirituality and the role of women Presented within a contextual and critical framework this book encourages scholars and students to rethink this remarkable story It will be invaluable reading for those working in the fields of medieval society and heresy as well as the Hundred Years War     *The Good King* Margaret L. Kekewich, 2008-10-31 King Ren is little known beyond France yet through his controversial daughter Margaret of Anjou he affected events in England during the Wars of the Roses Ren s court rivalled Burgundy in its rich artistic culture and his claim to the kingdom of Naples started a process that led to enormous changes in the power structure of Southern Europe
