The Parliamentary Diary Of Narcissus Luttrell 1691 1693:

The Parliamentary Diary of Narcissus Luttrell, 1691-1693. Edited by Henry Horwitz Narcissus Luttrell, Henry Horwitz, 1972 *The House of Commons, 1690-1715* David Hayton, Eveline Cruickshanks, Stuart Handley, 2002 Gender and Petty Violence in London, 1680-1720 Jennine Hurl-Eamon, 2005 Looking at a heretofore overlooked set of archival records of London in the late 17th and early 18th centuries Hurl Eamon reassesses the impact of gender on petty crime and its prosecution during the period This book offers a new approach to the growing body of work on the history of violence in past societies By focusing upon low cost prosecutions in minor courts Hurl Eamon uncovers thousands of assaults on the streets of early modern London Previous histories stressing the masculine nature of past violence are questioned here women perpetrated one third of all assaults In looking at more mundane altercations rather than the homicidal attacks studied in previous histories the book investigates violence as a physical language with some forms that were subject to gender constraints but many of which were available to both men and women Quantitative analyses of various circumstances surrounding the assaults including initial causes weapons used and injuries sustained outline the patterns of violence as a language Hurl Eamon also stresses the importance of focusing on the prosecutorial voice In bringing the court s attention to petty attacks thousands of early modern men and women should be seen as agents rather than victims This view is especially interesting in the context of domestic violence where hundreds of wives and servants prosecuted patriarchs for assault and in the Mohock Scare of 1712 where London s populace rose up in opposition to aristocratic violence The discussion is informed by a detailed knowledge of assault laws and the rules governing justices of the peace The Social Life of Coffee Brian Cowan, 2008-10-01 What induced the British to adopt foreign coffee drinking customs in the seventeenth century Why did an entirely new social institution the coffeehouse emerge as the primary place for consumption of this new drink In this lively book Brian Cowan locates the answers to these questions in the particularly British combination of curiosity commerce and civil society Cowan provides the definitive account of the origins of coffee drinking and coffeehouse society and in so doing he reshapes our understanding of the commercial and consumer revolutions in Britain during the long Stuart century Britain s virtuosi gentlemanly patrons of the arts and sciences were profoundly interested in things strange and exotic Cowan explores how such virtuosi spurred initial consumer interest in coffee and invented the social template for the first coffeehouses As the coffeehouse evolved rising to take a central role in British commercial and civil society the virtuosi were also transformed by their own invention **Money, Power, and Print** Charles Ivar McGrath, Christopher J. Fauske, 2008 This collection gathers the expertise of scholars in several disciplines to examine the manner in which financial and economic arguments were expressed in pamphlets broadsides and longer works of literature in the seventeenth and eighteenth centuries and to assess to what extent the political realities of the day were informed by these debates or alternatively shaped by that rhetoric The contributors to the volume draw upon an extensive variety of contemporary sources and modern

analyses of the formative years of the financial revolution to reexamine many of the existing conventional ideas about the relationship between money power and print and to suggest that the subject is far more complex and interrelated than most studies up to now have indicated Particular attention is paid to the fact that the financial revolution did not occur in London in isolation from the various regions of the British Isles The essays address the question of how money power and print influenced the contemporary emergence of a radically different public finance structure in the British empire and how retrospective understanding of the results have influenced historical readings of the texts and the events A number of contributions offer detailed analyses of particular moments or structures in the reshaping of the public financial sphere such as the parliamentary and pamphlet debate over the establishment of the Bank of England and proposals for a land bank as an alternative Other essays focus on broader themes illustrative of larger trends during the period such as the Scottish support for an expedition to Madagascar to take advantage of presumed pirate treasure on the island

BOOK JACKET William III and the Godly Revolution Tony Claydon, 1996 This is the first extensive account of royal propaganda in England between 1689 and 1702 It demonstrates that the regime of William III did not rely upon legal or constitutional rhetoric as it attempted to legitimate itself after the Glorious Revolution but rather used a protestant providential and biblically based language of courtly reformation This language presented the king as a divinely protected godly magistrate who could both defend the true church against its popish enemies and restore the original piety and virtue of the elect English nation Concentrating upon a range of hitherto understudied sources especially sermons and public prayers the book demonstrates the vigour with which these ideas were broadcast by an imaginative group of propagandists enabling the king to cope with central political difficulties the need to attract support for wars with France and the need to work with Parliament

Britain in the First Age of Party, 1687-1750 Clyve Jones, 1986-07-01 The 70 years of late Stuart and early Hanoverian Britain following 1680 were a crucial period in British politics and society seeing the growth both of political parties and of stability This collection of original essays provides a coherent account of Britain in the First Age of Party

Business News in the Early Modern Atlantic World Sophie Jones, Siobhan Talbott, 2024-01-15 Business News in the Early Modern Atlantic World explores the creation dissemination and consumption of a specific type of news business news within early modern commercial news networks The volume contains eleven case studies written by scholars from a range of disciplines which span the breadth of the early modern Atlantic from the first appearance of serial corantos in the seventeenth century to the United States Declaration of Independence in the late eighteenth century These expert contributions showcase the range of innovative methodological and theoretical approaches which can be used to study business news including social network analysis textual analysis and qualitative methods

Papers from the 4th International Conference on English Historical Linguistics, Amsterdam, April 10-13, 1985 Roger Eaton, Olga Fischer, Willem F. Koopman, Frederike van der Leek, 1985-01-01 These papers are a selection from papers presented at the 4th International Conference on English Historical Linguistics

Amsterdam 1985 Most studies deal with some aspect of an earlier stage of English though present day varieties of English are also under investigation Many of the papers show that there is a growing interest in the question why a certain change has taken place Furthermore the volume contains a considerable number of papers on historical syntax James II and the Trial of the Seven Bishops W. Gibson, 2009-01-30 The trial of the seven bishops in 1688 was a significant prelude to the Glorious Revolution as popular support for the bishops led to a widespread welcome for William of Orange's invasion Their prosecution showed James II at his most intolerant and threatened the only institution for which most English people felt more loyalty than the monarchy
