Hugh Clark,1827   **Early Scholastic Christology 1050-1250** Richard Cross,2024-09-16 This book traces developments in Christology and specifically the metaphysics of the union of divine and human natures in one person from 1050 the age of Anselm of Canterbury to 1250 the age of Albert the Great During the first part of the period the key issue is the conflict between Augustine s homo assumptus assumed man Christology defended by the Victorines and that of Boethius s Chalcedonian Christology defended by Gilbert of Poitiers sometimes known as the subsistence theory By 1180 the latter of these was almost universally accepted A third view apparently accepted by Peter Lombard among others according to which it is not true that Christ as man is something the non aliquid Christology was condemned in 1177 The second part of the book traces the way in which theologians attempted to develop the presentation of Conciliar Christology by working out inchoate solutions to some of the metaphysical questions that the issue raises what is the nature of the hypostatic union between the two natures or the human nature and the divine person is it something created or something uncreated And given that the human nature is a particular substance what prevents it from being a person Theologians used insights from both of the rejected theories the homo assumptus Christology and the non aliquid Christology in attempting to answer these issues The early thirteenth century saw both the founding of the universities of Paris and Oxford and the founding of the Franciscan and Dominican orders The book explores the impact of these religious identities on the formation of Christological teaching   The Secret Teachings Of All Ages Manly P Hall,1973   **The "Summa Theologica" of St. Thomas Aquinas** Saint Thomas (Aquinas),1913   *Letters on the Laws of Man's Nature and Development* Henry George Atkinson,Harriet Martineau,1889   **The Business Man's Library--Volume [1]-10. ...** ,1909   A Samaritan philosophy Alexander Broadie,1981   *Chapters XVII-XX* Emanuel Swedenborg,1912

McCoy,2016-11-30 Originally published in 1963 this classic book is a rethinking of the history of Western political philosophy Charles N R McCoy contrasts classical medieval principles against the hypotheses at the root of modern liberalism and modern conservativism In Part I The Classical Christian Tradition from Plato to Aquinas the author lays the foundation for a philosophical structure capable of producing constitutional liberty Part II The Modern Theory of Politics from Machiavelli to Marx attempts to show beginning with Machiavelli the reversal and destruction of the pre modern structure postulated in Part I McCoy stresses the great contributions of Aristotle to political thought found in his

more familiar Ethics and Politics but also includes key insights drawn from Metaphysics and Physics These contributions are developed and perfected McCoy argues by Augustine and Aquinas Two other important features include McCoy s epistemological insights into Plato s work that will be new to many readers and the author s juxtaposition of traditional natural law with the modernized theory of natural law The modern account of autonomous natural law in McCoy s view helps explain the totalitarian direction of key aspects of modern political thought This classic volume on the origins of modern philosophical thought remains a standard in the field   *Oversight of Regulatory Flexibility Act* United States.
