

Peeping Tom

*I rise before the morning sun
Peeping tom, became a lot of fun
I watch her every move by the day
Knowing soon she'll be my prey*

*She drives through town without a clue
That I'm attached and stuck like glue
Late night I watch her shower
I know she'll be in bed in less than an hour*

*She puts that silk red gown on
As she talks to her lover over the phone
"I love you more than anything" she said
Than hung up and went to bed*

*I opened the window slowly
Approach her surely
"Shhh don't you scream"
It's your turn, you shouldn't have trusted me*

*"Babe please don't do it" she cries
I choked her until lights went off her eyes
I disappeared into the night
Than went online and chatted to the next victim of mine*

The Poetry of Raymond Carver Sandra Lee Kleppe, 2016-02-24 Best known as one of the great short story writers of the twentieth century Raymond Carver also published several volumes of poetry and considered himself as much a poet as a fiction writer Sandra Lee Kleppe combines comparative analysis with an in depth examination of Carver s poems making a case for the quality of Carver s poetic output and showing the central role Carver s pursuit of poetry played in his career as a writer Carver constructed his own organic literary system of autopoetics a concept connected to a paradigm shift in our understanding of the inter relatedness of biological and cultural systems This idea is seen as informing Carver s entire production and a distinguishing feature of Kleppe s book is its contextualization of Carver s poetry within the complex literary and scientific systems that influenced his development as a writer Kleppe addresses the common themes and intertextual links between Carver s poetry and short story careers situates Carver s poetry within the love poem tradition explores the connections between neurology and poetic memories and examines Carver s use of the elegy genre within the context of his terminal illness Tellingly Carver s poetry which has aroused slight interest among literary scholars is frequently taught to medical students This testimony to the interdisciplinary implications of Carver s work suggests the appropriateness of Kleppe s culminating discussion of Carver s work as a bridge between the fields of literature and medicine
