connecting with peers in Russia Representative Porter forwarded the letter to the Secretary of State Christian Herter and a week later the students received the shocking and disheartening news that their benign request had been needlessly denied In the wake of McCarthyism the Eisenhower administration subverted the assignment fearing Communist propaganda would infect the innocent minds of eager Oregon schoolchildren The students plight quickly gained national attention with stories running from the Roseburg News Review to the New York Times The publicity didn't miss the attention of J Edgar Hoover's FBI His agents investigated They traveled to Roseburg collected evidence and took it back to the Bureau's regional headquarters in Portland The public reaction was swift and unrelenting The teacher and the Congressman were attacked by outraged Roseburg citizens the school board and enraged Americans across the country Classroom 15 is all the above and a page turning adventure story told with the voices of the empowered tenacious University of Oregon journalism students who took the nascent story and demonstrated their unwavering devotion to the journalistic process by telling the tale *A key to the classical pronunciation of Greek, Latin, and Scripture proper names, etc* John WALKER (the Philologist.), 1831 *Guy's Hospital Gazette*, 1914 **Race and U.S. Foreign Policy in the Ages of Territorial and Market Expansion, 1840-1900** E. Nathaniel Gates, 2014-03-05 First Published in 1998 Explores the concept of race The term race which originally denoted genealogical or class identity has in the comparatively brief span of 300 years taken on an entirely new meaning In the wake of the Enlightenment it came to be applied to social groups This ideological transformation coupled with a dogmatic insistence that the groups so designated were natural and not socially created gave birth to the modern notion of races as genetically distinct entities The results of this view were the encoding of race and racial hierarchies in law literature and culture How racial categories facilitate social control The articles in the series demonstrate that the classification of humans according to selected physical characteristics was an arbitrary decision that was not based on valid scientific method They also examine the impact of colonialism on the propagation of the concept and note that racial categorization is a powerful social force that is often used to promote the interests of dominant social groups Finally the collection surveys how laws based on race have been enacted around the world to deny power to minority groups A multidisciplinary resource This collection of outstanding articles brings multiple perspectives to bear on race theory and draws on a wider range of periodicals than even the largest library usually holds Even if all the articles were available on campus chances are that a student would have to track them down in several libraries and microfilm collections Providing of course that no journals were reserved for graduate students out for binding or simply missing This convenient set saves students substantial time and effort by making available all the key articles in one reliable source Authoritative commentary The series editor has put together a balanced selection of the most significant works accompanied by expert commentary A general introduction gives important background information and outlines fundamental issues current scholarship and scholarly controversies Introductions to individual volumes put the articles in context and draw attention to germinal ideas and major shifts in the
