Sierra Leone; Its People, Products, and Secret Societies H. Osman Newland,1916 **Introduction to Sierra Leone** Gilad James, PhD,2019-12-04 Sierra Leone is a country located in West Africa bordered to the north and northeast by Guinea to the southeast by Liberia and to the west and southwest by the Atlantic Ocean The country has a tropical climate characterized by two seasons the dry season from November to April and the wet season from May to October The official language is English although Krio a Creole language is widely spoken Sierra Leone has a diverse population made up of Temne Mende Limba and Krio peoples among others Sierra Leone gained independence from Britain in 1961 and experienced a period of political instability and civil war which lasted from 1991 to 2002 The civil war was fought between government forces and the Revolutionary United Front RUF a rebel group that aimed to overthrow the government The conflict was characterized by violent attacks on civilians including chopping off limbs sexual violence and the use of child soldiers Since the end of the war Sierra Leone has made progress in democratization and economic development although it still faces challenges such as poverty corruption and high youth unemployment rates *Human Security and Sierra Leone's Post-Conflict Development* Francis Wiafe-Amoako,2014-07-22 Achieving security and development in the post conflict era is a challenge with which stakeholders have to grapple While stakeholders are quick to claim success when physical hostilities cease between the belligerents ensuring sustainable peace has been a daunting task In some countries in Africa the post conflict era is characterized by organizing elections to ensure greater political participation It is believed that elections will begin a process of openness and trust in the governing system A supplement to electoral democracy has been power sharing arrangements used to resolve post election violence and ensure stability within the state However what underlie most

conflicts in Africa is the marginalization and lack of an enabling environment to achieve individual life objectives Policies and strategies to achieve security and enhance development post conflict have at best been an extremely slow process and sometimes elusive In Sierra Leone for instance though the official declaration of the end of war and the successful general elections held in 2002 2007 and 2012 have led to some domestic stability developmental targets in the post conflict era have proceeded at a snail s pace The country continues to rank at the bottom of most UNDP human development indicators since 2002 Human Security and Sierra Leone s Post Conflict Development analyzes the extent to which human security issues have been addressed and subsequently implemented in the post conflict reconstruction process While Sierra Leone has made tremendous efforts at implementing reforms in the areas of political sensitization promotion of civil rights and civil liberties as well as personal security the lack on the part of the government to effectively address the unemployment problem has negatively affected security and developmental targets Thus the post conflict management strategies in Sierra Leone fail to secure and promote some aspects of human security leading to fragile peace and slow progress in achieving sustainable security and development Human security is an all encompassing phenomenon and must be addressed to achieve overall wellbeing of the people especially in post conflict environments
