The Persecution Of Peter Olivi:

The Persecution of Peter Olivi David Burr, 1976

Poverty, Eschatology and the Medieval Church, 2023-07-03

This volume is a collection of essays written in honor of David Burr emeritus professor at the Polytechnic University of Virginia Blacksburg a scholar who has spent a career researching and publishing on the multi faceted phenomenon of the Spiritual Franciscans late 13th early 14th century and in particular on the life and writings of Peter of John Olivi in southern France Representing some of the finest scholars in the field these eighteen scholarly essays touch on aspects of both phenomena Three essays are devoted to the historiography of David Burr three are dedicated to medieval Apocalypticism another seven deal specifically with Peter of John Olivi and five final essays explore aspects of the Spiritual Franciscans their precursors and adherents Contributors are C Colt Anderson Marco Bartoli Michael F Cusato Gilbert Dahan Alberto Forni Fortunato Iozzelli Philip D Krey Robert E Lerner Warren Lewis Michele Lodone Kevin Madigan Antonio Montefusco Delfi I Nieto Isabel Dabney G Park Sylvain Piron Gian Luca Potest Marco Rainini and Paolo Vian *Olivi's Peaceable Kingdom* David Burr, 2016-11-11 Everyone who knows anything at all about Petrus Iohannis Olivi knows that his Apocalypse commentary was censured yet opinions on that condemnation vary The basic facts are clear After Olivi's death in 1298 his writings were suppressed by the Franciscan order yet his tomb at Narbonne became such a popular pilgrimage site that by the second decade of the fourteenth century the crowds were said to rival those at the Porziuncula in Assisi In 1318 Olivi's body was unobtrusively exhumed and removed to an undisclosed location The attacks on Olivi had come to concentrate on this Revelation commentary and with good reason The spirituals found it increasingly relevant to their situation By 1318 John had ordered an investigation which led to the report of an eight man commission in 1319 He then submitted particular passages from Olivi's commentary to individual theologians before he himself condemned it in 1326 Those are the facts In this book David Burr reconsiders their significance Divine Illumination Lydia Schumacher, 2011-04-18 In *Divine Illumination* Schumacher offers an original approach to Augustine's theory of divine illumination the precondition of all human knowledge Written with great originality and clarity she traces the idea through medieval thinkers into early modernity and reveals its importance in modern theories of knowledge Takes an original approach to reading Augustine's theory of divine illumination and shows how the theory was transformed and reinterpreted in medieval philosophy and theology Presents a groundbreaking way of thinking about the writings of Augustine Anselm Bonaventure Aquinas and John Duns Scotus and relates this to cutting edge questions in contemporary philosophy of religion especially epistemology Is a significant contribution to the history of philosophy but also to contemporary debates on faith and reason Lays the foundation for future efforts to come to terms with the contemporary epistemological situation and its inherent problems The Age of Reform, 1250-1550 Steven Ozment, 2020-08-25 Celebrating the fortieth anniversary of this seminal book this new edition includes an illuminating foreword by Carlos Eire and Ronald K Rittges The seeds of the swift and sweeping religious movement that

reshaped European thought in the 1500s were sown in the late Middle Ages In this book Steven Ozment traces the growth and dissemination of dissenting intellectual trends through three centuries to their explosive burgeoning in the Reformations both Protestant and Catholic of the sixteenth century He elucidates with great clarity the complex philosophical and theological issues that inspired antagonistic schools traditions and movements from Aquinas to Calvin This masterly synthesis of the intellectual and religious history of the period illuminates the impact of late medieval ideas on early modern society With a new foreword by Carlos Eire and Ronald K Rittgers this modern classic is ripe for rediscovery by a new generation of students and scholars

Medieval Philosophy Peter Adamson,2019-09-26 Peter Adamson presents a lively introduction to six hundred years of European philosophy from the beginning of the ninth century to the end of the fourteenth century The medieval period is one of the richest in the history of philosophy yet one of the least widely known Adamson introduces us to some of the greatest thinkers of the Western intellectual tradition including Peter Abelard Anselm of Canterbury Thomas Aquinas John Duns Scotus William of Ockham and Roger Bacon And the medieval period was notable for the emergence of great women thinkers including Hildegard of Bingen Marguerite Porete and Julian of Norwich Original ideas and arguments were developed in every branch of philosophy during this period not just philosophy of religion and theology but metaphysics philosophy of logic and language moral and political theory psychology and the foundations of mathematics and natural science

Measure of a Different Greatness Anne Davenport,2021-10-11 This volume examines a selection of late medieval works devoted to the intensive infinite in order to draw a comprehensive picture of the context character and importance of scholastic efforts to reason philosophically about divine infinity As Dominican masters face Franciscan spirituals and as university trained theologians face evangelical laymen the purpose and meaning of divine infinity shift reflecting a basic tension between the Church's Petrine vocation for geopolitical orthodoxy and its more Pauline mission to promote Christian orthopraxis The first part of the book traces the scholastic defense of divine infinity from the holocaust of Montségur up to John Duns Scotus The second part examines the semiotic breakthrough initiated by William of Ockham and the subsequent penetration of infinitist theory into a wide variety of disciplines

A History of Balance, 1250-1375 Joel Kaye,2014-04-03 The ideal of balance and its association with what is ordered just and healthful remained unchanged throughout the medieval period The central place allotted to balance in the workings of nature and society also remained unchanged What changed within the culture of scholasticism between approximately 1280 and 1360 was the emergence of a greatly expanded sense of what balance is and can be In this groundbreaking history of balance Joel Kaye reveals that this new sense of balance and its potentialities became the basis of a new model of equilibrium shaped and shared by the most acute and innovative thinkers of the period Through a focus on four disciplines scholastic economic thought political thought medical thought and natural philosophy Kaye's book reveals that this new model of equilibrium opened up striking new vistas of imaginative and speculative possibility making possible a profound rethinking of the world

and its workings Prophecy, Alchemy, and the End of Time Leah DeVun, 2013-12-01 In the middle of the fourteenth century the Franciscan friar John of Rupescissa sent a dramatic warning to his followers the end times were coming the apocalypse was near Rupescissa's teachings were unique in his era He claimed that knowledge of the natural world and alchemy in particular could act as a defense against the calamity of the last days He treated alchemy as medicine his work was the conceptual forerunner of pharmacology and reflected emerging technologies and views that sought to combat famine plague religious persecution and war In order to understand scientific knowledge as it is today Leah DeVun asks that we revisit the Black Death the Hundred Years War and the Avignon Papacy through Rupescissa's eyes The advances he pioneered along with the exciting strides made by his contemporaries shed critical light on future developments in medicine pharmacology and chemistry **The Light of thy Countenance: Science and Knowledge of God in the Thirteenth**

Century Steven Marrone, 2022-10-04 This book is about the development of scholastic argumentation in thirteenth century Europe It traces the rise of a formal model of science and resulting accommodations in traditional attitudes towards human cognition especially with regard to the role of divine illumination Investigated are ten theologians from Robert Grosseteste to Duns Scotus all commonly associated with a so called Augustinian current The analysis focuses on theory of knowledge and of mind relating both to the account of human understanding of divinity in the world Of interest to historians of medieval culture and historians of science the book lays bare the intellectual transformations ultimately setting the stage for the emergence of modern science It furthermore advances a novel argument about the reality of Augustinianism and Aristotelianism in high medieval thought The print edition is available as a set of two volumes 9789004119475
