The Persephone Key:

The Persephone Key R. Roy Whitney, 1978-04-01 **Girl from Ganymede** Moe Safy Elmahdi, 2023-01-04

Xelena Xutu's family are moon people who fled Ganymede when she was young. From a young age her dream was to design spaceships. As she grows up in the palace of Galactic X, the planetary superpower, Ganymede orbits her. Her traditionalist mother tries to teach her Ganymedeni cultural values. While the king of Galactic X is fond of Xelena and her family, the other royals see moon people as lesser beings that threaten the planet's security. When Xelena is thirteen years old, she is kidnapped by Ganymede's ruler and subjected to a ritual that fuses her soul with the spirit of an ancient Ganymedeni overlord known only to her as the Voice. After this tragic incident and increased hatred from Galactic X's royals, Xelena's father smuggles the family to Divercity, a rival planetary superpower known for its advanced technology and acceptance of different races, so that she may live out her dreams. Eight years later, Xelena has abandoned her dream of shipbuilding in order to provide for her aging, sickly mother while living up to her cultural expectations in Divercity's fast-paced climate. She attracts the lustful eye of Romeo Caesarean, a powerful member of Divercity's elites whose advances drag her into Divercity's political sphere. As Xelena navigates Divercity's social classes in search of medical treatment for her mother, she discovers that Divercity isn't as welcoming as it seems. A moon girl from Ganymede struggles to succeed in Divercity. Making matters worse, the Voice has manifested as a split personality disorder within Xelena, causing a mental tug of war on who she is. Now Xelena must decide how far she is willing to push the limits of her own identity, culture, and dreams to save her mother's life.

Therapeutic Keys to Self-Actualization in Homer's Demeter Lindy McMullin, 2019-01-15

This book is the result of a study that investigated the effects that myth in sacred text may have on personal, professional, and transpersonal development. To ensure maximum impact in terms of imagery-enhancing properties, Homer's Hymn to Demeter was read accompanied by lyre music in a therapeutic setting, and the resulting experiences examined. The author, a clinician as well as researcher, succeeds in extracting personal epiphanies that have the potential to change perceptions and contribute to a healing process. This book is a courageous and novel attempt to integrate ancient wisdom with modern scientific inquiry that honours all levels, states, and structures of consciousness within both the researcher and the study's participants. It documents the deep inner preparatory work the author undertook prior to executing the study to situate herself in the historical context and prepare her psyche at a fundamental level to as

authentically as possible receive the data perceptions and experiences from participants Skill and creativity are also apparent with regard to the nuanced sophisticated manner of data collection and analysis not only with words but with accompanying drawings that depict the data in a unique manner that illuminates the many ways of knowing and expressing understanding Moreover the inclusion of a glossary helps navigate the reader through a delightfully rich and full experience Throughout the text the focus of the inquiry investigating the application of ancient Greek myth and music in personal professional and transpersonal development is reinforced This work portrays a deep respect for the many ways of knowing inherent in the human species calling for a revision of sacred script and its benefits in education and psychology This book is sure to appeal to scholars clinicians and educators as well as the educated lay reader

Salter,2022-04-19 How we are tracked surveilled tantalized and seduced by machines ranging from smart watches and Roombas to immersive art installations Sensing machines are everywhere in our world As we move through the day electronic sensors and computers adjust our thermostats guide our Roombas count our steps change the orientation of an image when we rotate our phones There are more of these electronic devices in the world than there are people in 2020

thirty to fifty billion of them versus 7.8 billion people with more than a trillion expected in the next decade. In *Sensing Machines* Chris Salter examines how we are tracked, surveilled, tantalized and seduced by machines ranging from smart watches and mood trackers to massive immersive art installations. Salter, an artist scholar who has worked with sensors and computers for more than twenty years, explains that the quantification of bodies, senses and experience did not begin with the surveillance capitalism practiced by Facebook, Amazon, Netflix and Google but can be traced back to mathematical and statistical techniques of the nineteenth century. He describes the emergence of the sensed self, investigating how sensor technology has been deployed in music and gaming, programmable and immersive art environments, driving and even eating with e-tongues and e-noses that can taste and smell for us. Sensing technology turns our experience into data, but Salter's story isn't just about what these machines want from us but what we want from them: new sensations, the thrill of the uncanny and magic that will transport us from our daily grind.

Homer's Allusive Art Bruno Currie, 2016 What kind of allusion is possible in a poetry derived from a centuries-long oral tradition and what kind of oral-derived poetry are the Homeric epics? Comparison of Homeric epic with South Slavic heroic song has suggested certain types of answers to these questions, yet the South Slavic paradigm is neither straightforward in itself nor necessarily the only pertinent paradigm. Augustan Latin poetry uses many sophisticated and highly self-conscious techniques of allusion which can, this book contends, be suggestively paralleled in Homeric epic and some of the same techniques of allusion can be found in Near Eastern poetry of the third and second millennia BC. By attending to these various paradigms, this challenging study argues for a new understanding of Homeric allusion and its place in literary history, broaching the question of whether there can have been historical continuity in a poetics of allusion stretching from the Mesopotamian epic of Gilgamesh via the *Iliad* and *Odyssey* to the *Aeneid* and *Metamorphoses*, despite the enormous disparities of time and place and of language and culture, including those represented by the cuneiform tablet, the papyrus roll and by an oral performance culture. The fundamental methodological problems are explored through a series of interlocking case studies, treating of how the *Odyssey* conceivably alludes to the *Iliad* and also to earlier poetry on Odysseus' homecoming, the *Iliad* to earlier poetry on the Ethiopian hero Memnon, the Homeric Hymn to Demeter to earlier poetry on Hades' abduction of Persephone and early Greek epic to Mesopotamian mythological poetry, pre-eminently the Babylonian epic of Gilgamesh.
