Hamilton Jr., 2023-03-24 American colonial history is told through the stories of four young people who left Europe and its Age of Enlightenment to start new lives in an uncertain new world in this scholarly work Carlos R Hamilton Jr aims to determine what experiences they and thousands of other immigrants had and the role those experiences played in influencing the future United States of America including its government and culture One of the primary reasons these immigrants settled in a new place thousands of miles from home was the prospect of being able to enjoy religious freedom Other drivers included a desire to enjoy more economic opportunity and achieve security for one s self and their family While this study is limited to Anglo European immigration the historical background of homelands of African Latino and Asian immigrants are as important in understanding the circumstances of their many contributions to the subsequent culture of the United States of America The author suggests that the same reasons people immigrated to what would become the United States hundreds of years ago remain primary reasons increasing numbers of immigrants are seeking residence in America today **Historical Notes of the American Colonies and Revolution, from 1754 to 1775** William Griffith, 1836
