Organizational Immunity to Corruption Agata Stachowicz-Stanusch,2010-06-01 The current discussion about corruption in organizational studies is one of the most growing most fertile and perhaps most fascinating ones Corruption is also a construct that is multilevel and can be understood as being created and supported by social and cultural interaction As a result an ongoing dialogue on corruption permeates the levels of analysis and numerous research domains in organizational studies Thus I see a major opportunity and necessity to look on corruption from a multilevel and

multicultural perspective Second in the global society of the world today where organizational boundaries are becoming increasingly transparent and during the Global Crisis which has been rooted in unethical and corrupt behavior of large corporations a deeper understanding of corruption its forms typologies ways to increase organizational immunity and the best practices how to fight against corruption that are particularly significant and can also uncover it means that individuals groups organizations and whole societies can be used to sustain a sense of purpose direction meaning and the right way for creating a moral frame for the ethical behavior in the world of flux Third there is a growing pressure in the field of organizational studies and management to formulate theories that stimulate thinking of corruption to change understanding of the phenomenon and what is the most important to carry out actions that produce valued outcomes This exciting book provides an authoritative and comprehensive overview of organizational corruption It is an essential reference tool to carry out further research on corruption in organization This book uncovers new theoretical insights that I hope will inspire new questions about corruption in organization it also changes our understanding of the phenomenon and encourages further exploration and research
