## **Smell Of Apples A Novel:**

**The Smell of Apples** Mark Behr, 1995 The story of an affluent white South African family during apartheid Its narrator is the son of an Afrikaner general and he describes his growing disillusion with the cruelty and arrogance of the whites Set in the 1970s the novel follows him from boyhood to soldiering in Angola fighting the blacks Men in African Film & Fiction

Lahoucine Ouzgane, 2011 Fills a gap in the international literature by offering new insights into the heterogeneous ways in which African men are performing negotiating and experiencing masculinity Through their analysis of the depictions in film and literature of masculinities in colonial independent and post independent Africa the contributors open some key African texts to a more obviously politicized set of meanings Collectively the essays provide space for rethinking current theory on gender and masculinity how only some of the most popular theories in masculinity studies in the West hold true in African contexts how Western masculinities react with indigenous masculinities on the continent how masculinity and femininity in Africa seem to reside more on a continuum of cultural practices than on absolutely opposite planes and how generation often functions as a more potent metaphor than gender Lahoucine Ouzgane is Associate Professor of English Film Studies University of Alberta Canada

**The Columbia Guide to South African Literature in English Since 1945** Gareth Cornwell, Dirk Kloppe, Craig MacKenzie, 2010 From the outset South Africa s history has been marked by division and conflict along racial and ethnic lines From 1948 until 1994 this division was formalized in the National Party s policy of apartheid Because apartheid intruded on every aspect of private and public life South African literature was preoccupied with the politics of race and social engineering Since the release from prison of Nelson Mandela in 1990 South Africa has been a new nation in the making inspired by a nonracial idealism yet

beset by poverty and violence South African writers have responded in various ways to Njabulo Ndebele's call to rediscover the ordinary The result has been a kaleidoscope of texts in which evolving cultural forms and modes of identity are rearticulated and explored An invaluable guide for general readers as well as scholars of African literary history this comprehensive text celebrates the multiple traditions and exciting future of the South African voice Although the South African Constitution of 1994 recognizes no fewer than eleven official languages English has remained the country's literary lingua franca This book offers a narrative overview of South African literary production in English from 1945 to the postapartheid present An introduction identifies the most interesting and noteworthy writing from the period Alphabetical entries provide accurate and objective information on genres and writers An appendix lists essential authors published before 1945

### **Biopolitics and Memory in Postcolonial Literature and Culture**

Michael R. Griffiths,2017-05-15 From the Truth and Reconciliation Commission in South Africa to the United Nations Permanent Memorial to the Victims of Slavery and the Transatlantic Slave Trade many worthwhile processes of public memory have been enacted on the national and international levels But how do these extant practices of memory function to precipitate justice and recompense Are there moments when such techniques performances and displays of memory serve to obscure and elide aspects of the history of colonial governmentality This collection addresses these and other questions in essays that take up the varied legacies continuities modes of memorialization and poetics of remaking that attend colonial governmentality in spaces as varied as the Maghreb and the Solomon Islands Highlighting the continued injustices arising from a process whose aftermath is far from settled the contributors examine works by twentieth century authors representing Asia Africa North America Latin America Australia and Europe Imperial practices throughout the world have fomented a veritable culture of memory The essays in this volume show how the legacy of colonialism's attempt to transform the mode of life of colonized peoples has been central to the largely unequal phenomenon of globalization
