**The Life of Cardinal Humberto Medeiros of Boston** Richard Gribble, 2021-10-15 Cardinal Humberto Medeiros served the Church as priest and bishop in Texas and Massachusetts An immigrant from the Azores he utilized his superior intelligence administrative ability and language skills to move up rapidly in Church ranks His work with the National Conference of Catholic Bishops both nationally and internationally especially with migrant workers was notable Medeiros faced a perfect storm of social political and religious issues in Boston The author argues that despite the challenges he faced in Boston Medeiros was true to the Church and his personal moral code seeking always to serve others rather than be served by them in imitation of Christ

After Roe Mary Ziegler, 2015-06-08 In the decade after the 1973 Supreme Court decision on abortion advocates on both sides sought common ground But as pro abortion and anti abortion positions hardened over time into pro choice and pro life the myth was born that Roe v Wade was a ruling on a woman s right to choose Mary Ziegler s account offers a corrective

**The Oxford Handbook of Millennialism** Catherine Wessinger, 2016-07 Seventh Day Adventists Melanesian cargo cults David Koresh s Branch Davidians and the Raelian UFO religion would seem to have little in common What these groups share however is a millennial orientation the audacious human hope for a collective salvation which may be either heavenly or earthly The Oxford Handbook of Millennialism offers readers an in depth look at both the theoretical underpinnings of the study of millennialism and its many manifestations across history and cultures

**Gender, Nation and Religion in European Pilgrimage** Catrien Notermans, 2016-04-22 Despite the forces of secularization in Europe old pilgrimage routes are attracting huge numbers of people and given new meanings in the process In pilgrimage religious or spiritual meanings are interwoven with social cultural and politico strategic concerns This book explores three such concerns under intense debate in Europe gender and sexual emancipation trans national identities in the context of migration and European unification and religious identifications in a changing religious landscape The interdisciplinary contributions to this book explore a range of such controversies and issues including Africans renewing family ties at Lourdes Swedish women at midlife or young English men testing their strength on the Camino to Santiago de Compostela New Age pilgrims and sexuality Saints festivals in Spain and Brittany conservative Catholics challenging Europe s liberal policies on abortion Polish migrants and French Algerians reconfiguring their transnational identity by transporting their familiar Madonna to their new home new sacred spaces created such as the shrine of Our Lady of Santa Cruz traditional Christian saints such as Mary Magdalene given new meanings as new age goddess and foundation legends of shrines revived by new visionaries Pilgrimage sites function as nodes in intersecting networks of religious discourses geographical routes and political preoccupations which become stages for playing out the

boundaries between home and abroad Muslims and Christians pilgrimage and tourism Europe and the world This book shows how the old routes of Europe are offering inspirational opportunities for making new journeys **Tiny You** Jennifer L.

Holland,2020-04-07 Caroline Bancroft History Prize 2021 Denver Public Library Armitage Jameson Prize 2021 Coalition of Western Women s History David J Weber Prize 2021 Western History Association W Turrentine Jackson Prize 2021 Western History Association Tiny You tells the story of one of the most successful political movements of the twentieth century the grassroots campaign against legalized abortion While Americans have rapidly changed their minds about sex education pornography arts funding gay teachers and ultimately gay marriage opposition to legalized abortion has only grown As other socially conservative movements have lost young activists the pro life movement has successfully recruited more young people to its cause Jennifer L Holland explores why abortion dominates conservative politics like no other cultural issue Looking at anti abortion movements in four western states since the 1960s turning to the fetal pins passed around church services the graphic images exchanged between friends and the fetus dolls given to children in school she argues that activists made fetal life feel personal to many Americans Pro life activists persuaded people to see themselves in the pins images and dolls they held in their hands and made the fight against abortion the primary bread and butter issue for social conservatives Holland ultimately demonstrates that the success of the pro life movement lies in the borrowed logic and emotional power of leftist activism **Evangelization and Religious Freedom** Stephen B. Bevans,Jeffrey Gros,2009 An

informational and entertaining text this work offers readers a deeper sense of why the saints and the honoring of them has been influential in the lives of Catholics and others who strive to follow Jesus Christ and experience his love Catholic

*Monasticism in Modern Times* Isabelle Jonveaux,Stefania Palmisano,2016-10-14 This book presents a broad sociological perspective on the contemporary issues facing Christian monasticism Since the founding work of Max Weber the sociology of monasticism has received little attention However the field is now being revitalized by some new research Focusing on Christian monks and nuns the contributors explore continuity and discontinuity with the past in what superficially might appear a monolithic tradition Contributors speak not only about monasticism in Europe and the United States but also in Africa and Latin America a different landscape where the question of recruitment does not figure among issues considered as problematic **Toward a Catholic Theology of Nationality** Dorian Llywelyn,2010-06-28 Nationality continues to be an

important part of how people identify themselves and others Who am I is inseparable from the question Who and what are we Historically many nations have made use of the Bible and Christian notions to understand themselves and to justify their political ambitions Catholic theology however has never elaborated on a systematic treatment of nationality Dorian Llywelyn forges a new approach treating the nation as a form of culture He addresses some key questions How are the religious and national aspects of human identity connected What does Catholic doctrine have to say about nationality and nationalism Is there really such a thing as a Christian nation Is Catholicism compatible with patriotism Llywelyn s wide ranging book

introduces the reader to contemporary approaches to nationality nationality national identity nationalism and patriotism Drawing from the insights of sociology history and anthropology he investigates the many ways in which nations and Christianity have intertwined and explores what scripture and twentieth century papal teaching have to say on the matter He provides an original Catholic theology of national belonging one which is based on the implications of the Incarnation Examining popular devotions to the Virgin Mary as national patroness and drawing from the metaphysical acumen of the medieval thinker John Duns Scotus Llywelyn argues for the theological value of nationality and proposes that global community and cultural and national diversity are mutually necessary values

*Muslim and Catholic Experiences of National Belonging in France* Carol A. Ferrara, 2024-09-05 How do experiences of national identity and belonging differ for French Muslims and Catholics respectively What can these differences tell us about the causes and dynamics of minority marginalization in plural secular societies To address these questions Carol Ferrara draws upon extensive ethnographic fieldwork across France within spaces of religious education and interfaith dialogue illustrating the inequities between Muslim and Catholic citizens in opportunities for national belonging political and civic engagement and institution building This reexamination of Muslim exclusion against the backdrop of Catholic inclusion calls into question popular explanations for minority marginalization especially those that blame non adherence to French Republican principles or the exclusionary power of secular discourse Instead Ferrara argues that the boundaries of French belonging are policed by francit a tacit national imaginary ideal type that draws upon and reproduces national cognitive biases and undermines the French republican values of secularism equality liberty and fraternity Given the central role of francit in the politics of belonging Ferrara suggests that paths toward greater pluralism in France and beyond lie in the reframing of national identity narratives and reimagining the inclusive potential of secular democratic values

**The Oxford Handbook of Mary** Chris Maunder, 2019 The Oxford Handbook of Mary offers an interdisciplinary guide to Marian Studies including chapters on textual literary and media analysis theology Church history art history studies on devotion in a variety of forms cultural history folk tradition gender analysis apparitions and apocalypticism Featuring contributions from a distinguished group of international scholars the Handbook looks at both Eastern and Western perspectives and attempts to correct imbalance in previous books on Mary towards the West The volume also considers Mary in Islam and pilgrimages shared by Christian Muslim and Jewish adherents While Mary can be a source of theological disagreement this authoritative collection shows Mary's rich potential for inter faith and inter denominational dialogue and shared experience It covers a diverse number of topics that show how Mary and Mariology are articulated within ecclesiastical contexts but also on their margins in popular devotion Newly commissioned essays describe some of the central ideas of Christian Marian thought while also challenging popularly held notions This invaluable reference for students and scholars illustrates the current state of play in Marian Studies as it is done across the world

**Dollars for Life** Mary Ziegler, 2022-01-01 A new understanding of the slow drift to

extremes in American politics that shows how the anti abortion movement remade the Republican Party A timely and expert guide to one of today s most hot button political issues Publishers Weekly starred review A sober knowledgeable scholarly analysis of a timely issue Kirkus Reviews Ziegler s argument is that over the course of decades the anti abortion movement laid the groundwork for an insurgent candidate like Trump Jennifer Szalai New York Times The modern Republican Party is the party of conservative Christianity and big business two things so closely identified with the contemporary GOP that we hardly notice the strangeness of the pairing Legal historian Mary Ziegler traces how the anti abortion movement helped to forge and later upend this alliance Beginning with the Supreme Court s landmark decision in Buckley v Valeo right to lifers fought to gain power in the GOP by changing how campaign spending and the First Amendment work The anti abortion movement helped to revolutionize the rules of money in U S politics and persuaded conservative voters to fixate on the federal courts Ultimately the campaign finance landscape that abortion foes created fueled the GOP s embrace of populism and the rise of Donald Trump Ziegler offers a surprising new view of the slow drift to extremes in American politics and explains how it had everything to do with the strange intersection of right to life politics and campaign spending The SAGE Encyclopedia of the Sociology of Religion Adam Possamai,Anthony J. Blasi,2020-02-14 The SAGE Encyclopedia of the Sociology of Religion takes a three pronged look at this namely investigating the role of religion in society unpacking and evaluating the significance of religion in and on human history and tracing and outlining the social forces and influences that shape religion This encyclopedia covers a range of themes from fundamental topics like definitions secularization dimensions of religiosity to such emerging issues as civil religion new religious movements This Encyclopedia also addresses contemporary dilemmas such as fundamentalism and extremism and the role of gender in religion **Views from the Margins** Kevin J. Callahan,Sarah Ann Curtis,2008-01-01 What does it mean to be French What constitutes Frenchness Is it birth language attachment to republicanism adherence to cultural norms In contemporary France these questions resonate in light of the large number of non French and non European immigrants many from former French colonies who have made France home in recent decades Historically French identity has long been understood as the product of a centralized state and culture emanating from Paris that was itself central to European history and civilization Likewise French identity in terms of class gender nationality and religion mainly has been explained as a strong indivisible core against which marginal actors have been defined This collection of essays offers examples drawn from an imperial history of France that show the power of the periphery to shape diverse and dynamic modern French identities at its center Each essay explains French identity as a fluid process rather than a category into which French citizens and immigrants are expected to fit In using a core periphery framework to explore identity creation Views from the Margins breaks new ground in bringing together diverse historical topics from politics religion regionalism consumerism nationalism and gendered aspects of civic and legal engagement **Journal of Moral Theology, Volume 13, Issue 1** M. *The Catholic Church and the Nation-State* Paul Christopher Manuel, Lawrence C. Reardon, Clyde Wilcox, 2006-08-16 Presenting case studies from sixteen countries on five continents *The Catholic Church and the Nation State* paints a rich portrait of a complex and paradoxical institution whose political role has varied historically and geographically In this integrated and synthetic collection of essays outstanding scholars from the United States and abroad examine religious diplomatic and political actions both admirable and regrettable that shape our world Kenneth R Himes sets the context of the book by brilliantly describing the political influence of the church in the post Vatican II era There are many recent instances the contributors assert where the Church has acted as both a moral authority and a self interested institution in the United States it maintained unpopular moral positions on issues such as contraception and sexuality yet at the same time it sought to cover up its own abuses it was complicit in genocide in Rwanda but played an important role in ending the horrific civil war in Angola and it has alternately embraced and suppressed nationalism by acting as the voice of resistance against communism in Poland whereas in Chile it once supported opposition to Pinochet but now aligns with rightist parties With an in depth exploration of the five primary challenges facing the Church theology and politics secularization the transition from serving as a nationalist voice of opposition questions of justice and accommodation to sometimes hostile civil authorities this book will be of interest to scholars and students in religion and politics as well as Catholic Church clergy and laity By

demonstrating how national churches vary considerably in the emphasis of their teachings and in the scope and nature of their political involvement the analyses presented in this volume engender a deeper understanding of the role of the Roman Catholic Church in the world     *An Anxious Age* Joseph Bottum,2014-02-11 We live in a profoundly spiritual age but not in any good way Huge swaths of American culture are driven by manic spiritual anxiety and relentless supernatural worry Radicals and traditionalists liberals and conservatives together with politicians artists environmentalists followers of food fads and the chattering classes of television commentators America is filled with people frantically seeking confirmation of their own essential goodness We are a nation desperate to stand of the side of morality to know that we are righteous and dwell in the light In *An Anxious Age* Joseph Bottum offers an account of modern America presented as a morality tale formed by a collision of spiritual disturbances And the cause he claims is the most significant and least noticed historical fact of the last fifty years the collapse of the mainline Protestant churches that were the source of social consensus and cultural unity Our dangerous spiritual anxieties broken loose from the churches that once contained them now madden everything in American life Updating *The Protestant Ethic and the Sprit of Capitalism* Max Weber s sociological classic *An Anxious Age* undertakes two case studies of contemporary social classes adrift in a nation without the religious understandings that gave them meaning Looking at the college educated elite he calls the Poster Children Bottum sees the post Protestant heirs of the old mainline Protestant domination of culture dutiful descendants who claim the high social position of their Christian ancestors even while they reject their ancestors Christianity Turning to the Swallows of Capistrano the Catholics formed by the pontificate of John Paul II Bottum evaluates the early victories and later defeats of the attempt to substitute Catholicism for the dying mainline voice in public life Sweeping across American intellectual and cultural history *An Anxious Age* traces the course of national religion and warns about the strange angels and even stranger demons with which we now wrestle Insightful and contrarian wise and unexpected *An Anxious Age* ranks among the great modern accounts of American culture

*The Seer of Bayside* Joseph Laycock,2015 Joseph P Laycock tells the story of Veronica Lueken a Catholic housewife in Bayside Queens New York who began receiving visions of the Virgin Mary in 1968 Lueken relayed some 300 messages from Mary Jesus and other heavenly personages over three decades and inspired followers who continue to promote her message today     **New Religions** Eugene V.
