The Idea Of Authorship In America Democratic Poetics From Franklin To Melville:

The Idea of Authorship in America Kenneth Dauber,1990 *The Idea of Authorship in America* Kenneth Dauber,

Women and Authorship in Revolutionary America Angela Vietto,2005 In distinct contrast to earlier studies on early US women s authorship this book argues that women writers in Revolutionary America viewed civic participation as a key component of the social role of authorship and that they used authorship as a means to contribute publicly to the evolving creation of the new nation s political and social identities Angela Vietto here analyzes poetry letters religious texts essays and plays by early American writers Mercy Otis Warren Sarah Osborn and Susanna Anthony Hannah Adams Eunice Smith Jenny Fenno Sarah Pogson Smith Judith Sargent Murray and Hannah Griffiths among others *The Poetics of National and Racial Identity in Nineteenth-Century American Literature* John D. Kerkerling,2003-12-11 John D Kerkerling s study examines the literary history of racial and national identity in nineteenth century America Kerkerling argues that writers such as DuBois Lanier Simms and Scott used poetic effects to assert the distinctiveness of certain groups in a diffuse social landscape Kerkerling explores poetry s formal properties its sound effects as they intersect with the issues of race and nation He shows how formal effects ranging from meter and rhythm to alliteration and melody provide these writers with evidence of a collective identity whether national or racial Through this shared reliance on formal literary effects national and racial identities Kerkerling shows are related elements of a single literary history This is the story of how poetic effects helped to define national identities in Anglo America as a step toward helping to define racial identities within the United States This highly original study will command a wide audience of Americanists **Princeton Alumni Weekly** Jesse Lynch

Williams,Edwin Mark Norris,1991 **The Claims of Experience** Nolan Bennett,2019-08-21 Why have so many figures throughout American history proclaimed their life stories when confronted by great political problems The Claims of Experience provides a new theory for what makes autobiography political throughout the history of the United States and today Across five chapters Nolan Bennett examines the democratic challenges that encouraged a diverse cast of figures to bear their stories Benjamin Franklin amid the revolutionary era Frederick Douglass in the antebellum and abolitionist movements Henry Adams in the Gilded Age and its anxieties of industrial change Emma Goldman among the first Red Scare and state opposition to radical speech and Whittaker Chambers amid the second Red Scare that initiated the anticommunist turn of modern conservatism These historical figures made what Bennett calls a claim of experience By proclaiming their life stories these authors took back authority over their experiences from prevailing political powers and called to new community among their audiences Their claims sought to restore to readers the power to remake and make meaning of their own lives Whereas political theorists and activists have often seen autobiography to be too individualist or a mere documentary source of evidence this theory reveals the democratic power that life narratives have offered those on the margins and in the mainstream If they are successful claims of experience summon new popular authority to surpass what

their authors see as the injustices of prevailing American institutions and identity Bennett shows through historical study and theorization how this renewed appreciation for the politics of life writing elevates these authors distinct democratic visions while drawing common themes across them This book offers both a method for understanding the politics of life narrative and a call to anticipate claims of experience as they appear today

Readers in History James L. Machor, 1993 Nineteenth century America witnesses an unprecedented rise in reading activity as a result of increasing literacy advances in printing and book production and improvements in transporting printed material As the act of reading took on new cultural and intellectual significance American writers had to adjust to changes in their relationship with a growing audience Calling for a new emphasis on historical analysis Readers in History reconsiders reader response and reception approaches to the shifting contexts of reading in nineteenth century America James L Machor and his contributors dispute the essentializing tendency of much reader response criticism to date arguing that reading and the textual construction of audience can best be understood in light of historically specific interpretive practices ideological frames and social conditions Employing a variety of perspectives and methods including feminism deconstruction and cultural criticism the essays in this volume demonstrate the importance of historical inquiry for exploring the dynamics of audience engagement

Writing and Postcolonialism in the Early Republic Edward Watts, 1998 Writing and Postcolonialism in the Early Republic is the first book length analysis of early American literature through the lens of postcolonial theory Although the United States represented a colonizing presence that displaced indigenous peoples and exported imperial culture American colonists also found themselves exiled often exploited and abused by the distant metropolitan center In this innovative book Edward Watts demonstrates how American post Revolutionary literature exhibits characteristics of a post colonial society

Arthur Mervyn; or, Memoirs of the Year 1793 Charles Brockden Brown, 2008-03-15 Set during the epic Philadelphia yellow fever epidemic of 1793 Charles Brockden Brown's classic gothic novel Arthur Mervyn or Memoirs of the Year 1793 connects the outbreak with the upheavals of the revolutionary era and the murderous financial networks of Atlantic slavery This edition of Arthur Mervyn offers selections from key contemporary texts as well as excerpts from Brown's own writings on slavery race and the uses of history in fiction
