The Idea Of Historical Recurrence In Western Thought From Antiquity To The Reformation:

The Idea of Historical Recurrence in Western Thought G. W. Trompf, 2023-11-15 The idea that history repeats itself has a long and intriguing history This volume is concerned with the period of time in the Western tradition when its expressions were most numerous and fervent The author shows that this idea should not be confined to its cyclical version for such notions as reenactment retribution and renaissance also belong under the wide umbrella of recurrence He argues moreover that not only the Greco Roman but also the biblical tradition contributed to the history of this idea The old contrast between Judeo Christian linear views of history and Greco Roman cyclical views is brought into question Beginning with Polybius Trompf examines the manifold forms of recurrence thinking in Greek and Roman historiography then turns his attention to biblical views of historical change arguing that in Luke Acts and in earlier Jewish writings an interest in the idea of history repeating itself was clearly demonstrated Jewish and early Christian writers initiated and foreshadowed an extensive synthesizing of recurrence notions and models from both traditions although the syntheses could vary with the context and dogmatic considerations The Renaissance and Reformation intertwine classical and biblical notions of recurrence most closely yet even in the sixteenth century some ideas distinct to each tradition such as the Polybian conception of a cycle of governments and the biblical notion of the reenactment of significant events were revived in stark separation from each other The Idea of Historical Recurrence in Western Thought deals with a continuing but not always fruitful dialogue between the two great traditions of Western thought a dialogue that did not stop short in the days of Machiavelli but has been carried on to the present day This study is the first half of a long story to be continued in a second volume on the idea of historical recurrence from Giambattista Vico to Arnold Toynbee The idea that history repeats itself has a long and intriguing history This volume is concerned with the period of time in the Western tradition when its expressions were most numerous and fervent The author shows that this idea should not be confined to The Idea of historical recurrence in western thought

G.W. Trompf, 1979 *The Idea of Historical Recurrence in Western Thought* Charles Edward Trinkaus, 1980* **The Creation of History in Ancient Israel** Marc Zvi Brettler, 2002-11-01 The Creation of History in Ancient Israel demonstrates how the historian can start to piece together the history of ancient Israel using the Hebrew Bible as a source *The Western Time of Ancient History* Alexandra Lianeri, 2011-03-31 This book examines the conceptual and temporal frames through which modern Western historiography has linked itself to classical antiquity In doing so it articulates a genealogical problematic of what history is and a more strictly focused reappraisal of Greek and Roman historical thought Ancient ideas of history have played a key role in modern debates about history writing from Kant through Hegel to Nietzsche and Heidegger and from Friedrich Creuzer through George Grote and Theodor Mommsen to Momigliano and Moses Finley yet scholarship has paid little attention to the theoretical implications of the reception of these ideas The essays in this collection cover a wide range of relevant topics and approaches and boast distinguished authors from across Europe in the fields of classics

ancient and modern history and the theory of historiography Luke the Historian of Israel's Legacy, Theologian of Israel's 'Christ' David Paul Moessner, 2016-07-25 David Moessner proposes a new understanding of the relation of Luke's second volume to his Gospel to open up a whole new reading of Luke's foundational contribution to the New Testament For postmodern readers who find Acts a generic outlier dangling tenuously somewhere between the mainland of the evangelists and the Peloponnese of Paul diffused and confused and shunted to the backwaters of the New Testament by these signature corpora Moessner plunges his readers into the hermeneutical atmosphere of Greek narrative poetics and elaboration of multi volume works to inhale the rhetorical swells that animate Luke's first readers in their engagement of his narrative In this collection of twelve of his essays re contextualized and re organized into five major topical movements Moessner showcases multiple Hellenistic texts and rhetorical tropes to spotlight the various signals Luke provides his readers of the multiple ways his Acts will follow all that Jesus began to do and to teach Acts 1:1 and consequently bring coherence to this dominant block of the New Testament that has long been split apart By collapsing the world of Jesus into the words and deeds of his followers Luke re configures the significance of Israel's Christ and the Reign of Israel's God for all peoples and places to create a new account of Gospel Acts discrete and distinctively different than the narrative of the many Luke 1:1 Luke the Historian of Israel's Legacy combines what no analysis of the Lukan writings has previously accomplished integrating seamlessly two generically estranged volumes into one new whole from the intent of the one composer For Luke is the Hellenistic historian and simultaneously biblical theologian who arranges the one plan of God read from the script of the Jewish scriptures parts and whole severally and together as the saving script for the whole world through Israel's suffering and raised up Christ Jesus of Nazareth In the introductions to each major theme of the essays this noted scholar of the Lukan writings offers an epitome of the main features of Luke's theological thought and in a final Conclusions chapter weaves together a comprehensive synthesis of this new reading of the whole **Historical Parallels, Commemoration and Icons** Andreas Leutzsch, 2019-03-04 Historical parallels analogies anachronisms and metaphors to the past play a crucial role in political speeches historical narratives iconography movies and newspapers on a daily basis They frame articulate and represent a specific understanding of history and can be used not only to construct but also to rethink historical continuity Almost forgotten or sleeping history can be revived to legitimize an imagined future in a political discourse today History can hardly be neutral or factual because it depends on the historian's as well the people's perspective as to what kind of events and sources they combine to make history meaningful Analysing historical analogies as embedded in narratives and images of the past enables us to understand how history and collective memory are managed and used for political purposes and to provide social orientation in time and space To rethink theories of history iconology and collective memory the authors of this volume discuss a variety of cases from Hong Kong China and Europe **Persian Historiography** Julie Scott Meisami, 2019-08-06 Winner of the 1999 British Kuwait Friendship Society Prize in Middle Eastern Studies Described by the

BKFS reviewer as e A ground breaking work on a subject that has been almost totally neglected e e Why write history in Persian e Persian historical writing has received little attention as compared with Arabic especially as seen in the early pre Mongol period Within the larger context of the development of Islamic historiography from the tenth through the twelfth centuries the case of Persian historical writing demands special attention Discussions tend to concentrate on its sources in pre Islamic Persian and in Arabic works while the reasons for its emergence its connections with Iranian and Arabic models its political and cultural functions and its reception have been virtually ignored This study answers these questions and addresses issues relating to the motivation for writing the works in question its purpose the role of the author patrons and audiences the choice of language and the reasons for that choice the place of historical writing in the broader debate over the suitability of Persian for scholarly writing Shakespeare's Feminine Endings Philippa Berry, 1999 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company **Philosophy of History** M.C. Lemon, 2003-08-29 Philosophy of History is an essential introduction to a vast body of writing about history from classical Greece and Rome to the modern world M C Lemon maps out key debates and central concepts of philosophy of history placing principal thinkers in the context of their times and schools of thought Lemon explains the crucial differences between speculative philosophy as an enquiry into the content of history and analytic philosophy of history as relating to the methods of history The first two parts of the book trace each of these traditions whereas the third part revisits both in the light of recent contributions to the discipline This guide provides a comprehensive survey of historical thought since ancient times Its clear terminology and lucid argument will make it an invaluable source for students and teachers alike

Eventually, you will no question discover a further experience and endowment by spending more cash. still when? realize you give a positive response that you require to acquire those all needs next having significantly cash? Why dont you attempt to get something basic in the beginning? Thats something that will lead you to comprehend even more with reference to the globe, experience, some places, once history, amusement, and a lot more?

It is your certainly own period to accomplish reviewing habit. among guides you could enjoy now is **The Idea Of Historical Recurrence In Western Thought From Antiquity To The Reformation** below.
