The Ideologies Of Theory Essays 1971 1986 Situations Of Theory:

The Ideologies of Theory: The syntax of history Fredric Jameson, 1988 Jameson has had an enormous influence perhaps greater than that of any other single figure of any nationality on the theorization of the postmodern in China Wikipedia **Fredric Jameson: Live Theory** Ian Buchanan, 2006-01-01 Widely regarded as one of America's most important cultural theorists Fredric Jameson has been at the forefront of the field of literary and cultural studies since the early 1970s This book offers an introduction to the work of this important thinker It provides an account of Jameson's important contributions to Critical Theory **The Ontology of Space in Biblical Hebrew Narrative** Luke Gartner-Brereton, 2014-12-18 The central premise of this book is that biblical Hebrew narrative in terms of its structure tends to operate under similar mechanical constraints to those of a stage play wherein space is central characters are fluid and objects within the narrative tend to take on a deep internal significance The smaller episodic narrative units within the Hebrew aesthetic tend to grant primacy to space both ideologically and at the mechanical level of the text itself However space as a determinate structural category has been all but overlooked in the field of biblical studies to date reflecting perhaps our own inability as modern readers to see beyond the dominant cinematic aesthetic of our times The book is divided into two major sections each beginning with a more theoretical approach to the function of narrative space and ending with a practical application of the previous discussion using Genesis 28 10 22 the Bethel narrative and the book of Ruth respectively as test cases *The Cambridge History of Literary Criticism: Volume 8, From Formalism to Poststructuralism* George Alexander Kennedy, Raman Selden, 1989 Volume 8 of The Cambridge History of Literary Criticism deals with the most influential and hotly debated areas of literary theory those developing in Europe but having their main impact in the Anglo American world of academic literary studies whose course they have fundamentally redirected The structuralism poststructuralism Russian formalism semiotics narratology hermeneutics phenomenology reception theory and speech act theory associated with European writers including Barthes Todorov Derrida and Iser are here described in the context of their original development but with an eye also to their eventual influence and the volume includes a reflective chapter by Richard Rorty on deconstruction Incorporating full bibliographies this volume engages systematically with the history of the twentieth century's most profound and extensive set of cross cultural intellectual movements **Redirections in Critical Theory** Bernard McGuirk, 2002-09-11 The essays in Redirections in Critical Theory re-analyse major figures and discussions in critical theory asking questions often neglected or overlooked by a readership ever in pursuit of new theoretical positions Contributors look at the work of major theorists and writers including William Empson Deleuze Guattari Chekov and Jameson Concepts which have been destabilized in modern critical theory such as truth self action and history are reassessed through their work shedding new light on many important issues in critical studies today Redirections in Critical Theory brings together established critics and new names in the field of theory It will be an important text for students of literature critical

theory and philosophy **Deleuze and Guattari's 'Anti-Oedipus'** Ian Buchanan, 2008-02-05 Gilles Deleuze and Félix Guattari's *Anti-Oedipus* is the first part of a two volume project entitled *Capitalism and Schizophrenia* Challenging the twin orthodoxies of Lacanian psychoanalysis and Althusserian Marxism *Anti-Oedipus* is an important and exciting yet challenging piece of philosophical writing Ian Buchanan's *Reader's Guide to Anti-Oedipus* is the ideal companion to one of the twentieth century's most influential philosophical works *Reading by Starlight* Damien Broderick, 2005-06-29 *Reading by Starlight* explores the characteristics in the writing, marketing and reception of science fiction which distinguish it as a genre Damien Broderick explores the postmodern self-referentiality of the sci-fi narrative its intricate coded language and discursive encyclopaedia He shows how for perfect understanding sci-fi readers must learn the codes of these imaginary worlds and vocabularies all the time picking up references to texts by other writers *Reading by Starlight* includes close readings of paradigmatic cyberpunk texts and writings by SF novelists and theorists including Isaac Asimov Arthur C Clarke Brian Aldiss Patrick Parrinder Kim Stanley Robinson John Varley Roger Zelazny William Gibson Fredric Jameson and Samuel R Delaney

Novels, Novelists, and Readers Mary Frances Rogers, 1991-01-01 Focusing on British and American novels Rogers takes a sociological look at the business of literature the book industry and the experiences of novelists and readers Viewing the novel as a vehicle of cultural meaning the author shows how the literary canon overlooks substantial similarities among novels in favor of restrictive codes based on social as well as literary considerations She emphasizes the kinship between the social sciences and humanities in her analysis by reinvigorating affection for the novel and also establishing its rich cultural significance **Routledge Handbook of Psychoanalytic Political Theory** Yannis Stavrakakis, 2019-09-05 The emerging field of psychoanalytic political theory has now reached a stage in its development and rapid evolution that deserves to be registered systematically defined and critically evaluated This Handbook provides the first reference volume which showcases the current state of psychoanalytic political theory maps the genealogy of its development identifies its conceptual and methodological resources and highlights its analytical innovations as well as its critical promise The Handbook consists of 35 chapters offering original comprehensive and critical reviews of this field of study The chapters are divided into five thematic sections *Figures* discusses the work of major psychoanalytic theorists who have influenced considerably the development of psychoanalytic political theory *Traditions* genealogically recounts and critically reassesses the many attempts throughout the 20th century of experimenting with the articulation between psychoanalysis and political theory in a consistent way *Concepts* asks what are the concepts that psychoanalysis offers for appropriation by political theory *Themes* presents concrete examples of the ways in which psychoanalytic political theory can be productively applied in the analysis of racism gender nationalism consumerism etc *Challenges* *Controversies* captures the ways in which psychoanalytic political theory can lead the way towards theoretical and analytical innovation in many disciplinary fields dealing with cutting edge issues The Routledge Handbook of Psychoanalytic Political Theory will serve as scholarly reference volume for all students

and researchers studying political theory psychoanalysis and the history of ideas *Movement and Belonging* Carol E. Leon, 2009 The uncertainties and newness that surround us today prompt radical questions about ourselves and our relationship with the external world How do and can we belong to the places and spaces of today *Movement and Belonging* Lines Places and Spaces of Travel describes current realities and suggests ways in which you can define yourself in an ever changing world Using the travel writings of V S Naipaul Michael Ondaatje Patrick White and D H Lawrence *Movement and Belonging* demonstrates that authentic travel embracing changing boundaries and cultures enables you to create sites of belonging where you can find your sense of self
