in recent decades as having great potential for aiding development in poor developing countries with Bangladesh being one of the countries which has pioneered microcredit and implemented it most widely This book based on extensive original research explores how microcredit works in practice and assesses its effectiveness It discusses how microcredit usually channelled through women is often passed to the men of the family a practice disapproved of by some but regarded as acceptable by borrowers who have a communal approach to debt rather than viewing debt as something held by single individuals The book demonstrates how the rules around microcredit are often seen as irksome by the borrowers how lenders often charge high rates of interest and work primarily to preserve their institutions thereby going against the spirit of the microcredit movement and how borrowers often end up on a downward spiral deeper and deeper in debt Overall the book argues that although microcredit does much good it also has many drawbacks **The Implementation of Quotas** Julie Ballington, 2004 This report examines women's political representation on the African continent and shows how quotas have

contributed to increasing their access to political power The documented evidence from Africa is very encouraging more than 20 countries on the continent either have legislated quotas or have political parties that have adopted them voluntarily This report details the different quota types that are being implemented in different political contexts in 17 countries including the Democratic Republic of the Congo Egypt Morocco Mozambique Namibia Rwanda Senegal South Africa Tanzania and Uganda
