The Implicit Norms Of Rabbinic Judaism The Bedrock Of A Classical Religion:

The Implicit Norms of Rabbinic Judaism Jacob Neusner, 2006 Implicit norms of law and theology governed in Rabbinic Judaism from the onset of its canon in the Mishnah concluded at ca 200 to its climax in the Talmud of Babylonia four centuries later These norms of conviction and conception prevailed in a complete system which was logically present if not fully realized from the very beginning of the canon Norms of belief not only behavior governed in the canonical documents of Rabbinic Judaism and defined its orthodoxy and its heterodoxy This book proves that proposition by asking what are the theological premises of the documents upon which the Rabbinic canon was built and do these premises cohere in a tight theological system The Implicit Norms of Rabbinic Judaism answers this question by identifying the principles that had to govern in order for a given composition to be articulated or a particular composite to be assembled Those premises at the foundations of the canonical documents prove not episodic but coherent The documents speak so it is universally maintained for the community of the Rabbinic sages that sponsored them Hence the premises and presuppositions of a document represent the consensus of the Rabbinic sages the implicit norms of attitude and action Canonical orthodoxy and heresy come to definition in those norms How individuals conformed and what institutions functioned to enforce conformity do not figure into this account It suffices to show that orthodoxy and heresy constituted native categories of the Rabbinic system of thought inherent in principal documents of the canon Book jacket

The Documentary History of Judaism and Its Recent Interpreters Jacob Neusner, 2010-05-11 The result for the history of Judaism of a documentary reading of the Rabbinic canonical sources illustrates the working of that hypothesis It is the first major outcome of that hypothesis but there are other implications and a variety of new problems emerge from time to time as the work proceeds In the recent past Neusner has continued to explore special problems of the documentary hypothesis of the Rabbinic canon At the same time Neusner notes others join in the discussion that have produced important and ambitious analyses of the thesis and its implications Here Neuser has collected some of the more ambitious ventures into the hypothesis and its current recapitulations Neusner begins with the article written by Professor William Scott Green for the Encyclopaedia Judaica second edition as Green places the documentary hypothesis into the context of Neusner's entire oeuvre Neuser then reproduces what he regards as the single most successful venture of the documentary hypothesis contrasting between the Mishnah's and the Talmuds programs for the social order of Israel the doctrines of economics politics and philosophy set forth in those documents respectively Then come the two foci of discourse Halakhah or normative law and Aggadah or normative theology Professors Bernard Jackson of the University of Manchester England and Mayer Gruber of Ben Gurion University of the Negev treat the Halakhic program that Neusner has devised and Kevin Edgecomb of the University of California Berkeley has produced a remarkable summary of the theological system Neusner discerns in the Aggadic documents Neusner concludes with a review of a book by a critic of the documentary hypothesis Building Blocks of

Rabbinic Tradition Jacob Neusner, 2008 This book responds to a question that came to the author from Professor Maren Niehoff of the Hebrew University of Jerusalem Have you written a simple introduction to your documentary theory and method which can serve as a starting point for my students In this book are gathered eight of the more fundamental items of documentary theory and practice _three in theory five in practice_ for Professor Neihoff s students and anyone else who takes an interest in the formative history of Judaism The documentary thesis of Rabbinic literature holds that the document _the Mishnah Sifra Lamentations Rabbah the Bavli for example_ forms the basic building block of the Rabbinic tradition Excluded by that definition are sayings attributed to and stories told about named sages These cannot serve in the reconstruction of the Rabbinic tradition its literature history religion and theology Hebrew studies ,2006 *Annali di storia dell'esegesi* ,2006 *Rabbinic Judaism* Jacob Neusner, 2021-10-01 Rabbinic Judaism in its classical writings produced from the first through the seventh century of the Common Era sets forth a theological system that is orderly and reliable Responding to the generative dialectics of monotheism Rabbinic Judaism systematically reveals the justice of the one and only God of all creation Appealing to the truths of Scripture the Rabbinic sages constructed a coherent theology cogent structure and logical system to reveal the justice of God These writings identify what Judaism knows as the logos of God the theology fully manifest in the Torah This work make its contribution in seeing in the principal conceptions of Rabbinic Judaism a logos a sustained rigorous coherent argument A narrative story of the Rabbinic sages theological system sounds remarkably familiar the age old story of God s justice to which his mercy is integral of humanity s relationship with god as a possessor of the power of will and of humanity s sin and God s response This title is also available in paperback ISBN 0 391 04179 7

Responses to Suffering in Classical Rabbinic Literature David Kraemer, 1994-09-29 The existence of suffering poses an obvious problem for the monotheistic religions Why does an all powerful benevolent God allow humans to suffer And given that God does what is the appropriate human response In modern times Jewish theologians in particular faced with the enormity of the Holocaust have struggled to come to grips with these issues In Responses to Suffering David Kraemer offers the first comprehensive history of teachings related to suffering in classical rabbinic literature Beginning with the Mishnah c 200 CE Kraemer examines traditions on suffering divine justice national catastrophe and the like in all major rabbinic works of late antiquity Bringing to bear recent methods in the history of religions literary criticism canonical criticism and the sociology of religion Kraemer offers a rich analysis of the development of attitudes that are central to and remain contemporary concerns of any religious society **Rabbinic Judaism** David Kraemer, 2015-09-07 In the aftermath of the conquest of the Holy Land by the Romans and their destruction of the Jerusalem Temple in 70 CE Jews were faced with a world in existential chaos both they and their God were rendered homeless In a religious tradition that had equated Divine approval with peaceful dwelling on the Land this situation was intolerable So the rabbis aspirants for leadership of the post destruction Jewish community appropriated inherited traditions and used them as building blocks for a new religious

structure Not unexpectedly given the circumstances this new rabbinic formation devoted considerable attention to matters of space and place **Rabbinic Judaism Space and Place** offers the first comprehensive study of spatiality in Rabbinic Judaism of late antiquity exploring how the rabbis reoriented the Jewish relationship with space and place following the destruction of the Jerusalem temple Drawing upon the insights of theorists such as Tuan and LeFebvre who define the crisis that homelessness represents and argue for the deep relationship of human societies to their places the book examines the compositions of the rabbis and discovers both a surprisingly aggressive rabbinic spatial imagination as well as places most notably the synagogue where rabbinic attention to space and place is suppressed or absent It concludes that these represent two different but simultaneous rabbinic strategies for re placing God and Israel strategies that at the same time allow God and Israel to find a place anywhere This study offers new insight into the centrality of space and place to rabbinic religion after the destruction of the Temple and as such would be a key resource to students and scholars interested in rabbinic and ancient Judaism as well as providing a major new case study for anthropologists interested in the study of space

The Four Stages of Rabbinic Judaism Jacob Neusner, 2003-09-02 This concise volume provides a lucid introduction to the genesis and development of Rabbinic Judaism Jacob Neusner outlines and examines the four stages in which the initial period of the historical development of Rabbinic Judaism divides beginning with the Pentateuch and ending with its definitive and normative statement in the Talmud of Babylonia He traces the development of Rabbinic Judaism by exploring the relationships between and among the cognate writings which embody its formative history

Worship and Ethics Max Kadushin, 2001 Describes how Halakah or Jewish Law enables the individual to achieve religious experience
