Hitler from filling the leadership void within both the NSDAP the National Socialist German Workers Party and the völkisch movement *Military Review*, 1984 **Goering** Richard Overy, 2020-10-01 Published in the Bloomsbury Revelations series and featuring a new preface by the author this classic biography by acclaimed historian Richard Overy takes the reader on a chilling journey into the heart of Hitler's inner circle Hermann Goering was Hitler's most loyal supporter his designated successor and the second most powerful man in the Third Reich One of the main architects of the Nazi regime he was also instrumental in the creation of the Gestapo and directly ordered the Final Solution But who was the man behind the carefully constructed mask Self indulgent and ruthless sybaritic and brutal egotistical yet capable of self effacement weak willed yet fiercely calculating Goering was a contradictory complex and often buffoonish character He styled himself as the Iron Man but was known to wear togas fur coats and faux medieval hunting outfits A brilliant World War I fighter pilot military leader and mercurial Luftwaffe commander he also loved the opera and took a perverse pride in his ill gotten infamous art collection Richard Overy illuminates the many facets of Goering's personality and charts his story from his golden days as Hitler's most trusted commander to his failures and loss of power after the Battle of Britain his sensational trial at Nuremberg and his ignominious death by suicide on the eve of his execution *Goering* R. J. Overy, 2003 *From Weimar to Hitler* Hermann Beck, Larry Eugene Jones, 2018-11-29 Though often depicted as a rapid political transformation the Nazi seizure of power was in fact a process that extended from the appointment of the Papen cabinet in the early summer of 1932 through the Röhm blood purge two years later Across fourteen rigorous and carefully researched chapters *From Weimar to Hitler* offers a compelling collective investigation of this critical period in modern German history Each case study presents new empirical research on the crisis of Weimar democracy the establishment of the Nazi dictatorship and Hitler's consolidation of power Together they provide multiple perspectives on the extent to which the triumph of Nazism was historically predetermined or the product of human miscalculation and intent Hitler's Children Gerhard Rempel, 2015-07-15 Eighty two percent of German boys and girls between the ages of ten and eighteen belonged to Hitlerjugend Hitler Youth or one of its affiliates by the time membership became fully compulsory in 1939 These adolescents were recognized by the SS an exclusive cadre of Nazi zealots as a source of future recruits to its own elite ranks which were made up largely of men under the age of thirty In this book Gerhard Rempel examines the special relationship that developed between these two most youthful and dynamic branches of the National Socialist movement and concludes that the coalition gave nazism much of its passionate energy and contributed greatly to its initial political and military success Rempel centers his analysis of the HJ SS relationship on two branches of the Hitler Youth The first of these the Patrol Service was established as a juvenile police force to pursue ideological and social deviants political opponents and non conformists within the HJ and among German youth at large Under SS influence however membership in the organization became a preliminary apprenticeship for boys who would go on to be agents and soldiers in such SS controlled units as the Gestapo and Death's Head Formations The second the Land

Service was created by HJ to encourage a return to farm living But this battle to reverse the flight from the land took on military significance as the SS sought to use the Land Service to create defense peasants who would provide a reliable food supply while defending the Fatherland The transformation of the Patrol and Land services like that of the HJ generally served SS ends at the same time that it secured for the Nazi regime the practical and ideological support of Germany's youth By fostering in the Hitler Youth as national community of the young the SS believed it could convert the popular movement of nazism into a protomilitary program to produce ideologically pure and committed soldiers and leaders who would keep the movement young and vital

The Making of the Holocaust André Mineau, 2022-07-18 What made the Holocaust possible What does it mean from a moral viewpoint These two questions constitute the main focus of this book Through concepts borrowed mostly from systems theory an attempt is made at establishing a theoretical framework for a broad understanding of the genesis of the Holocaust More specifically the relationships between ideology political power and genocide are discussed and the following topics are covered 1 the constitution and the historical evolution of the ideology of the Holocaust through the genesis of anti-Semitism the impact of the modern paradigms and the apparent peculiarities of Nazism 2 the emergence of powerful means of action designed for implementing the ideology in the context of totalitarianism 3 control and freedom as the basic parameters in a decision making process that went along with a diffuse Holocaust phase and generated mechanisms of extensive cooperation 4 the values and norms that made sense to the Nazis in relation to the Holocaust with a critical assessment of Nazi ethics insofar as it aimed at subverting the concept of evil and at destroying the self This book deals with four key dimensions of the Holocaust ideology power act and meaning
