The Interlocking Sculpture of Isamu Noguchi Isamu Noguchi,2003 **33 MacDougal Alley** Isamu Noguchi,2003

Isamu Noguchi S Modernism Amy Lyford,2013-06-08 In a study that combines archival research a firm grounding in the historical context biographical analysis and sustained attention to specific works of art Amy Lyford provides an account of Isamu Noguchi s work between 1930 and 1950 and situates him among other artists who found it necessary to negotiate the issues of race and national identity In particular Lyford explores Noguchi s sense of his art as a form of social activism and a means of struggling against stereotypes of race ethnicity and national identity Ultimately the aesthetics and rhetoric of American modernism in this period both energized Noguchi s artistic production and constrained his public reputation

Isamu Noguchi Valerie J. Fletcher,Isamu Noguchi,2004 One of the most versatile artists of the modern era Isamu Noguchi explored many areas of art and design Both Isamu Noguchi Master Sculptor and the exhibition of the same name which this book accompanies focus on his sculpture as the nexus of his creativity From the late 1920s through the mid 1980s Noguchi changed direction frequently and delighted in exploring diametrically opposed ideas and styles In her essay Valerie J Fletcher examines Noguchi s use of many different materials and explores the reasons underlying his diverse practice Situating his sculptures within their historical and art historical contexts Dr Fletcher seeks to dispel the previous limited interpretation of Isamu Noguchi as a Japanese American artist instead redefining him as one of the first truly global artists of the modern era Noguchi worked in modes inspired by many cultural sources he became familiar with utopian ideals while working in Paris studied traditional calligraphic drawing in Beijing and learned to model clay sculptures in Kyoto During World War II the rise of anti Japanese sentiment precipitated a period of seclusion and introspection He adopted some of the principles of Surrealism and created the remarkable Lunars which have rarely been seen followed by his delicate interlocking compositions in slabs of slate and marble After the war Noguchi again traveled around the world finding inspiration in monuments of all kinds ranging from Stonehenge in England to Hindu architecture in India From the 1960s onward Noguchi maintained studios in the United States and in Japan while also working on garden environments and urban monuments in many cities In his late sculptural works he achieved subtle and sophisticated syntheses of nature with artifice the organic with the geometric intuition with intellect His sculptures express his passionate conviction that art can enrich ordinary lives and transcend national religious and ethnic barriers **Listening to Stone** Hayden Herrera,2015-04-21 Throughout the twentieth century Isamu Noguchi was a vital figure in modern art From interlocking wooden sculptures to massive steel monuments to the elegant Akari lamps Noguchi became a master of what he called the sculpturing of space But his constant struggle as both an artist and a man was to embrace his conflicted identity as the son of a single American woman and a famous yet reclusive Japanese father It s only in art he insisted that it was ever possible for me to find any identity at all In this remarkable biography of the elusive artist Hayden Herrera observes this driving force of Noguchi s creativity as

intimately tied to his deep appreciation of nature As a boy in Japan Noguchi would collect wild azaleas and blue mountain flowers for a little garden in front of his home As Herrera writes he also included a rock to give a feeling of weight and permanence It was a sensual appreciation he never abandoned When looking for stones in remote Japanese quarries for his zen like Paris garden forty years later he would spend hours actually listening to the stones scrambling from one to another until he found one that spoke to him Constantly striving to take the essence of nature and distill it Noguchi moved from sculpture to furniture and from playgrounds to sets for his friend the choreographer Martha Graham and back again working in wood iron clay steel aluminum and of course stone Throughout his career Noguchi traveled constantly from New York to Paris to India to Japan forever uprooting himself to reinvigorate what he called the keen edge of originality Wherever he went his needy disposition and boyish charm drew women to him yet he tended to push them away when things began to feel too settled Only through his art now seen as a powerful aesthetic link between the East and the West did Noguchi ever seem to feel that he belonged Combining the personal correspondence of and interviews with Noguchi and those closest to him from artists patrons assistants and lovers Herrera has created an authoritative biography of one of the twentieth century s most important sculptors She locates Noguchi in his friendships with such artists as Buckminster Fuller and Arshile Gorky and in his affairs with women including Frida Kahlo and Anna Matta Clark With the attention to detail and scholarship that made her biography of Gorky a finalist for the Pulitzer Prize Herrera has written a rich meditation on art in a globalized milieu Listening to Stone is a moving portrait of an artist compulsively driven to reinvent himself as he searched for his own essence of sculpture
