The International Survey Of Family Law 2003:

International Family Law Barbara Stark, 2017-03-02 International law has become part of everyday family law practice as lawyers everywhere are confronted with questions regarding the rights of mail order brides the adoption of children from other countries the abduction of children by foreign parents and domestic violence victims seeking asylum Indeed globalization is transforming family law even as families themselves are being redefined This book provides a practical overview of such issues and also examines the ways in which culture shapes family law in different countries It provides students with a useful introduction to challenging complicated and fascinating issues in international family law Finally by incorporating a comparative perspective it gives readers an opportunity to re examine their own legal systems **Kinship Matters** Fatemeh Ebtehaj, Bridget Lindley, Martin Richards, 2006-09-15 This book is the fifth in the Cambridge Socio Legal Group series and it concerns the evolving notions and practices of kinship in contemporary Britain and the interrelationship of kinship law and social policy Assembling contributions from scholars in a range of disciplines it examines social legal cultural and psychological questions related to kinship Rising rates of divorce and of alternative modes of partnership have raised questions about the care and well being of children while increasing longevity and mobility together with lower birth rates and changes in our economic circumstances have led to a reconsideration of duties and responsibilities towards the care of elderly people In addition globalisation trends and international flows of migrants and refugees have confronted us with alternative constructions of kinship and with the challenges of maintaining kinship ties transnationally Finally new developments in genetics research and the growing use of assisted reproductive technologies may raise questions about our notions of kinship and of kin rights and responsibilities The book explores these changes from various perspectives and draws on theoretical and empirical data to describe practices of kinship in contemporary Britain Routledge Handbook of International Family Law Barbara Stark, Jacqueline Heaton, 2019-01-30 Globalisation and the vast migrations of capital and labour that have accompanied it in recent decades has transformed family law in once unimaginable ways Families have been torn apart and new families have been created Borders have become more porous allowing adoptees and mail order brides to join new families and women fleeing domestic violence to escape from old ones People of different nationalities marry have children and divorce not necessarily in that order They file suits in their respective home states or third states demanding support custody and property Otherwise law abiding parents risk jail in desperate efforts to abduct their own children from foreign ex spouses The aim of this Handbook is to provide scholars postgraduate students judges and practitioners with a broad but authoritative review of current research in the area of International Family Law The contributors reflect on a range of jurisdictions and legal traditions and their approaches vary Each chapter has a distinct subject matter and was written by an author who was invited because of his or her expertise on that subject This volume provides a valuable contribution to emerging understandings of the subject **Yearbook of Private International Law** Petar Sarcevic, Paul

Volken,2004-06-30 From 2005 on the Yearbook of Private International Law is published by S ELP in cooperation with the Swiss Institute of Comparative Law This English language annual publication provides analysis and information on private international law developments world wide The Editors commission articles of enduring importance concerning the most significant trends in the field The Yearbook also devotes attention to the important work and research carried out in the context of the Hague Conference The Hague Academy UNCITRAL and UNIDROIT The authority of the editors and the lasting nature of the works included make the Yearbook an integral addition to the libraries of international law scholars and practitioners

Globalization and Health Belinda Bennett,George F. Tomossy,2006-06-21 Within contemporary society globalization has emerged as a key concern at the centre of ethical legal and policy debates relating to health care Conflicts between public interests and individual rights the challenge of regulating health professionals and access to health services and the effects of a global market all feature prominently in these discussions As a result of globalization these issues can no longer be understood solely within the political boundaries that define traditional notions of individuals and communities Rather solutions demand a global conception of rights and obligations which in turn requires new approaches to health policy formulation and a reevaluation of existing ethical and legal frameworks In essence the impact of globalization on human health is testing the robustness of modern regulatory systems legal doctrines and ethical paradigms PUBLIC HEALTH DEVELOPING GLOBAL CONCERNS The interconnectedness of the global economy presents new challenges in public health While globalization has facilitated improvements in health care it has also created new hazards and avenues for the exploitation of vulnerable persons It is becoming increasingly apparent that both national and international responses are required Indeed as the chapters in this section convey public health is rightly a global concern Globalization has led to a sharing of both risks and responsibilities in public health Belinda Bennett reminds us of the ease with which infectious diseases can spread within the global community given the speed of modern travel and trade

Women and Muslim Family Laws in Arab States Lynn Welchman,2007 A number of Arab states have recently either codified Muslim family law for the first time or have issued amendments or new laws which significantly impact the statutory rights of women as wives mothers and daughters In *Women and Muslim Family Laws in Arab States* Lynn Welchman examines women s rights in Muslim family laws in Arab states across the Middle East while also surveying the public debates surrounding the issues The author considers these new laws alongside older statutes to comment on the patterns and dynamics of change both in the texts of the laws and in the processes through by which they are drafted and issued She draws on original legal texts and explanatory statements as well as on extensive secondary literature particular to certain states for an insight into practice and on interventions by women s rights organizations and other parties to the debate in the press and in advocacy materials The discussions are set in the contemporary global context that internationalises the domestic and regional debates The book considers laws in states from the Gulf to North Africa in regard to their approaches to issues of codification processes and

right to privacy is used to conceal unequal treatment of women which is justified by invoking custom and tradition The book shows how law and its interpretation is used to disenfranchise women resulting in their being deprived of land and other property which they may have helped to accumulate It also considers issues of violence within the home reproductive rights and examines the issue of female genital cutting The role of women in development is explored as is their participation in politics and the NGO sector A major theme of the book is a consideration of the linkages of constitutional and international human rights norms with local values This is done using feminist tools of analysis The book considers the provisions of the Protocol to the African Charter on Human and People s Rights on the Rights of Women which was adopted by the African Union in July 2003 *China's Legal System* Donald C.
