M. Webb , 2000 **Political Economies of the Aegean Bronze Age** Daniel J. Pullen, 2010 This volume brings together an international group of researchers to address how Mycenaean and Minoan states controlled the economy The contributions originally delivered at the 2007 Langford Conference at the Florida State University examine the political economies of state and pre state entities within the Aegean Bronze Age including the issues of centralization and multiple scales of production distribution and consumption within a polity importance of extraregional trade craft specialization the role of non elite institutions and the political economy before the emergence of the palaces The contributors address these issues from an explicitly comparative perspective both within and across Minoan and Mycenaean contexts The conclusions reached in this volume shed new light on the essential differences between and among Minoan and Mycenaean states through their political economies **The Critique of Archaeological Economy** Stefanos Gimatzidis, Reinhard Jung, 2021-06-14 This book studies past economics from anthropological archaeological historical and sociological perspectives By analyzing archeological and other evidence it examines economic behavior and institutions in ancient societies Adopting an interdisciplinary perspective it critically discusses dominant economic models that have influenced the study of past economic relations in various disciplines while at the same time highlighting alternative theoretical trajectories In this regard the book s goal is not only to test theoretical models under scrutiny but also to present evidence against the rationalization of past economic behavior according to the rules of modern markets The contributing authors cover various topics such as trade in the classical Greek world concepts of commodity and value and management of economic affluence

Susan Sherratt* Yannis Galanakis, Toby Wilkinson, John Bennet, 2014-10-18 This volume brings together twenty six papers to mark Susan Sherratt s 65th birthday a collection that seeks to reflect both her broad range of interests and her ever questioning approach to uncovering the realities of life in Europe and the Mediterranean in later prehistory **Function and Ethnicity**

David Collard,2008 *Social Change in Aegean Prehistory* Corien Wiersma,Sofia Voutsaki,2016-11-30 This volume brings together papers that discuss social change The main focus is on the Early Helladic III to Late Helladic I period in southern Greece but also touches upon the surrounding islands This specific timeframe enables us to consider how mainland societies recovered from a crisis and how they eventually developed into the differentiated culturally receptive and competitive social formations of the early Mycenaean period Material changes are highlighted in the various papers ranging from pottery and burials to domestic architecture and settlement structures followed by discussions of how these changes relate to social change A variety of factors is thereby considered including demographic changes reciprocal relations and sumptuary behavior household organization and kin structure age and gender divisions internal tensions connectivity and mobility As such this volume is of interest to both Aegean prehistorians as to scholars interested in social and material change The volume consists of eight papers preceded by an introduction and concluded by a response The introduction gives an overview of the development of the debate on the explanation of social change in Aegean prehistory The response places the volume in a broader context of the EH III LH I period and the broader discussion on social change **Public Roles and Personal Status** Lena Larsson Lovén,Agneta Strömberg,2007 *Archaeology* Henry Hankey,1996 Report of the Department of Antiquities, Cyprus Cyprus. Tmēma Archaioetētōn,2010 *Fishing in the Prehistoric Aegean* Judith Powell,1996 The Late Bronze Age and Early Iron Ages of Central Transjordan Patrick E. McGovern,Robin Brown,1986 A critical transition period in the archaeology and history of Palestine the Late Bronze Age and Early Iron Age is described in detail from the perspective of a group of sites in the Baq ah Valley A major emphasis is on how scientific techniques including magnetic location of undisturbed burial deposits and analytical reconstruction of very early industries can be effectively integrated into an archaeological project Contrary to traditional views the evidence supports a relatively peaceful development within a single cultural tradition rather than the intrusion of a new people or segment of the existing population by invasion migration or revolt University Museum Monograph 65 **Aegaeum** ,1987
