The Laws Of Scotland Stair Memorial Encyclopaedia Vol 3:

The Laws of Scotland, 1994 **The Laws of Scotland**, 1994 A History of Private Law in Scotland Kenneth G. C. Reid, Reinhard Zimmermann (jurist), 2000 Law in Scotland has a long history uninterrupted either by revolution or by codification This work is the first detailed and systematic study in the field of Scottish private law It takes key topics from the law of obligations and the law of property and traces their development from earliest times to the present day A History of Private Law in Scotland: Volume 2: Obligations Kenneth Reid, Reinhard Zimmermann (jurist), 2000-12-21 This two volume series offers the first detailed and systematic account of the history of private law in Scotland Volume 2 covers topics such as insurance negligence liability breach of contract unfair contract terms sale and defamation The Unauthorised Agent Danny Busch, Laura J. Macgregor, 2009-02-19 This book focuses on a highly significant issue in agency law the legal situation created when an agent acts without authority Essays in Conveyancing and Property Law in Honour of Professor Robert Rennie Frankie McCarthy, James Chalmers, Stephen Bogle, 2015-05-11 Professor Robert Rennie has been one of the most influential voices in Scots private law over the past thirty years Highly respected as both an academic and a practitioner his contribution to the development of property law and practice has been substantial and unique This volume celebrates his retirement from the Chair of Conveyancing at the University of Glasgow in 2014 with a selection of essays written by his peers and colleagues from the judiciary academia and legal practice Each chapter covers a topic of particular interest to Professor Rennie during his career from the historical development of property law rules through to the latest developments in conveyancing practice and the evolution of the rules of professional negligence Although primarily Scottish in focus the contributions will have much of interest to lawyers in any jurisdiction struggling with similar practical problems particularly those with similar legal roots including the Netherlands and South Africa As a whole the collection is highly recommended to students practitioners and academics Publicity Rights and Image Gillian Black, 2020-02-27 Academics and practitioners are currently divided on the issues involved in permitting and regulating the commercial exploitation of publicity Publicity is the practice of using an individual's name image and reputation to promote products or to provide media coverage often in gossip magazines and the tabloid press This book provides a theoretical and multi jurisdictional review of the nature of publicity practice and its appropriate legal regulation The book includes a detailed exploration of the justifications advanced in favour of publicity rights and those that are advanced against Removing the analysis from any one jurisdiction the book examines current academic and judicial perspectives on publicity rights in a range of jurisdictions drawing out similarities and differences and revealing a picture of current thinking and practice which is intellectually incoherent By then clearly defining the practice of publicity and examining justifications for and against the author is able to bring the nature and shape of the right of publicity into much sharper focus The book includes a careful consideration of possible limits to any right of publicity the potential for assigning publicity rights or transferring them post mortem and whether defences can be offered

The author concludes by arguing for a publicity right which provides a degree of protection for the individual but which is significantly curtailed to recognise valid competing interests This is a work which will be of interest to academics and practitioners working in the field of publicity privacy and intellectual property Law Making and the Scottish Parliament Elaine E Sutherland, 2014-05-27 A study of legislative developments in areas of law and policy devolved to the Scottish Parliament **Comparative Contract Law** Larry DiMatteo, Martin Hogg, 2015-12-10 Bringing together leading commercial and contract law scholars from the United Kingdom and United States Comparative Contract Law British and American Perspectives offers an insightful and comprehensive assessment of the commonalities and divergences in the contract law of these two jurisdictions Approaching the subject area from a variety of perspectives doctrinal analysis behavioural analysis law and economics and theoretical the book examines familiar areas of contract law as practiced in the UK and US Topics include contract theory and structure contract formation and defects of consent policing contracts and the duty of good faith contract interpretation damages speciality contracts and legal reform The volume provides a thorough assessment of the current state of commercial contract law in the UK and US and addresses the strengths and weaknesses of the national and European approaches to many issues of contract law In particular it focuses on how commercial contract law should be improved and whether harmonization of the different contract law regimes is a suitable and appropriate solution

Contemporary Intellectual Property: Law and Policy Charlotte Waelde, Graeme Laurie, Abbe Brown, Smita Kheria, Jane Cornwell, 2014 This textbook provides an account of intellectual property law The underlying policies influencing the direction of the law are explained and explored and contemporary issues facing the discipline are tackled head on The international and European dimensions are covered together with the domestic position **Good Faith in Contract and Property Law** ADM Forte, 1999-12-01 Good faith is already a familiar concept in international commercial law and a recognised principle of substantive law in several major legal systems In the United Kingdom however a role for good faith and more fundamentally the issue of whether or not there ought to be a general principle of good faith informing English and Scots contract and property law are still matters for debate This book containing the papers delivered at the Symposium on Good Faith in Contract and Property Law held in Aberdeen University in October 1998 engages in that critical debate While its central core reflects on good faith from the perspective of a mixed legal system Scots Law papers on good faith from an English and European perspective locate the debate properly within a broader jurisdictional context Vicarious Liability in the Common Law World Paula Giliker, 2022-10-20 This book is the one place to find unprecedented access to case law doctrinal debates and comparative reflections on vicarious liability from across the common law world The doctrine of vicarious liability that is strict liability for the torts of others represents one of the most controversial areas of tort law Unsurprisingly it is a doctrine that has been discussed in the highest courts of common law jurisdictions This collection responds to uncertainties as to the operation of vicarious liability in twenty first century tort law by looking at key common

law jurisdictions and asking expert scholars to set out and critically analyse the law identifying factors influencing change and the extent to which case law from other common law jurisdictions has been influential The jurisdictions covered include Canada England and Wales Australia Singapore Ireland Hong Kong and New Zealand In providing critical analysis of this important topic it will be essential and compelling reading for all scholars of tort law and practitioners working in this field

The Work of the British Law Commissions Shona Wilson Stark, 2017-07-13 The Law Commission of England and Wales and the Scottish Law Commission were both established in 1965 to promote the reform of the laws of their respective jurisdictions Since then they have each produced hundreds of reports across many areas of law They are independent of government yet rely on governmental funding and governmental approval of their proposed projects They also rely on both government and Parliament and occasionally the courts or other bodies to implement their proposals This book examines the tension between independence and implementation and recommends how a balance can best be struck It proposes how the Commissions should choose their projects given that their duties outweigh their resources and how we should assess the success or otherwise of their output Countries around the world have created law reform bodies in the Commissions image They may wish to reflect on the GB Commissions responses to the changes and challenges they have faced to reappraise their own law reform machinery Equally the GB Commissions may seek inspiration from other commissions experiences The world the GB Commissions inhabit now is very different from when they were established They have evolved to remain relevant in the face of devolution the UK's changing relationship with the European Union increasing pressure for accountability and decreasing funding Further changes to secure the future of independent law reform are advanced in this book

The Law of Organized Religions Julian Rivers, 2010-07-22 And academics in religious studies Students studying law and religion courses Leaders and engaged members of churches and religious organizations

Comparative Succession Law Kenneth G C Reid, Jan Peter Schmidt, Reinhard Zimmermann, 2025-01-12 This fourth volume

in the Comparative Succession Law series provides a historical and comparative study of how and by whom the estates of deceased persons are administered drawing upon the legal traditions of Europe and beyond When a person dies their assets or their value will transfer to those entitled to inherit them following the deceased s will or in the absence of a will according to the rules of intestate succession Along the way the assets have to be identified located collected in and safeguarded Debts owed by the deceased or arising from the death must likewise be identified and then met if need be with the proceeds from a sale of estate assets The whole process by which this is done from the time of the death until the time of final distribution of the assets to those entitled to receive them is the subject of Administration of Estates The topic has sometimes been neglected even within national legal systems and systematic comparative analysis at least in the English language is almost wholly lacking The volume thus seeks to fill an important gap in the field of comparative succession law Focusing on the legal systems of Europe and on countries which have been influenced by the European experience the volume examines the law in Austria England and Wales France Germany Hungary Italy the Netherlands Norway Russia Scotland and Spain as well as presenting chapters on Australia and New Zealand Canada China South Africa South America and the United States of America The historical background to the main legal traditions in Europe is represented by chapters on Roman law the customary law of early modern Continental Europe and English law before 1837
