Provided by publisher *Making the Modern* Terry Smith,1993 Smith reveals how this visual revolution played an instrumental role in the complex psychological social economic and technological changes that came to be known as the second industrial revolution From the role of visualization in the invention of the assembly line to office and building design to the corporate and lifestyle images that filled new magazines such as Life and Fortune he traces the extent to which the second wave of industrialization engaged the visual arts to project a new iconology of progress *Masters of Enterprise* H.W. Brands,2012-12-04 From the early years of fur trading to today s Silicon Valley empires America has proved to be an extraordinarily fertile land for the creation of enormous fortunes Each generation has produced one or two phenomenally successful leaders often in new industries that caught contemporaries by surprise and each of these new fortunes reconfirmed the power of fanatically single minded visionaries John Jacob Astor and Cornelius Vanderbilt were the first American moguls John D Rockefeller Andrew Carnegie and J P Morgan were kingpins of the Gilded Age David Sarnoff Walt Disney Ray Kroc and Sam Walton were masters of mass culture Today Oprah Winfrey Andy Grove and Bill Gates are giants of the Information Age America has again and again been the land of dizzying mountains of wealth Here in a wittily told and deeply insightful history is a complete set of portraits of America s greatest generators of wealth Only such a collective study allows us to appreciate what makes the great entrepreneurs really tick As H W Brands shows these men and women are driven they are focused they deeply identify with the businesses they create and they possess the charisma necessary to persuade other talented people to join them They do it partly for the money but mostly for the thrill of creation The stories told here including how Nike got its start as a business school project for Phil Knight how Robert Woodruff almost refused to take control of Coca Cola to spite his father how Thomas Watson saved himself from prison by rescuing Dayton Ohio from a flood how Jay Gould nearly cornered the gold market how H L Hunt went from gambling at cards to gambling with oil leases make for a narrative that is always lively and revealing and often astonishing An observer in 1850 studying John Jacob Astor would not have predicted the rise of Henry Ford and the auto industry Nor would a student of Ford in 1950 have anticipated the takeoff of direct marketing that made Mary Kay Ash a trusted guide for millions of American women Full of surprising insights written with H W Brands s trademark flair the stories in *Masters of Enterprise* are must reading for all students of American business history *George Washington Carver* Christina Vella,2015-09-14 Nearly every American can cite at least one of the accomplishments of George Washington Carver The many tributes honoring his contributions to scientific advancement and black history include a national monument bearing his name a U S minted coin featuring his likeness and induction into the National Inventors Hall of Fame Born into slavery Carver earned a master s degree at Iowa State Agricultural College and went on to become that university s first black faculty member A keen painter who chose agricultural studies over art he focused the majority of his research on peanuts and sweet potatoes His scientific breakthroughs with the crops both of which would replenish the cotton leached soil of the South helped spare multitudes of

sharecroppers from poverty Despite Carver's lifelong difficulties with systemic racial prejudice when he died in 1943 millions of Americans mourned the passing of one of the nation's most honored and well known scientists Scores of children's books celebrate the contributions of this prolific botanist but no biographer has fully examined both his personal life and career until now Christina Vella offers a thorough biography of George Washington Carver including in depth details of his relationships with his friends colleagues supporters and those he loved Despite the exceptional trajectory of his career Carver was not immune to the racism of the Jim Crow era or the privations and hardships of the Great Depression and two world wars Yet throughout this tumultuous period his scientific achievements aligned him with equally extraordinary friends including Teddy Roosevelt Mohandas Gandhi Henry A Wallace and Henry Ford In pursuit of the man behind the historical figure Vella discovers an unassuming intellectual with a quirky sense of humor striking eccentricities and an unwavering religious faith She explores Carver's anguished dealings with Booker T Washington across their nineteen years working together at the Tuskegee Institute a turbulent partnership often fraught with jealousy Uneasy in personal relationships Carver lost one woman he loved to suicide and years later directed his devotion toward a white man A prodigious and generous scholar whose life was shaped by struggle and heartbreak as well as success and fame George Washington Carver remains a key figure in the history of southern agriculture botanical advancement and the struggle for civil rights Vella's extensively researched biography offers a complex and compelling portrait of one of the most brilliant men of the last century
