Dressing and Undressing Duchamp Ingrid E. Mida,2022-08-25 Fashion is a subject that has long been marginalized in art history and in museums And yet one of the most well known artists in the twentieth century Marcel Duchamp created works that challenge the notion that fashion does not belong in the museum As well there is material evidence of his engagement with clothing as part of his oeuvre This book reveals that clothing and dressing are significant themes that recur in Duchamp s life and his work including his drawings his fashioning of his body his readymades and in his curatorial gestures In examining the items of clothing worn by Duchamp and the related traces of his wardrobe management Duchamp is unmasked as a dandy His waistcoat readymade series *Made to Measure* 1957 1961 is in fact a remarkable and deliberate effort to recalibrate the definition of the readymade to include clothing With this little studied readymade series Duchamp established a precedent for sartorial art as a valid form of artistic expression In considering the material traces of Duchamp s fashioning of his body and identity in his work and life this book makes a highly original contribution to the understanding of Duchamp s work as well as the significance of the clothed body in the vanguard of Modernism Ultimately this book explains

the relevance of fashion in the museum to modern audiences today Equal Under the Sky Linda M. Grasso, 2017-10 Cover Half Title Title Page Copyright Dedication Epigraph Contents Illustrations Acknowledgments Introduction Georgia O Keeffe and Feminism Chapter One Living Feminism in the 1910s Chapter Two The Artist Idea Chapter Three Women in the Picture Chapter Four You Are No Stranger to Me Women's Fan Letters Chapter Five Georgia O Keeffe's Self Portrait Chapter Six Feminism as Politics and Art Notes Bibliography Index *Flowers and Towers* Nira Tessler, 2015-11-25 This book explores the meaning and symbolism of the flower motif in the art of women artists from the nineteenth century to the present day It begins with a discussion of the symbolic significance of the flower in canonical texts such as the Song of Songs in which the female lover is likened to a lily among the thorns and to an enclosed garden These allegorical images permeated into Christian iconography attaining various expressions in the plastic arts from the twelfth through nineteenth centuries The heart of the book is a discussion of the meaning of the change in representations of the flower and at the same time the appearance of amazing images of masculine skyscrapers in the works of avant garde American women artists during the 1920s and 30s in three hubs of Modernist art New York California and Mexico Tessler explains how modernist artists of various fields of art such as Glaspell Stettheimer O Keeffe Pelton Cunningham Mather Modotti and Kahlo were aware of the religious symbolism of the flower in Judaism and Christianity and turned it into an emblem of the new modern woman with her own views of the world *Flowers and Towers* concludes by presenting the works of contemporary feminist American artists such as Chicago and Schapiro who pay tribute to those same Modernist artists by creating a new and daring image of the flower and using feminine materials and techniques that link them as it were to their spiritual mothers **The Collections of the Nelson-Atkins Museum of Art** Nelson-Atkins Museum of Art, Margaret C. Conrads, 2007 Lauren Lessing and Randall R Griffey are primary authors P 25 Full Bloom: The Art and Life of Georgia O'Keeffe Hunter Drohojowska-Philp, 2005-11-15 Offers a portrait of the twentieth century woman artist through discussions of her marriage to art photography pioneer Alfred Stieglitz the impact of his infidelity on her psyche and her relocation to New Mexico where she created her signature works **Locating American Art** Cynthia Fowler, 2017-07-05 How does museum location shape the interpretation of an art object by critics curators art historians and others To what extent is the value of a work of art determined by its location Providing a close examination of individual works of American art in relation to gallery and museum location this anthology presents case studies of paintings sculpture photographs and other media that explore these questions about the relationship between location and the prescribed meaning of art It takes an alternate perspective in that it provides in depth analysis of works of art that are less well known than the usual American art suspects and in locations outside of art museums in major urban cultural centers By doing so the contributors to this volume reveal that such a shift in focus yields an expanded and more complex understanding of American art Close examinations are given to works located in small and mid sized art museums throughout the United States museums that generally do not benefit from the resources

afforded by more powerful cultural establishments such as the Museum of Modern Art and the Metropolitan Museum of Art in New York. Works of art located at institutions other than art museums are also examined. Although the book primarily focuses on paintings, other media created from the Colonial Period to the present are considered, including material culture and craft. The volume takes an inclusive approach to American art by featuring works created by a diverse group of artists from canonical to lesser known ones and provides new insights by highlighting the regional and the local. "Exhibiting Outside the Academy, Salon and Biennial, 1775-1999" Andrew Graciano, 2017-07-05. In recent years there has been increasing scholarly interest in the history of museums, academies, and major exhibitions. There has been, however, little to no sustained interest in the histories of alternative exhibitions: single artwork, solo artist, artist mounted, entrepreneurial, privately funded, ephemeral, etc., with the notable exception of those publications that deal with situations involving major artists or those who would become so. For example, J. L. David's exhibition of *Intervention of the Sabine Women* (1799) and *The First Impressionist Exhibition* of 1874, despite the fact that these sorts of exhibitions and critical scholarship about them have become commonplace and no less important in the contemporary art world. The present volume uses and contextualizes eleven case studies to advance some overarching themes and commonalities among alternative exhibitions in the long modern period from the late eighteenth to the late twentieth centuries and beyond. These include the issue of control in the interrelation and elision of the roles of artist and curator and the relationship of such alternative exhibitions to the dominant modes, structures of display and cultural ideology. *Singular Women* Kristen Frederickson, 2003-03-04. Contemporary art historians all of them women probe the dilemmas and complexities of writing about the woman artist past and present. These 13 essays address the work and history of specific artists beginning with the Renaissance and ending with the present day.

Film and Modern American Art Katherine Manthorne, 2019-01-30. Between the 1890s and the 1930s, movie-going became an established feature of everyday life across America. Movies constituted an enormous visual data bank and changed the way artist and public alike interpreted images. This book explores modern painting as a response to and an appropriation of the aesthetic possibilities prised open by cinema from its invention until the outbreak of World War II, when both the art world and the film industry changed substantially. Artists were watching movies; filmmakers studied fine arts; the membrane between media was porous, allowing for fluid exchange. Each chapter focuses on a suite of films and paintings broken down into facets and then reassembled to elucidate the distinctive art-film nexus at successive historic moments. **North American Women Artists of the Twentieth Century** Jules Heller, Nancy G. Heller, 2013-12-19. First Published in 1997. Routledge is an imprint of Taylor & Francis, an informa company.
