The Life Insurance Enterprise 1885 191:

Freaks of Fortune Jonathan Levy, 2012-10-29 Until the nineteenth century risk was a specialized term it was the commodity exchanged in a marine insurance contract *Freaks of Fortune* tells how the modern concept of risk emerged in the United States Born on the high seas risk migrated inland and became essential to the financial management of an inherently uncertain capitalist future The Publishers' Trade List Annual ,1973 **The Chronicle** ,1889 Litigation and Inequality Edward A. Purcell, 1992 *Litigation and Inequality* explores the dynamic and intricate relationship between legal and social change through the prism of litigation tactics and out of court settlement practices from the 1870s to the 1950s Developing the synthetic historical concept of a social litigation system Purcell analyzes the role of both substantive and procedural law as well as the impact of social and political factors in shaping the de facto processes of litigation and claims disputing Focusing on tort and insurance contract disputes between individuals and national corporations he examines the changing social and economic significance of the choice between state and national courts that federal diversity jurisdiction gave litigants *Litigation and Inequality* scrutinizes the increasingly sophisticated methods that parties developed to exploit their ability to choose between forums It also traces the changing responses of the courts and legislatures to the escalation of tactical maneuvering It locates the origins of modern litigation practice in the quarter century after 1910 Purcell points to fundamental flaws in the efficiency theory of tort law of the late nineteenth and early twentieth century He identifies specific ways in which the legal system regularly subsidized corporate enterprise He seriously qualifies and refines the progressive charge that the federal courts favored business interests The book argues that during the period from the turn of the century to World War I especially the critical period from 1905 to 1908 the Supreme Court reoriented the federal judicial system and essentially created the twentieth century federal judiciary It also challenges the idea that diversity jurisdiction is best understood as a device to protect nonresidents from local prejudice It illuminates a range of related historical and legal issues from the ostensible formalism of the late nineteenth century judicial thinking to the origins of the workmen s compensation movement Examining these developments with clarity and insight this work will interest historians and sociologists as well as lawyers and legal scholars *Mutual and Cooperative Enterprises* John A. C. Hetherington, 1991 *Scottish Banking and Insurance Magazine* ,1887 **Culture, Politics, and the Making of the Railroad Brotherhoods, 1863-1916** Paul Michel Taillon, 1997 **The American Economic Review** ,1964 Includes annual List of doctoral dissertations in political economy in progress in American universities and colleges and the Hand book of the American Economic Association *Duquesne University Law Review* ,1965 **United States Investor** ,1917 **British Books in Print** ,1986 **Australasian Building Societies and Mortgage Companies Gazette** ,1891 **Engendering Business** Angel Kwolek-Folland, 1994 Drawing on a range of primary sources including the archives of major companies personal papers trade magazines photographs and recorded anecdotes of turn of century life and using the extensive

secondary literature on women sex roles women s work manhood business history and material culture Angel Kwolek Folland has built up an intricate picture of office life that is both challenging and innovative Business HistoryIn Engendering Business Angel Kwolek Folland challenges the notion that neutral market forces shaped American business arguing instead for the central importance of gender in the rise of the modern corporation She presents a detailed view of the gendered development of management and male female job segmentation while also examining the role of gender in such areas as architectural space office clothing and office workers leisure activities
