## The Life Of Guido Reni:

The Life of Guido Reni conte Carlo Cesare Malvasia, 1980 The main source of what we know about Guido Reni is The Life of Guido Reni by Malvasia It lets us see a major artist of the Italian Baroque through the eyes of his own age The text contains considerable detail on what Guido painted as well as his commissions and patrons As Reni's close friend Malvasia took much of his material from first hand knowledge documentary evidence from the artist's recently discovered account book attests to the reliability of his biographer's text But Malvasia's biography is far more than a chronicle of facts about Reni's art Through a wealth of illustrative incidents based on eyewitness accounts we come to know Reni as an individual driven by compulsions beset by phobias and isolated by pride He appears as a man alone in a crowd desperately anxious to defend his position as a major artist enormously vulnerable to what were often imagined insults We see him as an individual obsessed with sorcery and witchcraft and having an overwhelming compulsion for gambling that eventually brought about his ruin and hastened his death No earlier biography provides so much material about an artist's inner life The editors have added a substantial introductory essay to their translation of Reni's biography along with an analysis of the text and a section on Malvasia and his writings Malvasia wrote the best early guidebook to the paintings of Bologna and his vast compendium on the Bolognese School of painters is the most important regional Lives of the Artists that appeared in Italy during the 17th century As this is the first book on Reni in English the editors have added a section intended as an introduction to his rather complex stylistic development Eight illustrations are included to show some of Reni's most important works

**Felsina Pittrice** Carlo Cesare Malvasia, 2019 Described by Malvasia as the creator and promoter of the new maniera moderna Guido introduces the fourth age of painting a period marked by a new and sometimes bold elaboration on the notion of artistic perfection developed by the Carracci and achieved more specifically by Ludovico Art in Italy could have declined again after the deaths of the Carracci but thanks to Guido and Domenichino Francesco Albani and Guercino a renewed flowering of the art of painting prevails in Bologna and spreads throughout Italy In assessing the role of Guido in promoting this new artistic vanguard Malvasia finds himself in a theoretical impasse On the one hand he cannot resist his infatuation with Guido's work endowed with spellbinding powers Guido's paintings embody the greatest luxury of modernity an endless search for aesthetic refinement and transcendental beauty both in the representation of the human body and in the orchestration of light color and impasto On the other hand Malvasia cannot bring himself to embrace Guido's last manner where delicacy verges on feebleness transcendence coalesces into purposeless abstraction divine vision engenders incompleteness and sprezzatura turns into apparent carelessness In Malvasia's eyes Guido is both a model of virtue and the victim of the demonic force of gambling With acuity Malvasia praises Guido the money maker the self-confident artist able to overhaul the rules of the art market by increasing the value of painting but he detests Guido the money squanderer the

indebted artist who gambles away his reputation and supposedly the quality of his creations Richly illustrated this volume provides a translation and critical edition of the life of Guido offering copious historical notes filled with documentary information about Guido s biography and the works by Guido mentioned by Malvasia It constitutes the most thorough treatment of the artist s work in print *An Episode in the Life of Guido Reni, from the Ital. by G. commentary on the author's data and interpretations contrasting them with other contemporary primary sources and recent scholarship Provided by publisher Art, Patronage, and Nepotism in Early Modern Rome Karen J. Lloyd, 2022-08-19 Drawing on rich archival research and focusing on works by leading artists including Guido Reni and Gian Lorenzo Bernini Karen J Lloyd demonstrates that cardinal nephews in seventeenth century Rome those nephews who were raised to the cardinalate as princes of the Church used the arts to cultivate more than splendid social status Through politically savvy frescos and emotionally evocative displays of paintings sculptures and curiosities cardinal nephews aimed to define nepotism as good Catholic rule Their commissions took advantage of their unique position close to the pope embedding the defense of their role into the physical fabric of authority from the storied vaults of the Vatican Palace to the sensuous garden villas that fused business and pleasure in the Eternal City This book uncovers how cardinal nephews crafted a seductively potent dialogue on the nature of power fuelling the development of innovative visual forms that championed themselves as the indispensable heart of papal politics The book will be of interest to scholars working in art history early modern studies religious history and political history *Malvasia's Life of the Carracci: Commentary and Translation*, 2000 **The Artist & the Emotional World** John E. Gedeo, 1996 In this unique blending of clinical experience with in depth biographical study Gedeo examines both the necessary traits that prepare a person for a creative career as well as the emotional vicissitudes of such a career the psychological issues talented persons must struggle with in order to be creative He then goes further to discuss crucial developmental experiences that may result in a creative personality childhood experiences the strong possibly negative effect of a possession of talent on personality and the influence of opportunities provided by a creator's environment Gedeo also details attributes required of the successful artist the possible need to separate creativity from psychosis and the evolution of psychoanalytic views on creativity **Masters in Art**, 1903 Each number is devoted to one artist and includes bibliography of the artist **Felsina Pittrice** Carlo Cesare Malvasia, 2019 *Artistic Circulation between Early Modern Spain and Italy* Kelley Helmstutler Di Dio, Tommaso Mozzati, 2020-01-27 This collection of essays by major scholars in the field explores how the rich intersections between Italy and Spain during the early modern period resulted in a confluence of cultural ideals Various means of exchange and convergence are explored through two main catalysts humans their trips or resettlements and objects such as books paintings sculptures and prints The visual and textual evidence of the transmission of ideas iconographies and styles are examined such as triumphal ephemera treatises on painting the social status of the artist collections and their display church decoration and funerary monuments providing a more nuanced understanding of the exchanges of styles forms and ideals across southern Europe Ave Papa/Ave Papabile Lilian H. Zirpolo, 2005 In 1624 Pope Urban VIII appointed Marcello Sacchetti depositary general and secret treasurer of the Apostolic Chamber and Giulio Sacchetti bishop of Gravina Urban later gave Marcello the lease on the alum mines of Tolfa and raised Giulio to the cardinalate To assert their new power the Sacchetti began commissioning works of art Marcello discovered and promoted

leading Baroque masters such as Pietro da Cortona and Nicolas Poussin while Giulio purchased works from previous generations In the eighteenth century Pope Benedict XIV bought the collection and housed it in the Capitoline Museum where it is now a substantial portion of the collection By focusing on the relationship between the artists in service and the Sacchetti this study expands our knowledge of the artists and the complexity of the processes of agency in the fulfillment of commissions In so doing it underlines how the Sacchetti used art to proclaim a certain public image and to promote Cardinal Giulio as a candidate to the papal throne      *Redefining Eclecticism in Early Modern Bolognese Painting* Daniel Unger, 2025-10-01 *Redefining Eclecticism in Early Modern Bolognese Painting* Ideology Practice and Criticism focuses on the unique nature of early modern Bolognese painting that found its expression in stylistic diversity The flourishing of different stylistic approaches in the Mannerist paintings of the previous generation evolved at the turn the seventeenth century in the work of the Bolognese painters into an approach best described as eclecticism characterized by the combination of two or more styles in a single work of art Eclecticism was a major innovation and major contribution to the history of art But it then also became a critical term that suffered much negative press The book therefore also traces the role of eclecticism as a concept in the evolution of criticism and scholarship about the Bolognese school of painting over 250 years showing how the dramatically vacillating attitudes towards this concept shaped the historical view of the Bolognese painters ultimately having a tremendous dampening impact on our understanding of seventeenth century art
