**The Monastic Origins of the Nag Hammadi Codices** Hugo Lundhaug, Lance Jenott, 2015-10-19 Hugo Lundhaug and Lance Jenott offer a sustained argument for the monastic provenance of the Nag Hammadi Codices They examine the arguments for and against a monastic Sitz im Leben and defend the view that the Codices were produced and read by Christian monks most likely Pachomians in the fourth and fifth century monasteries of Upper Egypt Eschewing the modern classification of the Nag Hammadi texts as Gnostic the authors approach the codices and their ancient owners from the perspective of the diverse monastic culture of late antique Egypt and situate them in the context of the ongoing controversies over extra canonical literature and the theological legacy of Origen Through a

combination of sources including idealized hagiographies travelogues monastic rules and exhortations and the more quotidian details revealed in documentary papyri manuscript collections and archaeology monasticism in the Thebaid is brought to life and the Nag Hammadi codices situated within it The cartonnage papyri from the leather covers of the codices which bear witness to the monastic culture of the region are closely examined while scribal and codicological features of the codices are analyzed and compared with contemporary manuscripts from Egypt Special attention is given to the codices scribal notes and colophons which offer direct evidence of their producers and users The study ultimately reveals the Nag Hammadi Codices as a collection of books completely at home in the monastic manuscript culture of late antique Egypt

*Monastic Education in Late Antiquity* Lillian I. Larsen, Samuel Rubenson, 2018-08-23 In re examining the Christianization of the Roman Empire and subsequent transformation of Graeco Roman classical culture this volume challenges conventional ways of understanding both the history of Christian monasticism and the history of education The chapters interrogate assumptions that have framed monastic practice as pedagogically unprecedented with few obvious precursors and or parallels A number explore how both teaching and practice merge classical pedagogical structures with Christian sources and traditions Others re situate monasticism within a longer trajectory of educational and institutional frameworks elucidating models that remain central to the preservation of both Greek and Latin literary culture and the skills of reading and writing Through re examination of archaeological evidence and critical re reading of signature monastic texts each documents the degree to which monastic structures emerged in close alignment with urban literate society and retain established affinity with classical rhetorical and philosophical school traditions Ancient Education and Early Christianity Matthew Ryan Hauge, Andrew W. Pitts, 2016-02-11 What was the relationship of ancient education to early Christianity This

volume provides an in depth look at different approaches currently employed by scholars who draw upon educational settings in the ancient world to inform their historical research in Christian origins The book is divided into two sections one consisting of essays on education in the ancient world and one consisting of exegetical studies dealing with various passages where motifs emerging from ancient educational culture provide illumination The chapters summarize the state of the discussion on ancient education in classical and biblical studies examine obstacles to arriving at a comprehensive theory of early Christianity s relationship to ancient education compare different approaches and compile the diverse methodologies into one comparative study Several educational motifs are integrated in order to demonstrate the exegetical insights that they may yield when utilized in New Testament historical investigation and interpretation Historica, Biblica, Ascetica Et Hagiographica Frances Margaret Young, Mark J.
