Dogs and Demons Alex Kerr,2002-02-10 The crises and failures of modernization in Japan as seen up close by a resident expert Japan is a nation in crisis and the crisis goes far beyond its well known economic plight In *Dogs and Demons* Alex Kerr chronicles the crisis on a broad scale from the failure of Japan s banks and pension funds to the decline of its once magnificent modern cinema The book takes up for the first time in the Western press subjects such as the nation s endangered environment its seashores lined with concrete its roads leading to nowhere in the mountains It describes Japan s monument frenzy the destruction of old cities such as Kyoto and construction of drab new cities and the attendant collapse of the tourist industry All these unhealthy developments are Kerr argues the devastating boomerang effect of an educational and bureaucratic system designed to produce manufactured goods and little else A mere upturn in economic growth will not quickly remedy these severe internal problems which Kerr calls a failure of modernism He assails the foreign experts who often dependent on Japanese government and business support fail to address these issues Meanwhile what of the Japanese people themselves Kerr a resident of Japan for thirty five years writes of them with humor and passion for passion he says is part of the story Millions of Japanese feel as heartbroken at what is going on as I do My Japanese friends tell me Please write this for us **The Japanese Professor** Gregory S. Poole,2010-01-01 This monograph is a substantial contribution to our

knowledge of the internal workings of a Japanese university focussing on the world view of the professor In this anthropological case study of a private university in urban Tokyo conducted through extended participant observation Gregory Poole at once both an insider and outsider tells an ethnographic story that explicates a professoriate s working world The author addresses one basic problem how do Japanese professors configure their working world In answering this research question he demonstrates how the present climate of competition and restructuring means that faculty members in Japan are faced with the challenge of culturally translating largely western concepts of the university while steadfastly preserving their own local culture of higher education *Parenthood between Generations* Siân Pooley,Kaveri

Qureshi,2016-04-01 Recent literature has identified modern parenting as an expert led practice one which begins with pre pregnancy decisions entails distinct types of intimate relationships places intense burdens on mothers and increasingly on fathers too Exploring within diverse historical and global contexts how men and women make and break relations between generations when becoming parents this volume brings together innovative qualitative research by anthropologists historians and sociologists The chapters focus tightly on inter generational transmission and demonstrate its importance for understanding how people become parents and rear children **Photographs Objects Histories** Elizabeth Edwards,Janice

Hart,2004-06-01 This innovative volume explores the idea that while photographs are images they are also objects and this materiality is integral to their meaning and use The case studies presented focus on photographs active in different institutional political religious and domestic spheres where physical properties the nature of their use and the cultural formations in which they function make their objectness central to how we should understand them The book s contributions are drawn from disciplines including the history of photography visual anthropology and art history with case studies from a range of countries such as the Netherlands North America Australia Japan Romania and Tibet Each shows the methodological strategies they have developed in order to fully exploit the idea of the materiality of photographic images

Japan's Changing Generations Gordon Mathews,Bruce White,2012-10-02 This book argues that the generation gap in Japan is something more than young people resisting the adult social order before entering and conforming to that order Rather it signifies something more fundamental the emergence of a new Japan which may be quite different from the Japan of postwar decades It argues that while young people in Japan in their teens twenties and early thirties are not engaged in overt social or political resistance they are turning against the existing Japanese social order whose legitimacy has been undermined by the past decade of economic downturn The book shows how young people in Japan are thinking about their bodies and identities their social relationships and their employment and parenting in new and generationally contextual ways that may help to create a future Japan quite different from Japan of the recent past Seven Going on Seventeen Jacqueline Reid-Walsh,2005 The tween is the new girl on the block in girlhood studies Although the study of tween life may have derived from a particular marketing orientation at the end of the twentieth century it is not limited by it On the contrary this collection of essays shows that tween is not a simple or unified concept nor is it limited to a certain class of girls in a few countries This collection by an international group of authors highlights specific methodologies for working with and studying tween age girls provides challenges to the presumed innocence of girlhood and engages in an analysis of marketing in relation to girlhood In so doing this book offers a reading on these three or four years in a girl s life that suggests that this period is as fascinating as the teen years and as generative in its implications for girlhood studies as studies of both younger and adolescent girls **Perfectly Japanese** Merry White,2002-09-02 Are Japanese families in crisis In this study Merry Isaacs White looks back at two key moments of family making in the past hundred years the Meiji era and postwar period to see how models for the Japanese family have been constructed
