The Medici A Tale Of Fifteen Generations:

The Medici James Cleugh,1997 *The Cinema of Ermanno Olmi* Ian Pettigrew,2020-11-13 Ermanno Olmi is one of cinema's great unsung filmmakers Emerging onto the Italian art film scene just as the last canonical neo realist movies were released in the late 1950s and early 1960s several of Olmi's films including *Il Posto* 1961 *The Tree of Wooden Clogs* 1978 and *The Legend of the Holy Drinker* 1988 won top prizes at Cannes and Venice However the majority of his work has remained unappreciated This the first English language book on Olmi explores the director's style and evolving environmentalism from his early institutional short films made while working at an Italian energy company to his 19 feature films *Lucrezia Tornabuoni De' Medici and the Medici Family in the Fifteenth Century* Maria Grazia Pernis,Laurie Adams,2006 *Lucrezia Tornabuoni de Medici and the Medici Family in the Fifteenth Century* is a fresh new biography of a Renaissance woman who lived during the heyday of Medici power A remarkable person in her own right the author of religious poems and sacred narratives as well as an accomplished businesswoman Lucrezia was the mother of Lorenzo the Magnificent the grandmother of two popes and the great great grandmother of Catherine de Medici Queen of France This glimpse of her life and times is a window onto the political intrigues and intellectual achievements of Medici Florence **Three Golden Ages** Alf J.

Mapp,1998-11-13 In this intriguing book best selling author Alf Mapp Jr explores three periods in Western history that exploded with creativity Elizabethan England Renaissance Florence and America's founding What enabled these societies to make staggering jumps in scientific knowledge develop new political structures or create timeless works of art Feminist Interpretations of Niccolò Machiavelli Maria J. Falco,2010-11-01 **The Monstrous Regiment of Women** S.

Jansen,2002-10-17 In *The Monstrous Regiment of Women* Sharon Jansen explores the case for and against female rule by examining the arguments made by theorists from Sir John Fortescue 1461 through Bishop Bossuet 1680 interweaving their arguments with references to the most well known early modern queens The story of early modern European political history looks very different if instead of focusing on kings and their sons we see successive generations of powerful women and the shifting political alliances of the period from a very different and revealing perspective **The Medici** James Cleugh,1990

An Art Lover's Guide to Florence Judith Testa,2012-09-15 No city but Florence contains such an intense concentration of art produced in such a short span of time The sheer number and proximity of works of painting sculpture and architecture in Florence can be so overwhelming that Florentine hospitals treat hundreds of visitors each year for symptoms brought on by trying to see them all an illness famously identified with the French author Stendhal While most guidebooks offer only brief descriptions of a large number of works with little discussion of the historical background Judith Testa gives a fresh perspective on the rich and brilliant art of the Florentine Renaissance in *An Art Lover's Guide to Florence* Concentrating on a number of the greatest works by such masters as Botticelli and Michelangelo Testa explains each piece in terms of what it meant to the people who produced it and for whom they made it deftly treating the complex interplay of politics sex and

religion that were involved in the creation of those works With Testa as a guide armchair travelers and tourists alike will delight in the fascinating world of Florentine art and history *A History of Childhood and Disability* Philip L.

Safford, Elizabeth J. Safford, 1996 In their chronological portrait the authors synthesize the many voices of exceptional children providing a historical picture that includes not only the perspective of the professional but also to the extent possible that of the client The book begins by placing the origins of special education in historical context from Aristotle through the Enlightenment and beyond Subsequent chapters consider individual conditions traditionally associated with specialized approaches e g blindness deafness and retardation discuss conditions that have given rise to further differentiation of childhood exceptionality and offer a synthesis of themes and a prospective for a new history now emerging of children considered exceptional Galileo's Daughter Dava Sobel, 2009-05-26 Inspired by a long fascination with Galileo and by the remarkable surviving letters of Galileo's daughter a cloistered nun Dava Sobel has written a biography unlike any other of the man Albert Einstein called the father of modern physics indeed of modern science altogether Galileo's Daughter also presents a stunning portrait of a person hitherto lost to history described by her father as a woman of exquisite mind singular goodness and most tenderly attached to me Galileo's Daughter dramatically recolors the personality and accomplishment of a mythic figure whose seventeenth century clash with Catholic doctrine continues to define the schism between science and religion Moving between Galileo's grand public life and Maria Celeste's sequestered world Sobel illuminates the Florence of the Medicis and the papal court in Rome during the pivotal era when humanity's perception of its place in the cosmos was about to be overturned In that same time while the bubonic plague wreaked its terrible devastation and the Thirty Years War tipped fortunes across Europe one man sought to reconcile the Heaven he revered as a good Catholic with the heavens he revealed through his telescope With all the human drama and scientific adventure that distinguished Dava Sobel's previous book *Longitude* Galileo's Daughter is an unforgettable story
