believers may enjoy On the other hand Br mmer has also shown that religious belief should not be understood as an explanatory theory but rather as a way in which believers understand the meaning of their lives and their experience of the world and direct their lives accordingly Thus in the Christian tradition believers claim that their lives are meaningful because they seek to attain ultimate happiness in the love of God In the introductory sections throughout this volume Vincent Br mmer describes how he came to pay attention to the various themes dealt with in his writings and explains why he came to deal with them in the ways he did
