The Metaphysics Of Explanation An Inquiry Into The Nature And Philosophical Limits Of Explanation:

Philosophy of Knowledge: an Inquiry Into the Nature, Limits, and Validity of Human Cognitive Faculty George Trumbull Ladd, 1897 *The Metaphysics of Explanation* Campbell Whitaker, 2004 Dr Whitaker's book represents a highly important contribution to philosophical scholarship. It is not only a sustained analysis of the metaphysical questions of existence and the world; it is also a thorough analysis of the important theories of explanation over the past century and an overview and generalized theory of the essential nature of all types of rational explanation including convincing resolutions of traditional problems of induction and free will. It is a thorough analysis of the concept of total explanation and its relation to concepts of sufficient reason, necessary being, axiarchism, explanatory self-subsumption, existence, concept, object, sense, and reference. There are interesting and significant analyses of some of the age-old proofs of the existence of God. There is also a rigorous explication of the philosophical limits of explanation and the incoherencies that result when those limits are ignored. This study also contains a detailed review and analysis of theories of divine creation and their relation to theories of scientific cosmology. There are exhaustive analyses of arguments for the spatial and temporal extent of the world as a whole. There is a careful *University Essays in Metaphysics, Moral Philosophy, & English Composition* Charles B. B. McLaren, 1870 **The Review of Metaphysics**, 2006 The Sheed and Ward Anthology of Catholic Philosophy James C. Swindal, Harry J. Gensler, SJ, 2005-09-01. The Sheed Ward Anthology of Catholic Philosophy is a thorough introduction to the evolution of Catholic philosophy from Biblical times to the present day. The first comprehensive collection of readings from Catholic philosophers; this volume aims to sharpen the understanding of Catholic philosophy by grouping together the best examples of this tradition, both well-known classics and lesser-known selections. The readings emphasize themes integral to the Catholic tradition, such as the harmony of faith and reason, the existence and nature of God, the nature of the human person, and the nature of being and the objectivity of the moral law. Each reading includes a brief introduction and is historically placed within five major groups: 1. Preliminaries including readings from the Bible, Plato, and Aristotle; 2. The Patristic Era, selections from Aristides to Boethius, and a heavy focus on Augustine; 3. The Middle Ages, readings from the early Moslem and Jewish thinkers to William of Ockham, with an emphasis on Aquinas; 4. The Renaissance through the Nineteenth Century, including Suarez, Descartes, Pascal, Newman, and Pope Leo XIII; and 5. The Twentieth Century and Beyond, including Maritain and Lonergan, Blondel, and Marcel, Geach, and Rescher, and others like Chesterton and Teilhard. Christianity and the Postmodern Turn Myron B. Penner, 2005-07. Addresses the promises and perils of postmodernity for the church today. The Potential Role of Art in Kierkegaard's Description of the Individual Scott Koterbay, 2004. Kierkegaard scholarship has generally focused on either existential or religious issues, interpreting Kierkegaard's understanding of the individual's relationship to itself and to the Christian God. As a result of his description of the stages of development of the individual in the process of that relationship, such scholarship has consistently ignored the inherent potential to articulate an aesthetic

system which would describe art as a means of facilitating the development in a positive direction This book offers the first thorough description of a Kierkegaardian aesthetic which does not demote art to a merely sensuous and negative influence it is an explication of the specific feature of Kierkegaard s description of the individual such as communication repetition and the self within the context of a positive notion of art as well as an analysis of art itself the artist and the fundamental value of art as a profitable means of influencing the individuals While this book is unique for placing art into a central role within Kierkegaard scholarship it also remains critical of such a role maintaining the importance of recognizing the limitations which art has The final
