

MIDDLE EAST HISTORY

EXPLAINED

The Middle East Explained

Adam Muksawa

The Middle East Explained:

The Arab Uprisings Explained Marc Lynch, 2014-09-16 Why did Tunisian protests following the self immolation of Mohammed Bouazizi lead to a massive wave of uprisings across the entire Arab world Who participated in those protests and what did they hope to achieve Why did some leaders fall in the face of popular mobilization while others found ways to survive And what have been the lasting results of the contentious politics of 2011 and 2012 The Arab uprisings pose stark challenges to the political science of the Middle East which for decades had focused upon the resilience of entrenched authoritarianism the relative weakness of civil society and what seemed to be the largely contained diffusion of new norms and ideas through new information technologies In this volume leading scholars in the field take a sharp look at the causes dynamics and effects of the Arab uprisings Compiled by one of the foremost experts on Middle East politics and society *The Arab Uprisings Explained* offers a fresh rethinking of established theories and presents a new framework through which scholars and general readers can better grasp the fast developing events remaking the region These essays not only advance the study of political science in the Middle East but also integrate the subject seamlessly into the wider political science literature Deeply committed to the study of this region and working out the kinks of the discipline the contributors to this volume help scholars and policymakers across the world approach this unprecedented historical period smartly and effectively

World Order from the People's Perspective in the Middle East Shingo Hamanaka, Hiroyuki Aoyama, Yutaka Takaoka, 2024-11-13 The Arab Spring demonstrated the crucial importance of understanding the political awareness and behavior of the general public This book employs original survey data to examine the political attitudes perceptions of international relations and experiences and preferences related to cross border migration among ordinary people in the Middle East We have conducted a decade long study of Middle East public opinion utilizing two research concepts The first is the political cognitive map which constructs the international system i e the relations among major powers from public opinion data The second is the experience and preferences of cross border migration which enables us to analyze the problems of immigration refugees and terrorist infiltration Through these two research concepts we have attempted to understand the order and dynamics of the Middle East region This book opens new horizons for the study of Middle Eastern politics

The Middle East in International Relations Fred Halliday, 2005-01-24 The international relations of the Middle East have long been dominated by uncertainty and conflict External intervention interstate war political upheaval and interethnic violence are compounded by the vagaries of oil prices and the claims of military nationalist and religious movements The purpose of this book is to set this region and its conflicts in context providing on the one hand a historical introduction to its character and problems and on the other a reasoned analysis of its politics In an engagement with both the study of the Middle East and the theoretical analysis of international relations the author who is one of the best known and most authoritative scholars writing on the region today offers a compelling and original interpretation Written in a clear

accessible and interactive style the book is designed for students policymakers and the general reader The Middle East
Professor Shahrough Akhavi,2013-04-04 Amidst recent hype about events in the Middle East there have been few attempts to
get below the surface and develop a fuller understanding of what politics means there The Middle East The Politics of the
Sacred and Secular redresses this balance and provides essential historical and theoretical context In this book Shahrough
Akhavi shows that the way people think about politics in the Middle East has developed in response to historical experience
Islam has obviously played a pivotal role and the book does much to disentangle myth and reality about Islamic responses to
politics Refreshingly however the book focuses on the universal concepts of the individual civil society the state justice
authority and obligation and how these have been interpreted by Middle Eastern thinkers in the twentieth and twenty first
centuries Akhavi builds a dynamic picture of a politically exciting and engaged region The fresh perspective this book brings
to global political theory and the background it gives students of politics in the Middle East make it an important addition to
the World Political Theories series **Working in the Middle East** Amanda M. Riggs,2016-07-18 Presenting the firsthand
account of an American woman working several jobs in Egypt over a four year period this book analyzes the cross cultural
business environment between the United States and the Middle East and North Africa It provides recommendations to
enable anyone male or female to successfully navigate commercial activities in the region As the American workforce evolves
and more women seek leadership roles in business a growing number of women and men are seeking international business
experiences to advance their careers and set themselves apart from their competition Conducting business in the Middle
East and North Africa MENA region requires an in depth understanding of the Arab mindset and cultural standards of that
region Authored by one of few women who have pioneered working in the region this book delves deeply into business
culture in the Middle East and North Africa and addresses how women in particular can be successful especially Western
women whose business culture is different offering insights that will help deepen one s ability to function in business across
the MENA region as well as throughout the world Readers will learn the truth about living in the Middle East and North
Africa and what a Western woman will likely face from cultural customs business practices and socio economic challenges
that exist in these emerging markets to the realities of potential sexual harassment to the lack of rule of law The book
describes aspects of the crosscultural experience such as the importance of the collectivist mentality in the office and the
role of maintaining one s honor not only in business relationships but also in MENA culture in general It also explains the
four main elements of international business negotiations and identifies the reasons that more American women should
consider working internationally particularly in the Middle East and North Africa but also in other collectivist cultures
namely in Asia Africa and Latin America The author illustrates the unique cultural context in the Middle East and North
Africa for Westerners and supplies a breadth of recommendations and insights that will serve anyone male or female seeking
to successfully navigate business in the region Ancient Africa — Fully Explained: Geography, Prehistory, Early History

and the Rise of Its Civilizations Adam Muksawa, 2021-09-25 The Ancient history of Africa can be thought of as a history of beginnings for it is in Africa that the human story first begins In telling this story of Africa's past a variety of images and maps are included which means that you'll never get lost in a sea of text And like the cover says everything is fully explained without becoming tedious boring dull etc The end result of all this is a truly engaging book suitable for all that will likely change how you think about Africa forever

Islam and Politics in the Middle East Mark Tessler, 2015-06-22 Some of the most pressing questions in the Middle East and North Africa today revolve around the proper place of Islamic institutions and authorities in governance and political affairs Drawing on data from 42 surveys carried out in fifteen countries between 1988 and 2011 representing the opinions of more than 60 000 men and women this study investigates the reasons that some individuals support a central role for Islam in government while others favor a separation of religion and politics Utilizing his newly constructed Carnegie Middle East Governance and Islam Dataset which has been placed in the public domain for use by other researchers Mark Tessler formulates and tests hypotheses about the views held by ordinary citizens offering insights into the individual and country level factors that shape attitudes toward political Islam

Handbook of US-Middle East Relations Robert Looney, 2014-05-22 Divided into three sections the Handbook of US Middle East Relations provides a thorough and up to date overview of contemporary US Middle East relations in historical perspective With chapters contributed by leading experts in the field this Handbook will be of use to academics students and researchers in international relations policy analysts media professionals and government officials Part I Factors Affecting US Relations contains essays including Globalization Energy Security Wars and Revolution Peace Processes US Foreign Aid Policy to the Middle East and US Relations with Islamic Groups in the Middle East Part II Perceptions of US Relations contains essays on how US policies are viewed including The View from the Arab Street The View from Palestine The View from Pakistan and The View from Kurdistan Part III US Relations at the Country Level comprise essays detailing relations between the USA and countries and areas in the Middle East and North Africa including Saudi Arabia Egypt Israel Tunisia Lebanon Iran Iraq Libya Algeria and Bahrain A comprehensive index completes the volume

Authoritarianism in the Middle East J. Karakoç Bakis, Jülide Karakoç, 2015-03-17 Through a unique collection of essays drawn from rich case studies Authoritarianism in the Middle East provides important insights into the ongoing instabilities of the Middle East and the authoritarianism and democratisation processes that have led to dramatic socio political transformations

Gertrude Bell's Moment in the Middle Liora Lukitz, 2025-02-20 An explorer archaeologist scholar writer and policymaker Gertrude Bell was a colourful figure who played an outsized role in the history of the Middle East in the early twentieth century This book carefully examines Bell's published and unpublished letters diaries notes and publications to reconstruct and reevaluate Bell's intentions and legacy in the Middle East in the aftermath of the First World War It focuses on her correspondence with senior figures to examine the well networked Bell as a policymaker in waiting It also reappraises Bell's role in the formation

of the Kingdom of Iraq assessing her public statements in support of Faisal Iraq's future king against the doubts regarding Britain's mission in the region as she previously understood the colonial enterprise Centering her own experience and reflections in the context of wider events this book adds nuance to perceptions of Bell as a one-sided agent of the British Empire and explores the legacy of her actions in Iraq and the West Middle East relations today

Thank you completely much for downloading **The Middle East Explained**. Maybe you have knowledge that, people have look numerous period for their favorite books later this The Middle East Explained, but end happening in harmful downloads.

Rather than enjoying a fine book behind a cup of coffee in the afternoon, otherwise they juggled afterward some harmful virus inside their computer. **The Middle East Explained** is simple in our digital library an online permission to it is set as public as a result you can download it instantly.
