### **The Midwives Tale An Oral History From Handywoman To Professional Midwife:**

*The Midwife's Tale* Nicky Leap, Billie Hunter, 2013-10-17 Mothers and midwives reveal the wonders and difficulties of early twentieth century childbirth in this informative and insightful healthcare history Before the foundation of the United Kingdom's National Health Service NHS in 1948 expectant mothers relied on midwives to help them through childbirth Based on interviews conducted with dozens and mothers and retired midwives over several years Billie Hunter and Nicky Leap's *The Midwife's Tale* shares the stories of these women in their own words shedding light on their experiences and on the realities of childbirth in the first half of the twentieth century Intriguing poignant and sometimes humorous this oral history covers the experiences of women from the 1910s through the 1950s including accounts of the difficulties of rearing large families in poverty stricken environments and the lack of information about contraception and abortion even as midwifery changed from an unqualified handywoman skill to an actual profession

**Mothers, Midwives, and Reproductive Labor in Interwar and Wartime Britain**, Sandra Trudgen Dawson, 2024-01-26 Mothers Midwives and Reproductive Labor in Interwar and Wartime Britain is about the experiences of mothers and midwives as they navigated the changing political and social issues surrounding childbirth and motherhood during interwar and wartime Britain The needs and agency of women as mothers and midwives often conflicted with the ideals of the state While government officials understood the importance of safe childbirth to the nation they also chose to allow economic crises and war preparation to take precedence The interwar plans for a national maternal healthcare system met financial constraints and a lack of political will As the outbreak of the Second World War appeared imminent politicians planned for pregnant women and those with small children to evacuate from cities The reception areas were less well planned and pregnant women returned to their homes rather than deliver among strangers Wartime maternity provision didn't take into account the needs and desires of mothers and midwives Reproductive laborers mothers and midwives demonstrated agency throughout the period Pregnant women chose to deliver at home with untrained or trained birth attendants midwives entered and left the profession on their own terms offering or withholding their skills when it suited individual need rather than at the behest of government

**Medicine, Knowledge and Venereal Diseases in England, 1886-1916** Anne R. Hanley, 2016-11-04 This book reveals the ever present challenges of patient care at the forefront of medical knowledge Syphilis and gonorrhoea played upon the public imagination in Victorian and Edwardian England inspiring fascination and fear Seemingly inextricable from the other great social evil prostitution these diseases represented contamination both physical and moral They infiltrated respectable homes and brought terrible suffering and stigma to those afflicted *Medicine Knowledge and Venereal Diseases* takes us back to an age before penicillin and the NHS when developments in pathology symptomology and aetiology were transforming clinical practice This is the first book to examine systematically how doctors nurses and midwives grappled with new ideas and laboratory based technologies in their fight against venereal diseases in voluntary hospitals general practice and Poor

Law institutions It opens up new perspectives on what made competent and safe medical professionals how these standards changed over time and how changing attitudes and expectations affected the medical authority and autonomy of different professional groups

Death, Grief and Poverty in Britain, 1870-1914 Julie-Marie Strange, 2005-07-25 With high mortality rates it has been assumed that the poor in Victorian and Edwardian Britain did not mourn their dead Contesting this approach Julie Marie Strange studies the expression of grief among the working class demonstrating that poverty increased rather than deadened it She illustrates the mourning practices of the working classes through chapters addressing care of the corpse the funeral the cemetery commemoration and high infant mortality rates The book draws on a broad range of sources to analyse the feelings and behaviours of the labouring poor using not only personal testimony but also fiction journalism and official reports It concludes that poor people did not only use spoken or written words to express their grief but also complex symbols actions and significantly silence This book will be an invaluable contribution to an important and neglected area of social and cultural history

**Caregiving on the Periphery** Myra Rutherdale, 2010-04-19 Assembling scholars from nursing women s studies geography native studies and history this volume looks at the experience of nurses in Newfoundland and Labrador northern Saskatchewan northern British Columbia and the Arctic and features essays on topics such as Mennonite midwives in Western Canada missionary nurses and Aboriginal nursing assistants in the Yukon Contributors illuminate the larger themes of religion colonialism social divisions and native newcomer relations Special attention is paid to nursing in Aboriginal communities and the relations of race to medical work particularly in connection to ideas of British ethnicity and conceptualized meanings of whiteness An informative collection of fascinating works Caregiving on the Periphery provides insight into the history of medicine in Canada and the long established importance of women for the country s wellbeing

**Contexts of Nursing** John Daly, Sandra Speedy, Debra Jackson, 2017-06-23 Content updated to reflect national registration and standards for practice of the NMBA and NCNZ Stories throughout featuring case studies on chapter content Reflection points throughout the chapters to encourage personal reflection New chapters including Nursing and social media Health disparities the social determinants of health Mental health promotion Global health and nursing Includes eBook with print purchase on evolve

Supporting Women for Labour and Birth Nicky Leap, Billie Hunter, 2022-01-12 This new edition provides an up to date and thoughtful guide to supporting women in labour looking at a range of techniques and approaches that promote a safe and positive experience of birth for women and their families Across the world support in labour has been shown to reduce obstetric interventions and improve outcomes for women and babies Written by two highly experienced midwifery authors this text draws on a wide range of cutting edge research on this topic identifying how the evidence can be applied to everyday practice Narratives from women and practitioners including midwives doulas childbirth educators and students are used to illustrate a range of situations where the quality of support is central to the quality of the experience and outcome Supporting Women for Labour and Birth encourages readers to reflect

on their experiences and examine the evidence provided by both research and experiences of women and practitioners in order to explore how this could be incorporated into their practice The only book to deal directly with the practical and emotional issues associated with labour support this is an ideal text for student midwives and an important reference for practising midwives doulas and other childbirth practitioners *Mayes' Midwifery E-Book* Sue Macdonald, 2011-04-05

**Understanding Anxiety, Worry and Fear in Childbearing** Kathryn Gutteridge, 2019-11-04 This book informs and enlighten health professionals on how the recognition of fearing women can change their episode of care during childbearing It gives practical advice on the way women present to services and the challenges that this invokes This work is the first of its kind aimed at clinicians to deconstruct ideology around childbearing myths and its challenges The authors review the evidence that exists and how modern maternity systems are responding to fear and shaping healthcare Whilst some worry and anxiety is expected and indeed considered normal during childbearing it has been suggested that this has now proliferated to a degree of abnormal for many women Why is that and how is this panic spread Media portrayal of birth is suggested as unrealistic material and to show only that which is dramatic and horrific This has been considered as one factor influencing modern women Medicalisation technology and demand upon services is another consequence of providing almost all maternity care in hospitals Given that the majority of childbearing women are fit and healthy is this another causative factor By removing women from their homes and families at such a vulnerable time has a serious consequence for how she will experience her greatest leap of faith into motherhood All of these issues are explored and examined in the book with ideas and practical suggestions of what may be done to change this increasingly common problem This book is intended at

midwives and clinicians working in maternity settings      *Midwives' Emotional Care of Women becoming Mothers* Sue Barker, 2011-01-18 This book offers an overview of the emotional care given by midwives to women based on the literature reviews and research undertaken by Sue Barker Its chapters are mostly based around the questions she asked herself when exploring the area What is motherhood Who supports women at this time What is emotional care What are the experiences of midwives offering emotional care What is emotion work How does emotional care help women She considers a wide range of literature sources to understand what is happening for the midwives and the women Given the extensive use of referenced work the book should be useful for those thinking of undertaking a midwifery programme or those already engaged on any health care programmes This book though is written with an easily accessible language so should be a useful source for voluntary groups and women on their journey to motherhood Midwifery care and motherhood are influenced by the culture within which they are experienced This book has therefore considered the cultural hegemony and the differing ideologies within midwifery The research was undertaken in the UK where most women receive midwifery care through the NHS therefore the midwives interviewed were all employed by the state This may well have influenced their expectations and the women s expectations of them It may be that independent midwives would not have experienced some of the dilemmas faced by these midwives Despite this the view of midwifery professional bodies government guidance and research all support a with woman approach to giving emotional support This book offers a detailed description of how emotional support as part of emotional care is given by midwives in their attempts to reduce or ameliorate emotional distress and provide comfort
