The Other Visualized Depictions Of The Mongoloid Peoples:

Handbook of Postcolonial Archaeology Jane Lydon, Uzma Z Rizvi, 2016-07-01 This essential handbook explores the relationship between the postcolonial critique and the field of archaeology a discipline that developed historically in conjunction with European colonialism and imperialism In aiding the movement to decolonize the profession the contributors to this volume themselves from six continents and many representing indigenous and minority communities and disadvantaged countries suggest strategies to strip archaeological theory and practice of its colonial heritage and create a discipline sensitive to its inherent inequalities Summary articles review the emergence of the discipline of archaeology in conjunction with colonialism critique the colonial legacy evident in continuing archaeological practice around the world identify current trends and chart future directions in postcolonial archaeological research Contributors provide a synthesis of research thought and practice on their topic The articles embrace multiple voices and case study approaches and have consciously aimed to recognize the utility of comparative work and interdisciplinary approaches to understanding the past This is a benchmark volume for the study of the contemporary politics practice and ethics of archaeology Sponsored by the World Archaeological Congress **The Journal of Korean Studies, Volume 21, Number 2 (Fall 2016)** Donald Baker, Tracy L. Stober, Robert Oppenheim, 2016-12-08 The University of Washington Korea Studies Program in collaboration with Rowman Littlefield Publishers is proud to publish the Journal of Korean Studies **Cultural Studies** Lawrence Grossberg, Janice Radway, 2005-08-05 First published in 1994 Routledge is an imprint of Taylor Francis an informa company **The Diego Blood Group System and the Mongoloid Realm** Miguel Layrisse, Johannes Wilbert, 1999 **Constructing "Korean" Origins** Hyung Il Pai, 2020-03-23 In this wide ranging study Hyung Il Pai examines how archaeological finds from throughout Northeast Asia have been used in Korea to construct a myth of state formation This myth emphasizes the ancient development of a pure Korean race that created a civilization rivaling those of China and Japan and a unified state controlling a wide area in Asia Through a new analysis of the archaeological data Pai shows that the Korean state was in fact formed much later and that it reflected diverse influences from throughout Northern Asia particularly the material culture of Han China *Heritage Management in Korea and Japan* Hyung Il Pai, 2014-01-01 Imperial tombs Buddhist architecture palaces and art treasures in Korea and Japan have attracted scholars collectors and conservators and millions of tourists As iconic markers of racial and cultural identity at home and abroad they are embraced as tangible sources of immense national pride and popular must see destinations This book provides the first sustained account to highlight how the forces of modernity nationalism colonialism and globalization have contributed to the birth of museums field disciplines tourist industry and heritage management policies Its chapters trace the history of explorations preservations and reconstructions of archaeological monuments from an interregional East Asian comparative perspective in the past century *Journal of Asian History*, 1994 *Archaeology of the Korean Peninsula* 1999

Looking Modern Jennifer Purtle, Hans Bjarne Thomsen, 2009 *Looking Modern East Asian Visual Culture from Treaty Ports to World War II* examines multiple dimensions of visual modernity in East Asia from the nineteenth century through the early decades of the twentieth. The papers were drawn from two symposia held at the Center for the Art of East Asia in the Department of Art History, the University of Chicago, which brought out important themes in East Asian Art and visual culture in the nineteenth and twentieth centuries including photography, cinema, and fashion, changing roles of women, commercialization of art, and the impact of Western cultures. They undertook a broad interpretation of visual modernity to include visual dimensions of human endeavor traditionally seen as outside of artistic production in order to encourage exploration of new and understudied materials across disciplinary boundaries. This volume not only provides important background in the growth of modern visual culture in East Asia but also is a collection of seminal research on specific topics that have a broad impact upon present-day visual arts of China and Japan.
