The Outer Limits, 1963 [Amicus - The Studio That Made Us Scream and Scream Again](#) Thomas Baxter, 2024-02-27

Amicus The Studio That Made Us Scream and Scream Again offers an entertaining and affectionate overview of the legacy of this beloved studio and the films they produced In the concluding chapter we shall also look at the work Milton Subotsky and Max Rosenberg did after Amicus folded So open that decanter of brandy make sure there aren't any voodoo dolls or disembodied hands lying around stay out of those catacombs lock the doors lest an escaped maniac dressed as Father Christmas be lurking watch out for the Werewolf Break and prepare to enter the spooky mysterious eclectic and wonderful world of Amicus Productions *Irwin Allen Television Productions, 1964-1970* Jon Abbott, 2015-06-14 Before establishing

himself as the master of disaster with the 1970s films *The Poseidon Adventure* and *The Towering Inferno* Irwin Allen created four of television's most exciting and enduring science fiction series *Voyage to the Bottom of the Sea* *Lost in Space* *The Time Tunnel* and *Land of the Giants* These 1960s series were full of Allen's favorite tricks techniques and characteristic touches and influenced other productions from the original *Star Trek* forward Every science fiction show owes something to Allen yet none has equaled his series pace excitement or originality This detailed examination and documentation of the premise and origin of the four shows offers an objective evaluation of every episode and demonstrates that when Irwin Allen's television episodes were good they were great and when they were bad they were still terrific fun *1999: A Space Odyssey* John K Balor, 2018-08-03 Part of the premise of the online discussion transcribed in this book is how Gerry Anderson's television series *Space 1999* can be understood in relation to Stanley Kubrick's 2001 *A Space Odyssey* by looking at both narratives through the perspective of systems theory As a result of doing so an engaged debate concerned with the political and philosophical subtext of both stories developed This book gives a full account of the debate with summaries of ideas and insights The book has been developed on an idealistic basis It is sold at the lowest price the publisher was willing to accept A free e-book version can be downloaded at www.lulu.com **Bowker's Complete Video Directory, 1999**, 1999 [The Aliens Are Here](#) Fraser A. Sherman, 2022-10-10 Aliens They have taken the form of immigrants invaders lovers heroes cute creatures that want our candy or monsters that want our flesh For more than a century movies and television shows have speculated about the form and motives of alien life forms Movies first dipped their toe into the genre in the 1940s with Superman cartoons and the big screen's first story of alien invasion 1945's *The Purple Monster Strikes* More aliens landed in the 1950s science fiction movie boom followed by more television appearances *The Invaders* *My Favorite Martian* in the 1960s Extraterrestrials have been on screen mainstays ever since This book examines various types of the on-screen alien visitor story featuring a liberal array of alien types designs and motives Each chapter spotlights a specific film or TV series offering comparative analyses and detailing the tropes themes and clichés and how they have evolved over time Highlighted subjects include *Eternals* *War of the Worlds* *The X-Files* John Carpenter's *The Thing* and *Attack of the 50 Foot Woman*
