*The Oval Menace* , **Wives, Mothers & the Red Menace** Mary Brennan, 2011-05-18 In *Wives Mothers and the Red Menace* Mary Brennan examines conservative women's anti communist activism in the years immediately after World War II. Brennan details the actions and experiences of prominent anti communists Jean Kerr McCarthy Margaret Chase Smith Freda Uteley Doloris Thauwald Bridges Elizabeth Churchill Brown and Phyllis Stewart Schlafly. She describes the Cold War context in which these women functioned and the ways in which women saw communism as a very real danger to domestic security and American families. Millions of women Brennan notes expanded their notions of household responsibilities to include the crusade against communism. From writing letters and hosting teas to publishing books and running for political office they campaigned against communism and incidentally discovered the power they had to effect change through activism. Brennan reveals how the willingness of these deeply conservative women to leave the domestic sphere and engage publicly in politics evinces the depth of America's postwar fear of communism. She further argues that these conservative anti communist women pushed the boundaries of traditional gender roles and challenged assumptions about women as political players by entering political life to publicly promote their ideals. *Wives Mothers and the Red Menace* offers a fascinating analysis of gender and politics at a critical point in American history. Brennan's work will instigate discussions among historians political scientists and scholars of women's studies.

**The Mohole Mystery** Hugh Walters, 2020-11-24 After their expedition to Saturn Chris Godfrey and his friends were given the longest spell of leave they had ever had. Every day they expected to hear about their next assignment from Sir George Benson, Director of the United Nations Exploration Agency, but when they tried to get in touch with him they found it was impossible. Clearly something strange was going on. When Sir George finally reappeared he had a startling proposition for them. A new kind of expedition was to be launched not into space but into the depths of the earth. The astronauts were about to become subterraneans. Or rather one of them was for only one man could enter the capsule which was to carry him down the Mohole, the borehole which had been drilled twenty one miles into the earth to end in a huge underground cavern.

**The Public in Peril** Henry A. Giroux, 2017-08-07 This is one of the first books to thoroughly critique the rise of Trumpism and its potential impact nationally and globally. One of the world's leading social critics Giroux offers new critiques of Trump and his early Cabinet choices in the context of longer term trends including the rise of right wing populism, the threat of planetary peril, anti intellectual fervor, the war on youth, a narrowing political discourse, deepening inequality and disposability, authoritarianism, the crisis of civic culture, the rise of the mass incarceration state, and more. Giroux dissects the diverse forces that led to Trump's rise and points to pathways for resisting his authoritarian instincts. Offering a new language of hope and possibility, Giroux's optimism is rooted especially in the resurgence of progressive politics among youth. Giroux reclaims the centrality of education to politics and boldly articulates a vision in which the radical imagination merges with civic courage as part of a broad based struggle for a radical democracy.
