The Pacatnamu Papers The Moche Occupation Volume Two:

The Burials of Cerro Azul, Peru Joyce Marcus, 2024-02-29 This volume reports on the salvage excavations that Dr Joyce Marcus directed after she discovered scattered human remains on the surface of the site of Cerro Azul in Peru These remains were from a partially looted cemetery dating to AD 1000 to 1470 During the excavations she found the burials of men women and children Some of the women were associated with belt looms woolen bags workbaskets filled with cotton and wool yarn balls needles in needle cases barcoded spindles and decorated spindle whorls Some of the men were buried with fishing nets slings bolas metal tweezers and breechcloths Some of the children were associated with miniature vessels gourd bowls with food and bracelets and necklaces consisting of seeds strung on cords The two previous volumes Marcus published on the site of Cerro Azul reported on the architecture pottery and coastal ecosystems of the site *Gallinazo* Jean-Francois Millaire, Magali Morlion, 2009-12-31 Over the last decades considerable effort has been directed towards the study of early complex societies of northern Peru and in recent years archaeologists have expressed a strong interest in the art and archaeology of the Moche Lambayeque and Chimú societies Yet comparatively little attention has been paid to the earlier cultural foundations of north coast civilization the Gallinazo In the recent years however the work of a number of north coast specialists brought about a large quantity of data on the Gallinazo occupation of the coast but a coherent framework for studying this culture had yet to be defined The present volume is the result of a round table which gathered some thirty scholars from Europe and North and South America to discuss the Gallinazo phenomenon In fourteen chapters authors with different perspectives and backgrounds reconsider the nature of the Gallinazo culture and its position within north coast cultural history while addressing wider issues about the development of complex societies in this area and within the Andean region in general The contributions reveal a diversity of perspectives on north coast archaeology something that is likely to stimulate methodological and theoretical debates among Andeanists pre Columbian specialists and New World archaeologists in general **Moche Tombs at Dos Cabezas** Christopher B. Donnan, 2007-12-31 Moche civilization flourished on the north coast of Peru between approximately AD 100 and 800 Although the Moche had no writing system they left a vivid artistic record of their beliefs and activities in beautifully modeled and painted ceramic vessels remarkable objects of gold silver and copper sumptuous textiles and carved and inlaid bone wood and stone Tens of thousands of these objects can be seen today in museums and private collections throughout the world Unfortunately nearly all of them have been looted from Moche tombs by grave robbers and thus there is no record of the grave or the archaeological site or even the valley from which they came This lack of information severely limits what could have been learned about the Moche if the graves had been excavated archaeologically and their contents systematically recorded This study focuses on five extraordinary Moche tombs that were archaeologically excavated at the site of Dos Cabezas The tombs are remarkable not only for the wealth of objects they contained but also because we know how the tombs were constructed how they relate to

one another both spatially and temporally and what individuals they contained The tombs provide an unusual opportunity to understand aspects of Moche funerary practice that are lost when tombs are looted and to appreciate the extraordinary artistic and technological sophistication of this ancient Peruvian civilization The Art and Archaeology of the Moche Steve Bourget, Kimberly L. Jones, 2009-06-03 Renowned for their monumental architecture and rich visual culture the Moche inhabited the north coast of Peru during the Early Intermediate Period AD 100 800 Archaeological discoveries over the past century and the dissemination of Moche artifacts to museums around the world have given rise to a widespread and continually increasing fascination with this complex culture which expressed its beliefs about the human and supernatural worlds through finely crafted ceramic and metal objects of striking realism and visual sophistication In this standard setting work an international multidisciplinary team of scholars who are at the forefront of Moche research present a state of the art overview of Moche culture The contributors address various issues of Moche society religion and material culture based on multiple lines of evidence and methodologies including iconographic studies archaeological investigations and forensic analyses Some of the articles present the results of long term studies of major issues in Moche iconography while others focus on more specifically defined topics such as site studies the influence of El Ni o Southern Oscillation on Moche society the nature of Moche warfare and sacrifice and the role of Moche visual culture in decoding social and political frameworks

Ritual Violence in the Ancient Andes Haagen D. Klaus, J. Marla Toyne, 2016-07-26 Traditions of sacrifice exist in almost every human culture and often embody a society s most meaningful religious and symbolic acts Ritual violence was particularly varied and enduring in the prehistoric South American Andes where human lives animals and material objects were sacrificed in secular rites or as offerings to the divine Spectacular discoveries of sacrificial sites containing the victims of violent rituals have drawn ever increasing attention to ritual sacrifice within Andean archaeology Responding to this interest this volume provides the first regional overview of ritual killing on the pre Hispanic north coast of Peru where distinct forms and diverse trajectories of ritual violence developed during the final 1 800 years of prehistory Presenting original research that blends empirical approaches iconographic interpretations and contextual analyses the contributors address four linked themes the historical development and regional variation of north coast sacrifice from the early first millennium AD to the European conquest a continuum of ritual violence that spans people animals and objects the broader ritual world of sacrifice including rites both before and after violent offering and the use of diverse scientific tools archaeological information and theoretical interpretations to study sacrifice This research proposes a wide range of new questions that will shape the research agenda in the coming decades while fostering a nuanced scientific and humanized approach to the archaeology of ritual violence that is applicable to archaeological contexts around the world The Pacatnamu Papers Christopher B. Donnan, Guillermo A. analysis ethnography and ethnohistory Focuses on the period of Moche occupation Bilingual in English and Spanish **The Worlds of the Moche on the North Coast of Peru** Elizabeth P. Benson, 2012-07-15 The Moche or Mochica created an extraordinary civilization on the north coast of Peru for most of the first millennium AD Although they had no written language with which to record their history and beliefs the Moche built enormous ceremonial edifices and embellished them with mural paintings depicting supernatural figures and rituals Highly skilled Moche artisans crafted remarkable ceramic vessels which they painted with figures and scenes or modeled like sculpture and mastered metallurgy in gold silver and copper to make impressive symbolic ornaments They also wove textiles that were complex in execution and design A senior scholar renowned for her discoveries about the Moche Elizabeth P Benson published the first English language monograph on the subject in 1972 Now in this volume she draws on decades of knowledge as well as the findings of other researchers to offer a grand overview of all that is currently known about the Moche Touching on all significant aspects of Moche culture she covers such topics as their worldview and ritual life ceremonial architecture and murals art and craft supernatural beings government and warfare and burial and the afterlife She demonstrates that the Moche expressed with symbolic language in metal and clay what cultures in other parts of the world presented in writing Indeed Benson asserts that the accomplishments of the Moche are comparable to those of their Mesoamerica contemporaries the Maya which makes them one of the most advanced civilizations of pre Columbian America **The Routledge Handbook of the Bioarchaeology of Human Conflict** Christopher Knüsel, Martin Smith, 2013-12-17 If human burials were our only window onto the past what story would they tell Skeletal injuries constitute the most direct and unambiguous evidence for violence in the past Whereas weapons or defenses may simply be statements of prestige or status and written sources are characteristically biased and incomplete human remains offer clear and unequivocal evidence of physical aggression reaching as far back as we have burials to examine Warfare is often described as senseless and as having no place in society Consequently its place in social relations and societal change remains obscure The studies in The Routledge Handbook of the Bioarchaeology of Human Conflict present an overview of the nature and development of human conflict from prehistory to recent times as evidenced by the remains of past people themselves in order to explore the social contexts in which such injuries were inflicted A broadly chronological approach is taken from prehistory through to recent conflicts however this book is not simply a catalogue of injuries illustrating weapon development or a narrative detailing progress in warfare but rather provides a framework in which to explore both continuity and change based on a range of important themes which hold continuing relevance throughout human development *Enemy - Stranger - Neighbour: The Image of the Other in Moche Culture* Janusz Z. Wołoszyn, 2021-06-17 Enemy Stranger Neighbour The Image of the Other in Moche Culture is dedicated to artistic renderings of the Recuay people in Moche art in all available and preserved media This study offers an analysis of several dozen complex painted and bas relief scenes and several hundred mould pressed sculpted depictions of foreigners in Moche

Dillehay, 2017-08-01 Huaca Prieta one the world s best known yet least understood early maritime mound sites and other Preceramic sites on the north coast of Peru bear witness to the beginnings of civilization in the Americas Across more than fourteen millennia of human occupation the coalescence of maritime agricultural and pastoral economies in the north coast settlements set in motion long term biological and cultural transformations that led to increased social complexity and food production and later the emergence of preindustrial states and urbanism These developments make Huaca Prieta a site of global importance in world archaeology This landmark volume presents the findings of a major archaeological investigation carried out at Huaca Prieta the nearby mound Paredones and several Preceramic domestic sites in the lower Chicama Valley between 2006 and 2013 by an interdisciplinary team of more than fifty international specialists The book s contributors report on and analyze the extensive material records from the sites including data on the architecture and spatial patterns floral faunal and lithic remains textiles basketry and more Using this rich data they build new models of the social economic and ontological practices of these early peoples who appear to have favored cooperation and living in harmony with the environment over the accumulation of power and the development of ruling elites This discovery adds a crucial new dimension to our understanding of emergent social complexity cosmology and religion in the Neolithic period *The Andean World* Linda J. Benson, Anita G. Cook, 2013-06-20 Propitiating the supernatural forces that could grant bountiful crops or wipe out whole villages through natural disasters was a sacred duty in ancient Peruvian societies as in many premodern cultures Ritual sacrifices were considered necessary for this propitiation and for maintaining a proper reciprocal relationship between humans and the supernatural world The essays in this book examine the archaeological evidence for ancient Peruvian sacrificial offerings of human beings animals and objects as well as the cultural contexts in which the offerings occurred from around 2500 B C until Inca times just before the Spanish Conquest Major contributions come from the recent archaeological fieldwork of Steve Bourget Anita Cook and Alana Cordy Collins as well as from John Verano s laboratory work on skeletal material from recent excavations Mary Frame who is a weaver as well as a scholar offers rich new interpretations of Paracas burial garments and Donald Proulx presents a fresh view of the nature of Nasca warfare Elizabeth Benson s essay provides a summary of sacrificial practices *Moche Portraits from Ancient Peru* Christopher B.

Chornancap Christopher B. Donnan,2012-12-31 Christopher Donnan s Chotuna and Chornancap Excavating an Ancient Peruvian Legend explores one of the most intriguing oral histories passed down among ancient Peruvians the legend of Naymlap the founder of a dynasty that ruled the Lambayeque Valley of northern Peru centuries before European contact Naymlap is said to have built his palace at a place that many now consider to be the archaeological sites of Chotuna and Chornancap In an effort to test the validity of the Naymlap legend Donnan directed extensive archaeological excavations at Chotuna and Chornancap completing plans of the monumental architecture mapping and excavating most of the major structures and developing a chronology for the sites This book presents the results of these excavations and demonstrates the extent to which the archaeological evidence correlates with the sequence of events described in the Naymlap legend
