Marsden, 2021-04-28 The Soul of the American University is a classic and much discussed account of the changing roles of Christianity in shaping American higher education From the 1630s through the 1950s when Protestantism provided an informal religious establishment colleges were expected to offer some sort of religious and moral guidance Following reactions in the 1960s against the WASP establishment and concerns for diversity the specifically Protestant heritage quickly disappeared and various secular viewpoints predominated This revised and updated edition brings the story into the twenty first century **The Dead Pledge** Judge Earl Glock, 2021-04-06 The American government today supports a financial system based on mortgage lending and it often bails out the financial institutions making these mortgages The Dead Pledge reveals the surprising origins of American mortgages and American bailouts in policies dating back to the early twentieth century Judge Glock shows that the federal government began subsidizing mortgages in order to help lagging sectors of the economy such as farming and construction In order to encourage mortgage lending the government also extended unprecedented assistance to banks During the Great Depression the federal government made new mortgage lending and bank bailouts the centerpiece of its recovery program Both the Herbert Hoover and Franklin Roosevelt administrations created semipublic financial institutions such as Fannie Mae to provide cheap tradable mortgages and they extended guarantees to more banks and financiers Ultimately Glock argues the desire to protect the financial system took precedence over the desire to help lagging parts of the economy and the government became ever more tied into the financial world The Dead Pledge recasts twentieth century economic financial and political history and demonstrates why the greatest safety net created in this era was the one supporting finance
