Vol. 19. 1909-10 A. S. Link, 1975 **Sword of the Spirit, Shield of Faith** Andrew Preston, 2012-02-28 A richly detailed profoundly engrossing story of how religion has influenced American foreign relations told through the stories of the men and women from presidents to preachers who have plotted the country s course in the world Ever since John Winthrop argued that the Puritans new home would be a city upon a hill Americans role in the world has been shaped by their belief that God has something special in mind for them But this is a story that historians have mostly ignored Now in the first authoritative work on the subject Andrew Preston explores the major strains of religious fervor liberal and conservative pacifist and militant internationalist and isolationist that framed American thinking on international issues from the earliest colonial wars to the twenty first century He arrives at some startling conclusions among them Abraham Lincoln s use of religion in the Civil War became the model for subsequent wars of humanitarian intervention nineteenth century Protestant missionaries made up the first NGO to advance a global human rights agenda religious liberty was the centerpiece of Franklin Roosevelt s strategy to bring the United States into World War II From George Washington to George W Bush from the Puritans to the present from the colonial wars to the Cold War religion has been one of America s most powerful sources of ideas about the wider world When just days after 9 11 George W Bush described America as a prayerful nation a nation that prays to an almighty God for protection and for peace or when Barack Obama spoke of balancing the just war and the imperatives of a just peace in his Nobel Peace Prize acceptance speech they were echoing four hundred years of religious rhetoric Preston traces this echo back to its source **Sword of the Spirit Shield of Faith** is an unprecedented achievement no one has yet attempted such a bold synthesis of American history It is also a remarkable work of balance and fair mindedness about one of the most fraught subjects in America The Presidents and the People Corey Brettschneider, 2024-07-02 Winner of the American Bar Association s 2025 Silver Gavel Award American presidents have often pushed the boundaries established for them by the Constitution this is the inspirational history of the people who pushed back Imagine an American

president who imprisoned critics spread a culture of white supremacy and tried to upend the law so that he could commit crimes with impunity In this propulsive and eminently readable history constitutional law and political science professor Corey Brettschneider provides a thoroughly researched account of assaults on democracy by not one such president but five John Adams waged war on the national press of the early republic overseeing numerous prosecutions of his critics In the lead up to the Civil War James Buchanan colluded with the Supreme Court to deny constitutional personhood to African Americans A decade later Andrew Johnson urged violence against his political opponents as he sought to guarantee a white supremacist republic after the Civil War In the 1910s Woodrow Wilson modernized popularized and nationalized Jim Crow laws In the 1970s Richard Nixon committed criminal acts that flowed from his corrupt ideas about presidential power Through their actions these presidents illuminated the trip wires that can damage or even destroy our democracy Corey Brettschneider shows that these presidents didn't have the last word citizen movements brought the United States back from the precipice by appealing to a democratic understanding of the Constitution and pressuring subsequent reform minded presidents to realize the promise of We the People This is a book about citizens Frederick Douglass Ida B Wells Daniel Ellsberg and more who fought back against presidential abuses of power Their examples give us hope about the possibilities of restoring a fragile democracy

the face of great resistance and criticism In 1897 he delivered his seminal Forgotten Man speech which emphasized that nothing class economic means race nor religion should be a barrier to education this speech was a catalyst for the transformation of education in the South Page championed equality universal education and industrialization across the South and his legacy includes laying the foundation for North Carolina State University Page also profoundly influenced American culture in the early twentieth century during his tenure at several national periodicals most notably the Forum and the Atlantic and then his own magazine the World's Work Having established a national reputation as a defender of democracy Page was asked by President Woodrow Wilson to serve as ambassador to Britain Page's actions during the War have wrongly attracted significant criticism but Parnell shows how Page was looking out for America's interests Throughout his life Page showed that democracy was not based on the idea that some people were born for labor and others were born to live luxuriously but that all were free to strive for self improvement
