Collection of essays that clarifies and evaluates the various aspects of paranormal phenomena including telepathy
psychokinesis trance mediumship near death experiences and past life memories **The Paranormal Equation** James
Stein, 2012-12-26 Most of us think science is incapable of explaining supernatural phenomena This would include everything
from ghosts and communication with the dead to extrasensory perception ESP precognition and telekinesis Scientists are
generally highly skeptical of the existence of such phenomena because of the lack of the rigorous documentation that science
requires Nevertheless many great scientists have believed and do believe in the supernatural The Paranormal Equation
presents an argument for the existence of supernatural phenomena based on the mathematics and science discovered during
the last century It also explains why supernatural phenomena must exist if the universe satisfies certain conditions conditions
which are accepted by many working scientists The Paranormal Equation explores such questions as How can we distinguish
between the truly unknown and the supernatural How have scientists attempted to study the supernatural What are the
rational reasons for believing in the supernatural Which hypotheses about the universe mandate the existence of
supernatural phenomena Anyone interested in how science is beginning to understand and even explain the seemingly
unexplainable will want to read this fascinating new title **The Paranormal Ranger** Stanley Milford, Jr., 2024-10-01 A

memoir of his investigations into bizarre cases of the paranormal and unexplained in Navajoland As a Native American with
parents of both Navajo and Cherokee descent Stanley Milford Jr grew up in a world where the supernatural was both
expected and taboo where shapeshifters roamed witchcraft was a thing to be feared and children were taught not to whistle
at night In his youth Milford never went looking for the paranormal but it always seemed to find him When he joined the
fabled Navajo Rangers a law enforcement branch of the Navajo Nation who are equal parts police officers archeological
conservationists and historians the paranormal became part of his job Alongside addressing the mundane duties of
overseeing the massive 27 000 square mile reservation Milford was assigned to utterly bizarre and shockingly frequent cases
involving mysterious livestock mutilations skinwalker and Bigfoot sightings UFOs and malicious hauntings In The Paranormal
Ranger Milford recounts the stories of these cases from the clinical and deductive perspective of a law enforcement officer
Milford's Native American worldview and investigative training collide to provide an eerie account of what logic dictates
