The Overparenting Solution George S. Glass, David Tabatsky, 2021-10-29. Features pragmatic, reasonable advice for how parents can raise their children effectively and lovingly without overdoing it. Today, in the world of Covid-19, parents may be more anxious than ever as they aim to make sense of the changing landscape.

of education We see now that within the context of social distancing which we may be facing for quite some time families are experiencing a mix of positive and negative influences including new stressors which cause division and even danger while at the same time some families are discovering novel ways of remaining blended together Regardless families must find their way forward to overcome bad decisions and embrace these challenging circumstances The generational desire of parents to want their children to have more opportunity and success than they did has become outdated for many families especially those of means but this has not stopped parents from going too far with their children from pushing them into needless high pressure situations to protecting them from any possible failure or disappointment While we know that it is getting harder and harder to get into a select college and after graduation it is often more difficult to find a prestigious job parents are not doing their kids any favors by resorting to any means necessary to ensure what they define as their offspring s success This work shows readers how to parent better not more allowing children to make their own mistakes and learn from them and grow into functioning self reliant adults
