**Academic Advising in the Community College** Terry U. O'Banion,2019-12-10 Academic advising is the second most important function in the community college If it is not conducted with the utmost efficiency and effectiveness the most important function in the college instruction will fail to achieve its purpose of ensuring that students succeed in navigating the curriculum to completion The purpose of academic advising is to help students select a program of study to meet their life and vocational goals As such academic advising is a central and important activity in the process of education Academic

advising occurs at least once each term for every student in the college few student support functions occur as often or affect so many students But while there is general agreement concerning the importance of academic advising for the efficient functioning of the institution and the effective functioning of the student there is little agreement regarding the nature of academic advising and who should perform the function In this seminal work on academic advising the authors of three overarching chapters address the key issues and challenges of academic advising followed by the authors of four of the most innovative and successful programs of academic advising in the nation     *How about College?* American School Counselor Association,1962     **The College Guide for Parents** Charles J.
