The Party and Agricultural Crisis Management in the U. S. S. R. Cynthia S. Kaplan, The Party and Agricultural Crisis Management in the USSR Cynthia Sue Kaplan, 1987 **The Party and Agricultural Crisis Management in the USSR** Cynthia Sue Kaplan, 1987 **Agriculture and the State in Soviet and Post-Soviet Russia** Stephen Wegren, 2010-11-23 Winner 1999 Edward A Hewett Book Prize from AAASS A comprehensive original and innovative analysis of the social economic and political factors affecting contemporary Russian reform the book is organized around the central question of the role of the state and its effect on the course of Russian agrarian reform In the wake of the collapse of the USSR contemporary conventional wisdom holds the the Russian state is weak Stephen Wegren feels that the traditional approach to the weak strong state suffers from measurement and circular logic problems believing that the Russian state thought weaker than in its Soviet past is still relatively stronger than other actors The state s strength allows it to intervene in the rural sector in ways that other power contender cannot Specifically as a measure of state intervention Wegren analyzes how the state has influenced urban rural relations rural rural relations and the nonstate private agricultural sector Several dilemmas arose that have complicated successful agrarian reform as a result of the nature of state interventions how reform policies were defined and the incentives rhar arose from state sponsored policies During contemporary Russian agrarian reform urban rural differences have widened marked by a deterioration in rural standards of living and increased alienation of rural political groups from urban alliances At the same time within the rural sector reform failed to reverse rural egalitarianism In addition the nature of state interventions has undermined attempts to create a vibrant productive private rural sector based on private farming Wegren s research is based upon extensive field work interviews archival documents and published and unpublished source material conducted over a six year period and he demonstrates the link between agrarian reform and the success of overall reform in Russia This learned and often controversial volume will interest political scientists policy makers and scholars and students of contemporary Russia **Executive Power and Soviet Politics** Eugene Huskey, 2016-06-16 Ever since the behavioral revolution reached Communist studies more than 2 decades ago Western scholarship has tended to ignore the powerful and unwieldy institutional structure of the Soviet government Today suddenly it is clear that the dramatic political and legislative reforms of the Gorbachev years will remain incomplete as long as the issues of state bureaucratic power and executive prerogative are unresolved This volume brings together original studies of the Soviet executive under Gorbachev by specialists including Barbara Chotiner Stephen Fortescue Brnda Horrigan Ellen Jones Wayne Limberg T H Rigby and Louise Shelley Among the topics covered are the major economic national security and law enforcement ministries the presidency the cabinet and questions of presidential ministerial presidential presidential legislative executive and party state relations *Private Agriculture in the Soviet Union* Stefan Hedlund, 2019-08-06 First published in 1989 Perestroika it was widely believed must succeed in agriculture before

permanent change could be affected elsewhere in the Soviet economy But Soviet agriculture had so far remained stubbornly inefficient and resistant to change In this book Stefan Hedlund investigates the reasons for this state of affairs The author gives an account of the emergence development and performance of private agriculture in the Soviet Union In particular he describes the essentials of the peculiarly Soviet hybrid of private and socialized agriculture He places the private sector within the broader framework of Soviet agriculture He saw Soviet agriculture as a Black Hole ready to absorb any resources that came near be they private plots urban gardens factory workshops or military units Hedlund also examines the impact on the peasants as producers of decades of negative ideological pronouncements in Party propaganda and of discrimination and at times outright harassment by local officials He points out that this background makes the prospect of any positive response from the peasants to Gorbachev s call for perestroika in agriculture extremely unlikely Ibss: Political Science: 1987 British Library of Political and Economic Science,1991 IBSS is the essential tool for librarians university departments research institutions and any public or private institutions whose work requires access to up to date and comprehensive knowledge of the social sciences

Ideology and Rationality in the Soviet Model Kristian Gerner,Stefan Hedlund,2022-02-13 First published in 1989 Ideology and Rationality in the Soviet Model assumes that since the October Revolution the development of the Soviet Union has essentially been a process of trial and error Economic rationality has been sacrificed to political expedients and the cultural sphere has been put to use as a legitimating and rationalizing device This book analyses the internal logic of this process from the 1917 Bolshevik Revolution to Gorbachev s revolution from above including coverage of the Stalin Khrushchev and Brezhnev eras The book focuses on the structural determinants of the Soviet Model thus seeking to reveal the specific rationalities that characterizes Soviet man Its conclusion casts serious doubt on the likelihood of new policies defeating seven decades of Bolshevik rule and social indoctrination It will be of interest to students of economics political science and history

Revolution and Culture Zenovia A. Sochor,2018-09-05 Zenovia A Sochor here assesses one of the most important debates within the Bolshevik leadership during the early years of Soviet power that between A A Bogdanov and V I Lenin Once comrades in arms Bogdanov and Lenin became political rivals prior to the October Revolution Their disagreements over political and cultural issues led to a split in the Bolshevik Party with Bogdanov spearheading the party s left wing faction and attracting a following of notable intellectuals Before Lenin died in 1924 however he had succeeded in shaping Soviet society according to his own vision and today Bolshevism is commonly identified with Leninism while Bogdanovism is little known Sochor provides the first full exposition in English of Bogdanov s views which she asserts must be understood to appreciate the choices available and the paths not taken during the formative years of the Soviet regime

Rural Adaptation in Russia Stephen K. Wegren,2022-05-19 The current dominant approach to Russian peasant behaviour emphasizes rural resistance to reform in broad terms and to the introduction of market forces in particular Bringing together some of the finest scholars on rural Russia this groundbreaking volume examines this

perception with an analysis of both historical and contemporary patterns of rural adaptation in Russia Four articles included analyze peasant responses in the post Soviet era and focus on the relationship between poverty and rural adaptation the social origins of private farmers in southern Russia and Ukraine response patterns by large farms formerly collective and state farms household adaptation using a standardized set of criteria This fascinating book gives an illuminating picture of the ways in which peasants respond to new environmental conditions and stimuli created by reform The substantive material included draws on fieldwork and survey data collected from rural Russia from the Stolypin reforms in the pre Soviet era and collectivisation of agriculture during the 1930s in the Soviet era This book was previously as a special issue of The Journal of Peasant Studies

State Erosion Lawrence P. Markowitz, 2013-10-11 State failure is a central challenge to international peace and security in the post Cold War era Yet theorizing on the causes of state failure remains surprisingly limited In State Erosion Lawrence P Markowitz draws on his extensive fieldwork in two Central Asian republics Tajikistan where state institutions fragmented into a five year civil war from 1992 through 1997 and Uzbekistan which constructed one of the largest state security apparatuses in post Soviet Eurasia to advance a theory of state failure focused on unlootable resources rent seeking and unruly elites In Tajikistan Uzbekistan and other countries with low capital mobility where resources cannot be extracted concealed or transported to market without state intervention local elites may control resources but they depend on patrons to convert their resources into rents Markowitz argues that different rent seeking opportunities either promote the cooptation of local elites to the regime or incite competition over rents which in turn lead to either cohesion or fragmentation Markowitz distinguishes between weak states and failed states challenges the assumption that state failure in a country begins at the center and radiates outward and expands the resource curse argument to include cash crop economies where mechanisms of state failure differ from those involved in fossil fuels and minerals Broadening his argument to weak states in the Middle East Syria and Lebanon and Africa Zimbabwe and Somalia Markowitz shows how the distinct patterns of state failure in weak states with immobile capital can inform our understanding of regime change ethnic violence and security sector reform

The Moral Economy Reconsidered S. Wegren, 2005-08-19 Sure to be controversial and spur debate this book presents a powerful analysis of rural change to marketization and globalization Using Russia as a case study it examines the how the rural population responded to reform policies during the transition away from communism Wegren draws upon extensive field work survey data interviews and wide ranging Russian language source material to investigate adaptive behaviours by different groups of the rural population The differentiated and nuanced analysis sheds considerable light on debates over whether actors are motivated mainly by rational or moral considerations

Cracks in the Monolith James R. Millar, 1992 *Joseph Stalin* David R. Egan, Melinda A. Egan, 2007-07-25 With the opening of Russian and communist bloc archives dating from the Soviet era there has been a significant increase of scholarly writings pertaining to Joseph Stalin Widely considered to be among the most influential historical figures of the twentieth century Stalin continues

to be a source of intense study In the absence of a comprehensive compilation of periodical literature the need for Joseph Stalin An Annotated Bibliography of English Language Periodical Literature to 2005 is conspicuous Ranging from editorials and news reports to academic articles the more than 1 700 sources cited collectively cover the full range of his life the various aspects of his leadership and virtually all facets of the system and practices traditionally associated with his name The coverage in this bibliography extends beyond the person of Stalin to include the subjects of Stalinism the Stalinist system the Stalin phenomenon and those policies and practices of the Communist Party and Soviet state associated with him This volume also provides a record of scholarly opinion on Stalin and sheds light on the evolution and current state of Stalinology An effort has been made to list only those articles in which Stalin figures prominently but in some instances articles have been included which do not center on Stalin but are worthy of listing for other reasons The book is divided into fourteen main sections General Studies and Overviews Biographical Information and Psychological Assessments The Revolutionary Movement October Revolution and Civil War Rise to Power Politics Economics Society and Social Policy Nationalism and Nationality Policy Culture Religion Philosophy and Theory Foreign Relations and International Communism Military Affairs and De Stalinization Including a subject index of several hundred headings and even greater number of subheadings this comprehensive annotated bibliography should be of benefit to those individuals who for the purpose of research or classroom

The Cultural Front Sheila Fitzpatrick, 2018-08-06 When Lenin asked Who will beat whom Kto kogo he had no plan to wage revolutionary class war in culture Many young Communists thought differently however Seeking in the name of the proletariat to wrest cultural hegemony from the intelligentsia they turned culture into a battlefield in the 1920s But was this as Communist militants thought a genuine class struggle between proletarian Communists and the bourgeois intelligentsia Or was it as the intelligentsia believed an onslaught by the ruling Communist Party on the eternal principles of cultural autonomy and intellectual freedom In this volume one of the foremost historians of the Soviet Union chronicles the fierce battle on the cultural front from the October Revolution through the Stalinist 1930s Sheila Fitzpatrick brings together ten of her essays two previously unpublished and all revised for inclusion here which illuminate key arenas of the prolonged struggle over cultural values and institutional control Individual essays deal with such major issues as the Cultural Revolution the formation of the new Stalinist elite and socialist realism as well as recounting colorful episodes including the uproar over Shostakovich's opera Lady Macbeth of the Mtsensk District arguments over sexual mores and the new consumerism of the 1930s Closely examining the cultural elites and orthodoxies that developed under Stalin Fitzpatrick offers a provocative reinterpretation of the struggle's final outcome in which the intelligentsia despite its loss of autonomy and the debasement of its culture emerged as a partial victor The Cultural Front is essential reading for anyone interested in the formative history of the Soviet Union and the dynamic relationship between culture and politics
