The Pasiegos Spaniards In No Mans Land:

The Pasiegos Susan Tax Freeman, 1979 The Pasiegos are cattle herders who inhabit a mountain zone high above the Atlantic coast in the Castilian province of Santander Although there is no real evidence that they are ethnically distinct from other Spaniards the Pasiegos have been classified among the despised peoples of northern Spain **El Mirón Cave, Cantabrian Spain** Lawrence Guy Straus, Manuel R. González Gonzales Morales, 2012-04-16 Though known as a site since 1903 El Mirón Cave in the Cantabrian Mountains of northern Spain remained unexcavated until a team from the universities of New Mexico and Cantabria began ongoing excavations in 1996 This large deeply stratified cave allowed the team to apply cutting edge techniques of excavation recording and multidisciplinary analysis in the meticulous study of a site that has become a new reference sequence for the classic Cantabrian region The excavations uncovered the long history of human occupation of the cave extending from the end of the Middle Paleolithic through the Upper Paleolithic up to the modern era This volume comprehensively describes the background information on the setting the site the chronology and the sedimentology It then focuses on the biological and archaeological records of the Holocene levels pertaining to Mesolithic Neolithic Chalcolithic and Bronze Age Archaeologists anthropologists and historians will be drawn to this study and its extensive findings dated by some seventy five radiocarbon assays *The Village and the Outside World in Golden Age Castile* David E. Vassberg, 2002-11-28 This 1996 book based upon a vast range of documentary and secondary sources shatters the disproven but persistent myth of the closed immobile village in the early modern period It demonstrates that even in traditionalist Castile pre industrial village society was highly dynamic with continuous inter village inter regional and rural urban migration The book is rich in human detail with many vignettes of everyday life Professor Vassberg examines such topics as fairs and markets the transportation infrastructure rural artisans and craftsmen relations with the state and life cycle service The approach is interdisciplinary and pays special attention to how rural families dealt with economic and social problems The rural Castile that emerges is a complex society that defies easy generalizations but one which is unquestionably part of the general European reality *Person and God in a Spanish Valley* William A. Christian, 2020-06-30 A classic twentieth century work in the anthropology of Catholicism *Person and God in a Spanish Valley* is a moving portrait of how individuals and communities in a remote mountainous valley of northern Spain relate to the divine In the late 1960s anthropologist and historian William A Christian Jr conducted groundbreaking fieldwork in the Nansa Valley one of the most devout regions of Spain With sensitivity and uncommon insight Christian describes the complex system of shrines devotions and pilgrimages that existed in the region for centuries and recounts the disruption of the valley's traditional way of life as young priests from urban centers arrived carrying a more modern Vatican II version of Catholicism *Person and God in a Spanish Valley* places Catholic faith and practice within a broader history of agrarian politics and reform in northern Spain and stands as a landmark work of modern anthropology **Witchcraft and Magic in Europe, Volume 6** Willem de

Blecourt, Ronald Hutton, Jean La Fontaine, 1999-01-01 Witchcraft continues to play a role in the modern European imagination and in its cultures This book brings together studies of its most important modern manifestations The volume includes a major new history of the origins and development of English Wicca an account of satanic abuse mythology in the Twentieth Century and a survey of the continued existence of traditional witchcraft [Social and Ecological History of the Pyrenees](#)

Ismael Vaccaro, Oriol Beltran, 2016-06-03 This major work of historical ecology advances the integration of research on environmental and social systems contributing important lessons for contemporary natural resource policy and management A diverse international region the Pyrenees has been characterized as a quintessential example of rural areas across Europe and North America The authors use qualitative and quantitative methods from economics history anthropology and ecological science to integrate human agency and ecology across a landscape that moved from agricultural and pastoral production to industrialization then experienced acute depopulation and now is becoming a focus of conservation and tourism The book shows how today s most pressing resource policy challenges are best illuminated by this broad long term understanding of humans and landscapes **Gypsies in Madrid**

Paloma Gay y Blasco, 2020-05-26 Throughout the twentieth century Spanish people have deployed conflicting sexual moralities in their struggle for political supremacy within the state The Spanish Gypsies or Gitanos who live at the very bottom of the Spanish socio economic scale have appropriated this concern with gender morality and in the process have reinvented themselves as the only honourable Spaniards Although the Gitano gender ideology has a distinctively Spanish flavour it revolves around a conceptualization of the female body that is radically different from that of other Spaniards The subtle exploration of these acts of cultural invention is one of the original features of this important new ethnography Another even more striking aspect of the work is the author s vision of the impermanent nature of the Gitano social order and the absence of any representation of community or society Unlike their non Gypsy neighbours Gitanos do not use concepts of tradition territory or social harmony as bases for their singularity Instead they focus on the evaluation of personal moral performances in the present In a cultural universe where all activities are markers of shared identity and where personhood is always sexed men and women continually enact the superiority of Gypsies over non Gypsies Through dress manner and the management of emotions or at wedding rituals where the virginity of young brides is put to the test the body works as the site of these processes *The Circle of Mountains*

Sandra Ott, 1993-11-15 Ott provides an excellent ethnography of a French Basque agrarian and shepherding community The commune of Sainte Engrace extends along a mountain valley in the southeastern corner of Soule one of the three Basque provinces in France In *The Circle of Mountains* Sandra Ott examines the importance of cooperation and reciprocity as the essential basis for the main institutions within this community These French Basques visualize their community as a circle and their vision of living in the circle of mountains rather than in a valley reflects their perspective on the society in which they live The first half of the book incorporates material on history ecology and economy and delves deeply into the domestic organization kinship and

neighborliness of this Basque community In the second half of the book the author introduces the males customary roles as shepherds and cheesemakers Following a detailed commentary on these vocations Ott suggests that these seemingly prosaic activities represent the male attempt at symbolic fulfillment of the female procreative and nurturing roles In a new afterword Ott discusses developments that have impacted life in the pastoral community of Sainte Engr ce since the original publication of the book including the acquisition of telephones and the construction of roads to nearly every home The Circle of Mountains will be of interest not only to social anthropologists but also to those concerned with the Basque language and culture and to scholars and students of ethnology international studies and political science **Villagers of the Sierra de**

Gredos William Kavanagh,2020-08-25 This is the first study of a transhumant cattle raising community in Spain Transhumance is the seasonal moving of livestock to another region This book shows the social and economic factors upon which the continued vitality of this mountain village is based the use of communal summer pastures the transhumant groups which walk the cattle to the winter pastures over the mountains and the system of taking turns for many tasks within the village The book analyses the sharp divisions between the more rigid organization of life within the village and the organization of life outside the village in the transhumant group which goes to the winter pastures in Extramadura

Regulating the People: The Catholic Reformation in Seventeenth-Century Spain Poska,2023-07-03 This study of early modern Spain uses parish records to examine the content of religious practice and belief at the parish level and the success of the Catholic Church s attempt to alter those beliefs during the Catholic Reformation The first three chapters explore the problems encountered by episcopal Visitors to parishes in the diocese of Ourense in northwestern Spain as they attempted to enforce the ideals of the Catholic Reformation program The last three chapters use both quantitative and qualitative sources to contrast the expectations of the Catholic Church with parishioner participation in socio religious activities such as naming marriage choice and the composition of testaments This work is particularly important to scholars of colonial Latin America as it describes the local religion that Spanish colonists brought to the New World **Witchcraft**

and Magic in Europe, Volume 6 Bengt Ankarloo,Stuart Clark,1999-10-14 Topics include modern pagan witchcraft Satanism and the continued existence of traditional witchcraft *Recasting Culture and Space in Iberian Contexts ,*

Neighbours of Passage Fabrice Langrognet,2022-03-03 The book is a sociocultural microhistory of migrants From the 1880s to the 1930s it traces the lives of the occupants of a housing complex located just north of the French capital in the heart of the Plaine Saint Denis Starting in the 1870s that industrial suburb became a magnet for working class migrants of diverse origins from within France and abroad The author examines how the inhabitants of that particular place identified themselves and others The study looks at the role played in the construction of social difference by interpersonal contacts institutional interactions and migration The objective of the book is to carry out an original experiment applying microhistorical methods to the history of modern migrations Beyond its own material history the tenement is an observation

point it was deliberately selected for its high degree of demographic diversity which contrasts with the typical objects of the traditional ethnicity based scholarship on migration The micro lens allows for the reconstruction of the itineraries interactions and representations of the tenement s occupants in both their singularity and their structural context Through its many individual stories the book restores a degree of complexity that is often overlooked by historical accounts at broader levels **Witchcraft and Magic in Europe, Volume 6** Marijke Gijswijt-Hofstra,Brian P. Levack,Roy Porter,1999-01-01 The end of the 18th century saw the end of witch trials This volume charts the processes and reasons for decriminalizing witchcraft It also surveys the social role of witchcraft in European communities to the end of the 19th century **Peasant Studies** ,1979 **Loyola's Acts** Marjorie O'Rourke Boyle,2023-04-28 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1997

Democracy in Modern Spain Richard Gunther,Professor Department of Political Science Richard Gunther,José R. Montero,José Ramón Montero Gibert,Juan Botella,Joan Botella Corral,2004-01-01 Based on more than 500 hours of interviews with key political elites under both the Franco regime and the current democracy extensive analyses of public opinion and electoral behavior surveys and other original research the book sheds important new light on Spain s democractic regime and its key institutions BOOK JACKET **Enchanted Maidens** James M. Taggart,2021-03-09 Spanish villagers tell many folktales that describe in metaphorical language the struggles of young men and women as they emerge from their parental families and join in love In this book James Taggart presents dozens of orally transmitted tales including Snow White Cinderella Beauty and the Beast Blancaflor and dragonslayer stories collected from seven villages in the region of CNBceres and analyzes the differences in male and female approaches to telling them His study shows how men and women use the tales to grapple with some of the contradictions found in gender relations in their culture which conditions men to be sexually assertive and to marry virgins and which teaches women to fear the men who court them Taggart interprets the male female dialogue voiced through storytelling by linking the content of specific tales to the life experiences and gender of the storyteller Men and women he finds carry out an exchange of ideas by retelling the same stories and altering the plots and characters to express their respective views of courtship This indirect narrative dialogue conveys an understanding of the opposite sex and establishes a common model of marriage that permits men and women to overcome their fear of each other and bond in heterosexual love *Choice* ,1979 *Iberian Worlds* Gary W.
